5 INSURANCE

5.1 Personal Insurance

All New Zealand residents and overseas visitors to New Zealand are covered by 24 hour no-fault personal injury accident insurance, where that accident is deemed to be an accident as defined in the Injury Prevention, Rehabilitation and Compensation Act 2001. Overseas visitors are recommended to have personal travel and medical insurance.

Third Party or Comprehensive Vehicle Insurance is the responsibility of the entrant/competitor.

The service vehicles, management vehicles and reconnaissance vehicles including those bearing special plates issued by the organisers may never be considered as official participants in the rally. They are therefore not covered by the insurance policy of the rally and will remain the sole responsibility of their owner.

5.2 Public Liability

Competitors and all crew members are covered for Public Liability under a master policy held by MotorSport New Zealand for an amount of **NZ\$ 10 million (approximately 5,300,00 Euro)** for the entire event.

Details may be obtained from the MSNZ website <https://motorsport.org.nz/wp-content/uploads/Certificate-Of-Insurance-Public-Liability.pdf>

5.3 Accidents

In the event of an accident the competitor or his/her representative must notify the Clerk of the Course in writing within 4 hours. The competitor must provide full details including the names and addresses of those involved and any witnesses.

6 ADVERTISING AND IDENTIFICATION

6.1 Regulation Numbers, Advertising and Identification

International permitted event

Competition numbers, advertising and Driver's and Co-Driver's names will be in accord with Articles 27 and 28 of the 2025 FIA Regional Rally Sporting Regulations and Article 27 of the 2025 V4 FIA Asia-Pacific Rally Championship Regulations. See Appendix 4.

National Permitted event

Competitors registered for the NZ Rally Championship should refer to the Championship Articles

6.2 Organiser's Optional Advertising

International Permitted event

Refer to Appendix 4

National Permitted event

Refer to Appendix 4.

Appendix 4 contains a diagram depicting the layout of the advertising supplied by the organisers which is to be affixed to each competing car in the positions shown. (Refer also to the NZRC Articles)
The advertising is mandatory with the exception of areas A1 to A4 which the competitor may elect not to carry on payment of a fee of \$500.00.

This fee must be paid to the organisers prior to the commencement of documentation.

6.3 Placement of Numbers, Advertising and Identification

Competition numbers, rally plates and advertising must be fixed to the car before scrutineering. Organiser supplied service vehicle plates shall be placed on the top left hand corner of the Service Vehicle front windscreen before admittance to the Service Park.

7 TYRES

7.1 Tyres specified for use during the rally

The use of studded or spiked tyres is prohibited under pain of exclusion. Refer also to Article 60 of the 2025 FIA Regional Rally Sporting Regulations.

Competitors competing in the 2025 NZ Rally Championship shall use tyres that comply with the 2025 NZRC Championship Articles.

7.2 Tyres for use on reconnaissance

The tyres used during reconnaissance must be either an FIA approved road tyre or an equivalent standard road tyre designed primarily for normal road use meeting the following criteria.

Tyres must not exceed a tread depth of 8.5 mm. Straight circumferential grooves may be no wider than 10 mm. All other grooves at any angle to the circumference may be no wider than 7 mm.

8 FUEL

8.1 Fuel Specification

Fuel shall comply with the provisions of the FIA International Sporting Code, Appendix J Article 252.9. The use of unleaded commercial petrol available at petrol filling stations complying with Article 252 is permitted.

The FIA have granted a waiver for the use of bio fuel to help local drivers to participate in their home rally.

All competitors shall familiarise themselves with the Code of Practice for Motorsport – Fuel Storage and Handling and be aware of their obligations under this code, particularly with respect to the transportation and handling of fuel.

This is a legal requirement and the Code can be downloaded from www.motorsport.org.nz

8.2 Distribution during the rally:

- Leg 1 – Mahinerangi Road (between SS1 and SS2)
Nenthorn Road (after SS6)
- Leg 2 – Forsyth Road. (between SS and SS10)
Webb Road (after SS11)

Note: All Competitors will need to make their own supply arrangements.

