

VOYONIC

GRAMPIAN FOREST RALLY

9th & 10th AUGUST 2024
STONEHAVEN & DISTRICT MOTOR CLUB

RECCE INSTRUCTIONS

GRAMPIANFORESTRALLY.COM

BRC Reconnaissance Procedure

GENERAL

Thursday 8th August.

Be sure to sign on and collect a sticker from the Rally Hub at Milton of Crathes on Thursday afternoon between 4 pm and 6pm, you will not be allowed on the convoy without it.

Friday 9th August

The reconnaissance will start in Alford which is approximately 15 miles North West of Banchory as the crow flies, approximately 25 miles by road. It is 17 miles from Westhill along the A944. See attached detailed instructions and road map.

Start location:- OS MR NJ577160 GPS 57.23293 -2.70190 w3w ///reshaping.ultra.whisk

Convoy will assemble in the village car park beside Grampian Transport Museum in Alford at **7:00am** with the intention to commence at **7:15 am**.

There will be two supervisory cars, one at the front of the convoy and one in the centre. Supervisory cars will have yellow beacons and be equipped with MUK safety radios. In addition a Stage Recovery unit will follow the convoy in case of breakdown.

The maximum speed on all forest roads is 30mph.
Running order will be as close as possible to seeded order.

The convoy will regroup behind the lead supervisory vehicle, at the start of each stage. Each car should follow the previous car after about a 10 second gap. This gap should then be maintained as closely as possible. Any crew 'holding back' to leave a bigger gap will be reported and may be penalised. Other than in an emergency, cars should not stop in the forest.

FUEL & FOOD

After the first two stages we return to Banchory and thereafter the planned reconnaissance route does not pass any roadside fuel stations or food outlets. The route will cover approximately 110 road miles, 85 Stage miles and take at least 8 hours. Crews should ensure they have enough fuel, food and drinks.

STAGES

Stages will be done in the following order:-

SS3 Clatterin Kist 1st, SS4 Whitehaugh 1st, SS3 Clatterin Kist 2nd, SS4 Whitehaugh 2nd .

SS5 Durris 1st and 2nd,

SS1/7 Hurlie Bog 1st, SS2/8 Finglennie 1st, SS9 Scare Hill 1st,

SS 1/7 Hurlie Bog 2nd, SS2/8 Finglennie 2nd, SS6 Drumtochty 1st(Partial)

SS6 Drumtochty 2nd (Partial), SS9 Scare Hill 2nd

Note that SS1 Hurlie Bog is the same as SS7 and SS2 Finglennie is the same as SS8, therefore only two runs of these stages will be performed.

SS6 and SS9 are more complicated. The the final 3.5 miles and the finish are the same but SS6 uses Drumtochty and SS9 uses Scare Hill, therefore to keep the road mileage to a minimum the following procedure will be adopted:-

First Pass SS1/7, SS2/8

First Pass SS9 Scare Hill and do complete stage then return by public road to SS1/7 Start.

Second Pass SS1/7,SS2/8

First Pass of SS6 from Start to Post 8 .

Leave SS6 at post 8 and go WD to Start of SS9 Scare Hill and then onto SS6 Drumtochty Start.

Second Pass SS6 Drumtochty to Post 8 and WD to start of SS9 Scare Hill.

Exit stage, turn round on forest road and re-enter to SS9 Start.

Second Pass Scare Hill.

Exit forest and Return to Milton of Crathes.

ROUTE

The Route Book appended to these procedures covers the whole route in the order outlined above.

The Stages are as the Roadbook.

The road sections will follow the Roadbook wherever possible, linking road sections to facilitate the reconnaissance are included where needed.

On completion of the final stage, SS9 2nd Pass, you are at liberty to return to Milton of Crathes in your own time.

BREAKDOWNS

On a road section,in case of a minor breakdown (such as a flat tyre) that can be fixed by the crew, the convoy will wait at the next stage start and the Recovery unit at the rear of the convoy will assist as necessary and will remain with the crew until they are mobile again and follow them into the next stage.

If the breakdown is of a more major nature, the crew will be expected to call their service crew to come and collect them. It is unlikely that the crew will be able to re-join the convoy in this situation.

If the breakdown occurs on a Special Stage, then the procedure for a minor event will be as for the road section. If it is of a more major nature, and cannot be corrected by the crew, then the Recovery unit will be deployed to recover the vehicle to the nearest public road. As this may take some time it is unlikely that the crew will be able to re-join the convoy.

