1.7. Locations of Notice Board:

No physical notice board is used at the Race Office. Only the platforms mentioned at the Supplementary regulation will show the results, bulletins and communications.

7. Fuel

In the road sections you can only refuel at the petrol stations marked in the Roadbook with "FUEL STATION".

Quality of the fuel available at the commercial fuel stations marked in the roadbook are: **95, 100, D, D+.**

The **SHELL** and **MOL Petrol station** and the **washing bay** at the Service Park is allowed to be used for refueling and washing. Assistance is not permitted during refueling in the petrol stations (it is not a service park), only refueling.

8.2 Administrative and Technical check times.

Please see in attachment Nr.4.

10.3 Road Book Providing

Issue the RoadBook:

2023.08.10. Thursday: Before the Driver's Briefing,

2023.08.11. Friday: at the Park Fermé entry, at the end of the stage.

The roadbook signs are available in attachement Nr.2.

12. Running of the event.

The location of the Rally tables on the Selective Section will be positioned based on the FMNR's Cross Country Sporting Regulation. This means that no Red Clock sign would be shown at the STOP point. No change of the function of the control point.

12.3 Starting procedure for the special stages

On the 11th and 12th of August the special stages are going to be divided into two parts with a 15 min. neutralization. Here, a **refueling zone** is going to be established and those are marked in the road book and physically at the location as well.

Countdown to the start of the second part is done by the STELLA" device. (please see Supplementary Regulation page 26-28.)

In these zones, the competitors can refuel with a stopped engine on an environmental mat and from their own time. 1 assistant/competitor is permitted in these Zones to support the refueling. Please see the location at attachment Nr. 3. Riders can reach and leave the refueling Zone with a small road section. **Oncoming traffic is possible! Please ride with care and special attention.**

After refueling, the competitor must present himself at the end of neutralization control indicated by the countdown on his STELLA" device.

100m before the restart, there will be a yellow sign, the competitors will be able to pass this sign only in **the last 60 seconds** of the time allowed for the neutralization.

Approximately 100m after the yellow start sign, a red start sign will show the starting line for the second part, which is the end of the neutralization. **Stopping at the red sign is mandatory.** Any rolling start will be penalized as follows according to FIM rules: 2 minutes for every 30 Seconds.

Start Intervals:

Prologue: 1 min/riders; Stages: First 10 competitors starting in 2 min/rider, the rest of the competitors every 1 min.

13. Fixed Penalty

Riders, who can't complete a Section for any reason (getting lost, technical problem, etc.) but capable of arriving their vehicle to the regrouping, on until the start time of the 1st competitor (according to the timetable) the following penalties are applied:

** You must have taken start at that Leg.

Maximum time allowed may be modified by the Stewards upon the proposal of the clerk of the Course in case of non - predictable circumstances (climate, modifications in section distance, etc..)

This penalty is only applicable to crews, who:

- Complete at least 50% of the number of the selective sections of the race.
- Have started on every Leg.

If any of the above requirements are not met, the competitor is excluded from the event.

Other Penalties:

Missing TC:	60 Min. /each.
Loss of Time Card:	5 Min.
Not Leaving SS Start after 30 sec:	2 Min.
False Start:	1 Min. each
QUAD Overspeeding (130Km/h)	FIM WRRC Reg 80.7.1.4

Speed Control Zones:

There are several speed control zones along the Special Stages

Start of the Zone is marked with „DZ” and the finish with „FZ” signs at the location and in the Road Book as well. The maximum speed is listed in the Road Book.

Penalties will be applied based on FIM BWCR Reg. 82.19

The “STELLA” system gives a warning **100 meters** before the Zone (DZ) showing in **orange** the speed limit.

When you enter the “**speed zone**” the limit is shown in **red**. There is an acoustic and lighted warning if you overspeed the limit.

30 meters before the end of the speed zone the speed limit in the screen is automatically removed and blank. **The system controls the overspeeding on-line.**