Full details will be shown in Rally Guide 2 and the Road Book.

9 RECONNAISSANCE

9.1 Procedure for Reconnaissance

The use of Stage Notes will be permitted provided that they are original copies as created for this Event and supplied by the MotorSport NZ authorised provider, Neil Allport Motorsport. An opportunity exists for competitors who purchase the approved stage notes to take part in a two-pass convoy reconnaissance. This opportunity is **NOT** available to those who do not purchase the notes.

Notes shall be ordered directly from the supplier using the order form on their website www.allports.nz

NOTE: The cost for stage notes and reconnaissance is not included in the entry fee.

INFORMATION:

The stage note system uses an automated computer program to generate a description of the special stage road using sensors fitted to a vehicle driven through each stage.

Such notes describe the route in more detail than the Road Book and can be used without reconnaissance.

The purchase and use of the stage notes is a direct contract between the competitor and Neil Allport Motorsport with the Otago Sports Car Club's involvement being limited to authorising the use and facilitating the preparation and distribution on behalf of Neil Allport Motorsport.

There is no obligation on any competitor to purchase these stage notes.

Reconnaissance Programme:

Thursday 3rd April

Suggested order.

Stages: 10,10,9,11,9,11,14,14,15,15,1,13,1,13.

495km, South & West of Dunedin between 0715 and 1630 hrs approx.

Friday 4th April

Stages: 2,2,4,5,3,4,5,3,7,7

425km, North & West of Dunedin between 0715 and 1500 hrs approx.

More details will be provided in Supplementary Regulations Part 2 – refer Appendix 2.

9.1.1 Registration for reconnaissance

Before starting reconnaissance all crews must register at the Rally Secretariat to get the necessary documentation. Registration for reconnaissance is available on Wednesday 2nd April between 1200 hours and 2000 hours.

Crews may have another team member collect their documentation ONLY if their entry form is fully completed. If this is not the case they must register in person.

Each crew will be issued with 3 sets of numbers. The 2 x large numbers will be displayed on the rear side windows of the reconnaissance car. The 1 x small number will be displayed on the co-driver's side top corner of the front windscreen.

9.2 Running of Reconnaissance

9.2.1 Timetable

The forestry stages run in a closed forest will be run in a guided convoy. This applies to SS1/12 and SS10. Other stages are run **entirely on roads open to the public**. Further details will be published in Rally Guide 2 – refer appendix 2.

The most efficient recce sequence is given in clause 9.1.

Competitors are required to download the RallySafe Lite App which shall be used to monitor recce activity. The cost of this is included in the recce fee.

Marshals may be placed at the start of stage to record entry times.

The recce schedule has been planned to allow those who are only doing the one day (Saturday) to start recce on Thursday afternoon at the start of SS1/12 (Berwick) at approximately **1.45 pm**.

In addition, for all those competitors who only wish to do one pass of SS7 (Nenthorn), there is an opportunity to return to Dunedin after the first pass without circling back around to do a second pass.

Note:

- SS8 (Tarmac Super Special Stage) will not form part of the convoy reconnaissance. Competitors may walk around this stage at a time of their choosing.

9.2.2 Respect of Reconnaissance Timetable

No late entry into a special stages 1/12 and 10 will be permitted. No entry allowed into any stage after 5.00pm

9.2.3 Number of passages

Each crew is limited to two passages on each special stage. Crews will only be permitted to enter and leave special stages through the start and finish controls. Further checks may also be carried out within the special stage.

9.2.4 Speed during reconnaissance

The maximum speed limit on special stages is 80 kph unless the traffic signs, the road book or bulletins indicate a lower speed limit.

9.2.5 Headlights

For safety headlights must be switched on while driving on ALL special stages.

