

Hi competitors!

I'm sure, the majority of you have used the RallySafe system in the past and know the system.

But for those of you who are new to the system or simply want to refresh your memory we have attached the Competitors Manual and 2 explanatory videos.

The first video runs through the RallySafe unit operation, the second explains the RallySafe Push to Pass system so you are familiar with how this works.

If you have any questions at all, please don't hesitate to contact us or approach a RallySafe staff member at your event.

RallySafe Unit Briefing Video:
