**Reason:** During the investigation of the Stewards, found out that on Friday, 4th of August, the car No 1 was refuelled in the service park. It is clear from the video that at the time of refuelling, an appropriate safe procedure was not established, a suitable safety perimeter was not established around the car, the fire extinguisher with the operator on duty was not provided by a competitor, and the organiser was not aware of the planned refuelling. Since the refuelling in the Service Park considered as a severe infringement of the safety, the Stewards decided to levy a fine of 200,00 EUR. The Stewards note that these regulations are an important safety measure to avoid fire hazard within the Service Park.

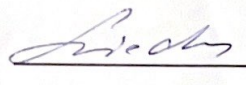

The competitor is informed of the right to file an appeal according to the provisions of the Latvian National Sports Code.