9.2.6 Number of persons

During each passage through a special stage, only the competing crew is permitted in the car unless dispensation is given by the Clerk of the Course.

9.2.7 Penalties for Breach of Speed Limits – International Permitted event

Refer Article 35 of the 2025 FIA Regional Rally Sporting Regulations.

Speeding during reconnaissance will incur a fine applied by the Clerk of the Course as follows: Per km per hour over the speed limit, all drivers €25.

The amount of this fine will be unaltered by any fine imposed by the police. The fine will be doubled in case of a second offence committed during reconnaissance in the same rally.

10 ADMINISTRATIVE CHECKS

Any NZRC competitor that wishes to take advantage of Remote Scrutineering shall first contact the Championship Scrutineer Greg Dietschin on 027 454 5304. Please note that NZRC competitors shall present their Logbooks to the Championship Scrutineers at the scrutineering venue on Friday 4th April at the times scheduled

Remote Safety Audits will be available prior to the event. Details will be included in Rally Guide 2. – refer Appendix 7

11.2 Mud Flaps / Windows / Nets / Noise Level – International Permitted event

Refer to the 2025 FIA International Sporting Code Appendix J, Article 252.7.7, 253.11 for relevant details.

The use of transparent and colourless anti-shatter films (maximum thickness: 100 microns) is compulsory on side and sunroof windows, unless they are in polycarbonate. Rear side sunroof windows may use silvered or tinted films (see conditions below) in replacement of transparent and colourless anti-shatter films.

The use of silvered or tinted films is authorised on the rear side windows, on the rear windows and on the sunroof, on the following conditions:

- Silvered or tinted films fitted on rear side windows must have an opening equivalent to the surface of a circle of 70 mm in diameter so that the driver as well as the contents of the car may be seen from the outside.

11.3 Clothing and Safety Apparel

International Permitted event

It is a requirement that all competing crews comply with the regulations for safety in relation to overalls, approved frontal head restraint (FHR), balaclavas, gloves, boots and underwear. Refer Appendix L of the 2025 FIA International Sporting Code.

National Permitted event

Refer to MotorSport NZ Manual . **Note: Approved Frontal Head Restraints are mandatory**

11.4 Marking and Sealing

The FIA Technical Delegate will seal/mark all cars contesting the FIA Asia-Pacific Rally Championship. Other cars will be sealed/marked at the discretion of the organisers.

11.5 RallySafe Tracking System

All Competitors must make provision in their competition vehicle for the RallySafe GPS and tracking system. An overview of the system and installation instructions is available on www.rallysafe.com.au

A RallySafe Briefing will be held at 2030 hours on Friday 4th April at Rally Headquarters. This briefing is for competitors who have questions or who have not used the equipment before.

RallySafe wiring loom, antennae and mounting kit can be purchased for approx. AUD\$250.00 plus freight. Orders must be received by RallySafe to allow time for shipping to New Zealand.

The RallySafe GPS units and tracking systems will be available at Documentation and must be fitted prior to scrutineering, where the correct functioning and installation will be checked.

Competitors who retire must return their RallySafe GPS unit to the Rally Secretariat. All other competitors must return them to the RallySafe Official at the Finish, or before their cars are removed from Parc Ferme.

If the unit is damaged whilst in the care of the competitor, the competitor is responsible to pay for repairs or replacement as necessary. Insurance is available from RallySafe see <https://shop.statusas.com/shop/category/rallysafe/damage-waivers/>

11.6 Final Scrutineering

Details of post-event scrutineering are shown in Section 15 of these Regulations.

12 OTHER PROCEDURES

12.1 Promotional Requirements, Ceremonial Start and Competition Start

This year, there will be a Motorshow and Ceremonial Start in the Centre of Dunedin on the evening of Friday 4th April. **All competitors are expected to take up the opportunity to display their cars and maximise publicity opportunities for their sponsors.** Dispensations for non attendance will only be given in exceptional circumstances. A variety of activities are planned for this show including signing sessions, rally car displays, start ceremony, rally forum and much more.

