

Rixy Stages 2023

Competitor Bulletin no.2

1. **Track Surfaces.** All the stages from the start to the flying finish are sealed surfaces, mostly asphalt with some concrete. The same applies up to the stop line on most stages. The section after the flying finish of stages 1 and 3 is firm gravel - there is a slow approach to this flying finish and plenty of distance to the stop line.

The stages include sections that are close to or under trees. These are likely to be damp, slippery and have fallen leaves. There is a link section between the two stages on each loop that is a mixture of gravel, grass and asphalt.

Please bear these points in mind when selecting tyres.

2. **Service area.** The service area will be on grass. A groundsheet or similar is mandatory to prevent contamination in case oil, fuel or other substances are spilt. Spill kits must be used if this does occur.
3. **Friday night parking.** We have secure overnight parking available in Thetford. There is a 2m high fence and the gates will be locked, so this is for leaving vehicles and trailers, or for self-contained motorhomes. There are no facilities e.g. water or toilets. Conditions of use are:
 - The vehicles and contents are left entirely at the owner's risk. The site owner is not liable for any loss or damage to vehicles, and owners should ensure they have adequate insurance to cover this
 - There will be no access to the adjacent building
 - Any motorhomes parked must not discharge any fluids and owners must ensure any rubbish is taken with them

Opening times will allow entry after Friday scrutineering and sufficient time to get to Stanta on Saturday morning. If you want to take advantage of this facility, please contact Brett Murray at brettmurrayrallying@gmail.com or 07943 835220.

4. **Roadbook.** Item 18 in the SRs contains two errors. In the first paragraph, the route will be described by tulip diagrams, not stage diagrams – the second paragraph is correct in this respect. The roadbook will not be issued electronically, it will be issued as a physical book at signing-on.
5. **Video.** MAD Video will be attending the rally to record it.