DIRECTIONS TO GRAMPIAN TRANSPORT MUSEUM, ALFORD

FROM ABERDEEN OR WESTHILL

Take A944 from Aberdeen via Westhill to Alford. Approximately 22 miles from Aberdeen, 17 miles from Westhill. In the centre of Alford turn right down Watchmakers Lane,just opposite the Turkish Barbers (see location map) it is very narrow and easily missed!

FROM MILTON OF CRATHES

Take A93 towards Banchory centre, at the traffic lights take the A980 Raemoir Road (SP Raemoir Garden Centre) towards Torphins.

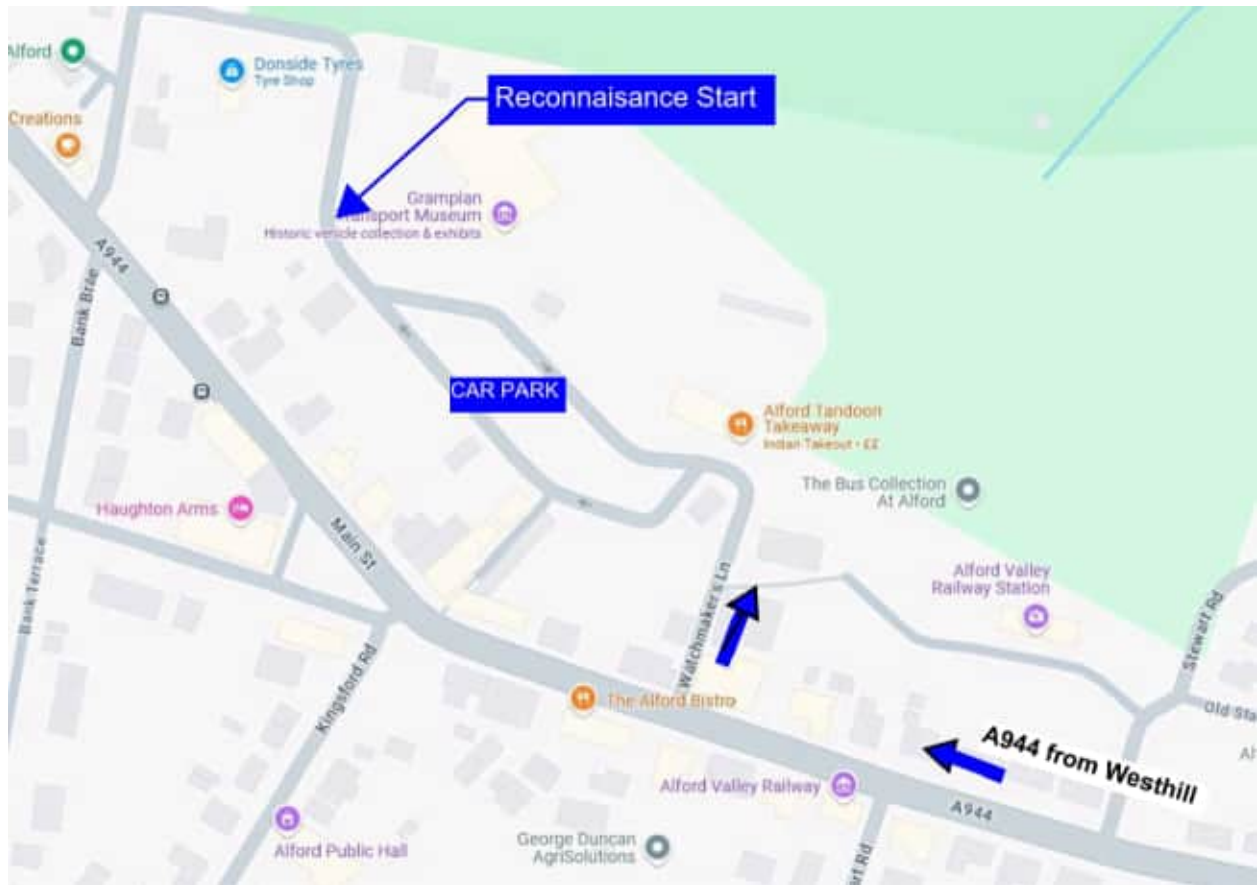

Turn left at tee junction to continue on A980 to Torphins approx 7 miles.

In centre of Torphins turn right at crossroads onto the B993, SP Inverurie B993 (A944).

Follow B993 to junction with the A944 at Millbank (approx 7 miles) and turn left.

Follow A944 into Alford as above, approx 7 miles. Total distance 23 miles.