The venue will be open from 1600 hours. All competing cars are to be presented at the start venue by 1730hours (please arrive early if possible) and parked where directed by officials, Cars will leave the ceremonial start as directed with the first car scheduled to depart at 1845 hours.

A Media and Publicity Day (not part of the event) will be held on a 3 km loop road on the afternoon of Wednesday 2nd April. There will be limited places available for those who wish to use it as testing however those doing so will need to take Media and Sponsors for a ride. Application to participate should be made to Roger Oakley. Roger.oakley@stantec.com

12.2 Starting Interval and Start Order

The start order will be in divisions as follows:

- (a) 4WD Classic Vehicles (National Permitted Event)
- (b) 2WD Classic Vehicles (National Permitted Event) in reverse seeded order
- (c) FIA APRC Pacific Cup / NZRC / Other Competitors

12.3 Time Cards

Time Cards will be issued at Documentation at the Rally Secretariat on Wednesday 2nd April.

12.4 Starting System for Special Stages

The start will be by the in-car RallySafe unit that displays a countdown at the start of each special stage.

A start time will be allocated by the officials at the start line and the RallySafe unit in the competing car will count down to the start.

A false start will be detected by the RallySafe System.

At the stage finish, the RallySafe unit will display the elapsed stage time. Competitors may write that time on their time card.

12.5 Early Check In

Competitors may book in early at TC8b, TC8c and TC15a without penalty.

12.6 Retirement

Any crew retiring permanently from the rally must report such retirement to the Organisers as soon as possible using the telephone number in the road book and lodging the "Withdrawal Form" in the road book with a Competitor Relations Officer or a Senior Official. Failure to comply will be liable to a sanction at the Stewards' discretion.

No competitors may leave the rally route until they have handed in a withdrawal form to the sweeper or advised Rally HQ via phone. This includes withdrawing on a touring stage.

Competitors in the National Permitted event who have handed in a temporary withdrawal form may rejoin the rally at the start of the next leg, at the 'Out Control' of a Service Park or a Time Control provided they present a completed rejoining form.

Competitors in the National Permitted event may change their co-driver in accordance with the provisions of Sch R Part 1 clause 3(1)

12.7 Traffic Offence Notice and Accident Reporting

Upon entering every Parc Ferme, competitors are required to notify a Competitor Relations Officer in writing if they or any member of their team have received a Traffic Offence Notice. The submission of an entry is also an agreement that the New Zealand Police may advise the Organisers of the details of any notices issued.

12.8 Accident Procedures / Red Flags

Crews should refer to the page at the front of the Road Book which deals with the action that must be taken in the event of an accident. Failure to follow these procedures will be reported to the Stewards of the Meeting.

12.9 Finish Procedures

The finish of the rally will be at TC15a. From there competitors must follow the directions of Officials to drive over the finish ramp and return to the final Parc Ferme.

The procedures and presentations for the awards set out in Article 14 of these Regulations shall be conducted in accordance with Appendix A of the 2025 FIA Asia Pacific Rally Championship Media Facilities and Operations Guide.

12.10 Driving Conduct – International Permitted event

Competitors must note the provisions of the FIA Regional Rally Sporting Regulations Article 34.

12.11 Official Time used during the rally

The official time for the event will be New Zealand Time.

12.12 Super Special Stage (SSS8)

Super Special Stage 8 will be a tarmac surface publicity stage in central Dunedin.

Please note that the road layout has changed since it was last used. The format for this will revert back to the 'traditional format' consisting of 4 laps of a city block. Cars will be started at minute intervals and it should be noted that more than one car may be on the course at any one time.

Gravel Rally Tyres are to be used on any driven wheels on this stage. Tyres designed to be used predominantly on tarmac surfaces will not be allowed on any driving wheels. The Clerk of the Course is the sole judge of fact in this matter.

