STAGE 2

Roadbook Updates & Safety Notes SS 3 / 4 / 5

Due to recent course verification, please note the following important updates and clarifications to the roadbook:

- **Note 133 – KM 48.20**

The previously marked danger 2 jump does not exist.

► This section is actually flat, straight and fast.

- **Water Crossings**

There are only two major river crossings:

KM 3.96: Same crossing as the prologue stage.

KM 99.31: Important – It is not possible to approach this crossing with speed to "fly" over the water. The riverbed is shallow less than 30cm, over 25metter and the ground is fairly hard, but we strongly advise crossing slowly to avoid water going over the bonnet.

- **KM 98.28 – Danger 3**

► Extreme caution: This danger 3 is very poorly visible and requires maximum attention. Big hole along a Cliff!!!!

- **KM 118.19 – Mud Area**

► Keep tight to the right, following the parallel track between the trees to avoid mud.

- **KM 124.20 – Hairpin Turn**

► It is nearly impossible to complete the hairpin in a single move.

► Be prepared to perform a manoeuvre.
