Insurance cover will come into effect from the start and will cease at the end of the Rally or at the moment of withdrawal,

However the damage caused by competitors among themselves is not covered by the contract. The insurance for organizers and participants is made with an integral excess of € 200. It means that damage up to € 200 won't be refunded and damage over € 200 will be covered without the complicity of insured. 6. ADVERTISING & IDENTIFICATION

Must comply with the Article 2.1.9 of Appendix K.

7. TYRES

7.1 NUMBER OF TYRES & TYRE MARKING PROCEDURE

7.1.1 Eligible tyres

All tyres used for rally stages on tarmac and road sections must be marked «E» or «DOT» in accordance with the appropriate standard of the country in which the Competition is taking place. They must have a minimum external diameter corresponding to the period in question (see Article 8.4.2 of Appendix K) and they must not be marked «*Not for highway use*» nor «*For Racing Only*» nor imply any indication limiting, specifying or recommending a use in competition. Any alteration, modification or adaptation (which for the avoidance of doubt includes cutting of additional grooves) of tyres other than wear through normal use is forbidden. For stages run on gravel, and so declared by the clerk of the course, no «E» or «DOT» tyre marking is necessary.

a) Cars of Category 1: During Competitions classed as tarmac event (i.e. excluding gravel or snow Competitions) there shall be **a maximum of 14 tyres permitted**. Tyres must be uniquely identified with a barcode (or such other method as may be prescribed) and registered with the FIA eligibility delegate before the start of the Competition.

Checks for compliance with this regulation may be undertaken at any time during the Competition and any discrepancies will be reported to the stewards. A detailed information sheet will be available before each Competition.

b) Cars of Category 2, 3 and 4: During Competitions classed as tarmac (i.e. excluding gravel or snow Competitions) there shall be **a maximum of 10 tyres said «dry» permitted**. Tyres must be uniquely identified with a barcode (or such other method as may be prescribed) and registered with the FIA eligibility delegate before the start of the Competition.

Due to the lack of availability of «wet» tyres in their appropriate sizes, the cars listed as exceptions in the appendix to the FIA authorized wet tyre list may register a maximum of 14 tyres before the start of the Competition. Thus there is no allowance for additional «wet» tyres.

Checks for compliance with this regulations may be undertaken at any time during the Competition and any discrepancies will be reported to the stewards. The number of «wet» tyres is not limited. Only the

«wet» tyres as per the FIA authorised tyre list can be used. A detailed information sheet will be available before each Competition.

7.1.2 Tyre marking is obligatory for all the competitors.

All tyres must have a specific barcode number supplied by the 2023 FIA-approved barcode supplier. All tyres must be registered with the FIA Eligibility delegate before the start of the rally, at pre-event scrutineering.

The cars must be presented at the tyre Marking Zone with their spare wheels placed with the outer part of the rim on top, and if needed, unfastened, to facilitate the procedure. Following the marking, and before the cars departure from the tyre marking area, crews, or their team member, must properly fasten the spare wheels as required.

For Competitors taking part in the Shakedown, tyres used for the Shakedown will not be marked.

7.1.3 Tyre Marking during the rally

A wheel/tyre marking / barcode reading zone may be established at the exit of the authorised service parks or remote service zones and at the start of a stage.

The crew has to stop its car and wait for the instructions of the scrutineers and/or marshal. In the absence of scrutineers or marshals, the crew may leave the zone without stopping. A tyre mark checking zone may be established at the entrance of the authorised service parks and remote service zones.

7.1.4 Means of control

Checks for compliance with this regulation may be undertaken at any time during the rally and any discrepancies will be reported to the stewards. A detailed information sheet will be available before each rally.

7.2 TYRES USED FOR RECONNAISSANCE

Only E- or DOT-approved homologated road legal tyres are allowed. Re-treaded tyres are forbidden for reconnaissance. Any treatment (ie. removing or damaging) on road tyres side markings or texts is not allowed.

7.3 NATIONAL LAWS OR SPECIAL REQUIREMENTS