In the event of a waved red flag the competitor must immediately slow down. If assistance is not required and it is safe to do so, continue to the Finish Control

A tyre change zone is located immediately prior to TC8.

12.13 NZRC Competitors

The "Power Stage" for categories 1- 4 will be SS 15 Kuri Bush. If for any reason this stage is interrupted or cancelled the "Power Stage" will then be SS 7 : Nenthorn.

The "Power Stage" for Category 5 competitors will be SS 7 Nenthorn.

Servicing

Servicing is only permitted in the designated Service Parks. This applies to all competitors including 2WD Classics and Allcomers.

13 IDENTIFICATION OF OFFICIALS

The post chiefs and other officials will be identified as follows:

Post Chief	Blue Vest with black POST CHIEF
Other Post Officials	Fluoro Green Vest with black CONTROL

STAGE DESCRIPTIONS

LEG ONE: SATURDAY 5th APRIL 2025

SS 1 Berwick 1 34 km

Great way to start the rally. A new configuration of the best roads in the Berwick forest. Starts with 10km of fast public roads and then moves on to arterial forest roads.

SS 2 Lee Flat 15 km

First time used in this direction. Was SS1 (Black Rock) in 2024 in the reverse direction. Wide and very fast public roads through open farmland.

SS 3 / 6 Bald Hill 11 km

Last used in this direction in 2018 (SS16). Public road stage - starts on fast wide roads and tightens to a twisty downhill finish. Also used in the reverse direction with the name "Moonlight".

SS 4 Longdale 13 km

Public road stage through open farmland with several cattle stops. Last used in this direction in 2018 (SS14). Fast downhill finish.

SS 5 Hartfield South 19 km

Very fast public road stage but with some tricky sections at the start. Last used in this direction in 2018. (SS15). Was also used in the 2024 Silver Fern rally.

SS 7 Nenthorn 37 km

Last gravel stage of the day. This stage has it all. Starts on fast public roads and then tightens in the last two thirds of the stage. Was SS17 in 2018 and SS8 in 2022. This is how it's done – Hayden Paddon and John Kennard on the way to winning the rally in 2015 in a BDA. https://www.youtube.com/watch?v=iqx9cH_r9ig

SSS 8 Tarmac Super Stage 2 km

Four laps of a city block on tarmac. Fast and exciting but watch for other cars, kerbs, power poles, and tyre bundles. Gravel specification tyres must be used on all driven wheels.

STAGE DESCRIPTIONS

LEG TWO: SUNDAY 6th APRIL 2025

SS 9 Circle Hill 28 km

Last used in this direction in 2022 (SS15). Fast public roads. The first 10km is the same as SS1 and SS 12 (Berwick). Wide, fast and flowing with medium gravel.

SS 10 Akatore 34 km

A new stage. Starts with 7km on fast public roads which were also used as the start of the Akatore Road stage in 2024 (SS 15). The stage then turns into the Akatore forest using a new configuration of roads. This section is typical Otago forestry with a variety of road conditions including a mixture of fast and narrow twisty sections.

SS 11 Barnes Road 10 km

New stage. Was used in the reverse direction in 2024 (SS 14). Fast and wide public roads.

SS 12 Berwick 2 34 km

A repeat of SS1.

SS 13 Waipori Gorge 11 km

A classic Otago stage which this year will be run downhill. Last run in this direction in 2024 (SS 7) and prior to that in 2019 (SS 6). It will be one of the slower stages this year run on a relatively twisty public road alongside the Waipori River.

SS 14 Taieri Beach Long 16 km

The longer version of this popular stage . Starts in the forest before turning onto public gravel roads. The last 9 km on public roads is the shorter version of this stage which was run in the reverse direction in 2024 (SS 10). This version was last used in this direction in 2023 (SS 14)

SS 15 Kuri Bush 15 km

Needs no introduction. Numerous in-car videos available online. This is the signature Otago stage starting at Kuri Bush on the Otago Coast and was voted the second best stage in NZ. Huge crests requiring massive commitment rewarding the brave. In 2024 this was SS 16. This is how it's done... <https://www.youtube.com/watch?v=PScjE2GuZbw&t=36s>

Appendix 2 – RECONNAISSANCE INFORMATION

Recce Written Briefing – refer also to the Supplementary Regulations

Rally Convoy Lead Car - Cory Saxton
Intermediate Cars
Tail Car – Allan Baird

All in radio contact with each other, and will traverse the stages in the order given below.

In order to try to relieve some of the congestion & delays that can occur on a large recce convoy, a new system for recce is being tested this year.

For the Forestry Stages, recce will still take the form of a controlled convoy as in previous years.

Please ensure you are at the Start of these stages at the prescribed times.

These are the only times the Forestry Stages are open for recce.

Thurs 3rd April

Start time for first pass of SS10 7:30am – 7:45am

Start time for first pass of SS1 & SS12 1:45pm – 2:00pm

Stages 1, 12, & 10 are WORKING FORESTS!

Forestry rules state a 50km/h speed limit.

Be prepared for logging trucks, YOU MUST GIVE WAY, NO EXCEPTIONS!

Lead car has radio contact with forestry operations.

Stay as close as it is safe, it's a long convoy.

For the remaining stages you are free to do them in the order and time of your choosing.

The following schedule is the Rally Organisers' suggestion of the most time efficient way to complete the recce.

Thursday Recce order: 10, 10, 9, 11, 9, 11, 14, 14, 15, 15, 1/12, 13, 1/12, 13.

Allow approx 9.5 hrs for these stages, plus travel to and from the first & last.

Friday Recce order: 2, 2, 4, 5, 3/6, 4, 5, 3/6, 7, 7.

Allow approx 7.25 hrs for these stages, plus travel to and from the first & last.

These routes are indicated in the supplied Recce maps.

GPS positions of Stage starts and finishes are in the Road Book.

Most Stages will have an official at the start, logging vehicles as they enter the Stage.

Wait for confirmation from the official before proceeding into the Stage.

You will be monitored throughout recce by the Rallysafe Light application.

Please ensure that you download the Rallysafe Lite app before you start recce and have it on at all times. You may need to check its operation throughout the Recce.

Except for the Forestry Stages, travel at no more than 80 km/h through the stages and expect to meet oncoming vehicles at any time.

Normal road speeds on touring between stages.

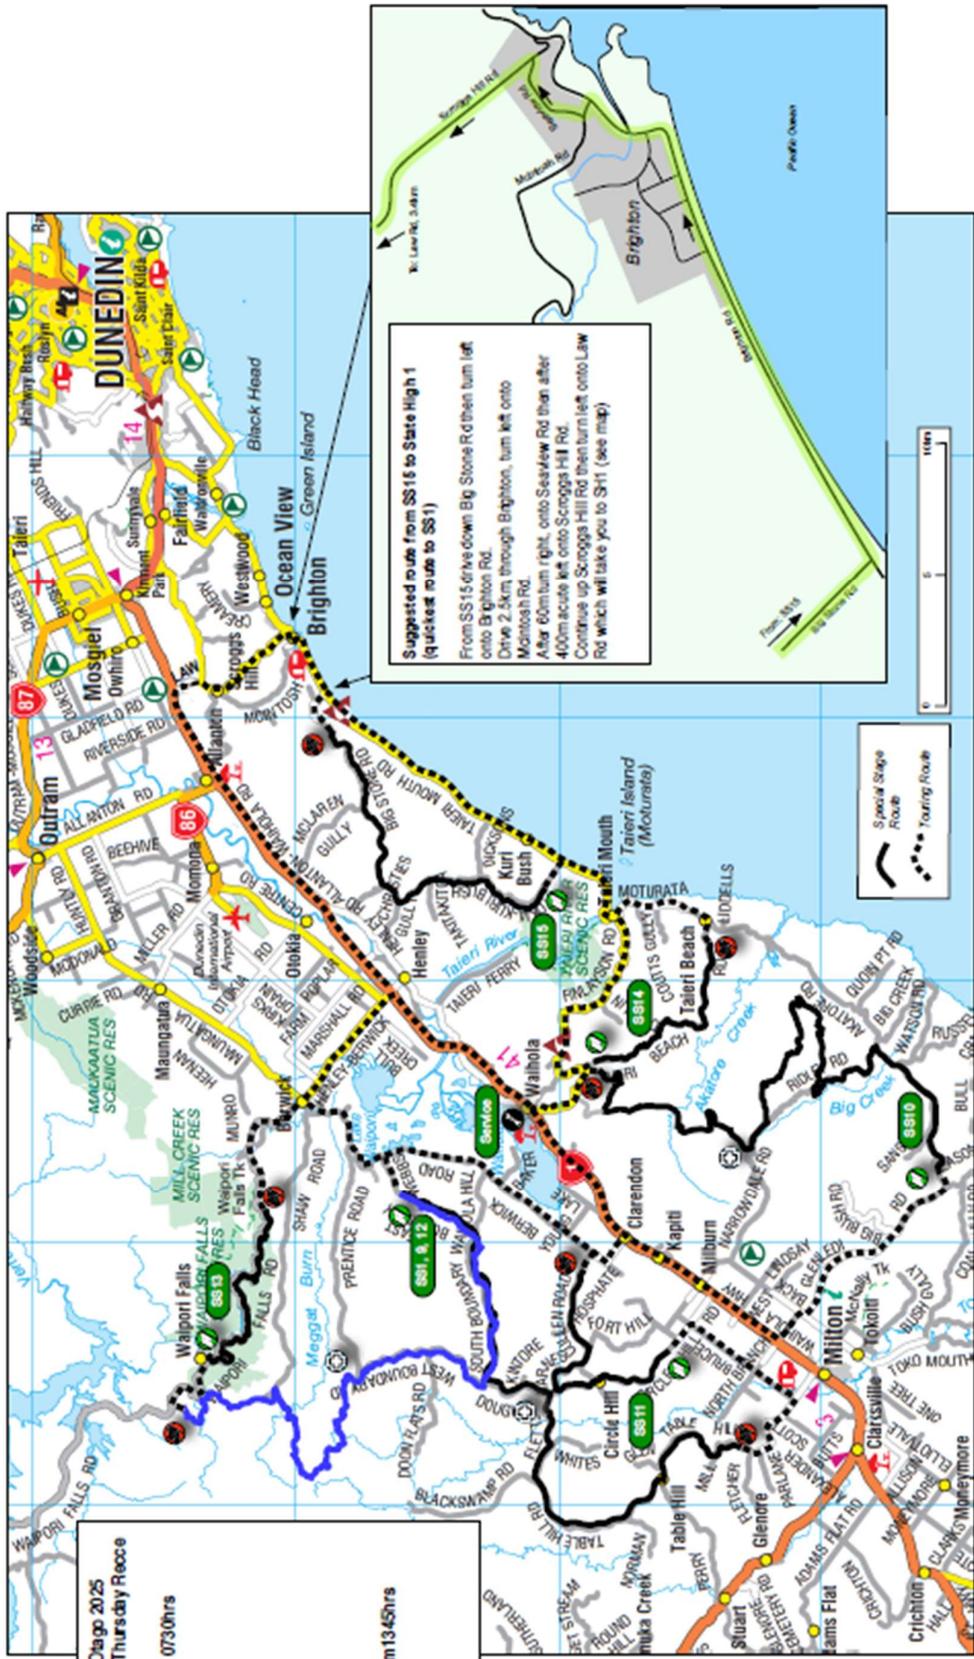

Lights on (dip) through stages.

Keep left, don't cut blind right hand bends. The roads are open to the public.

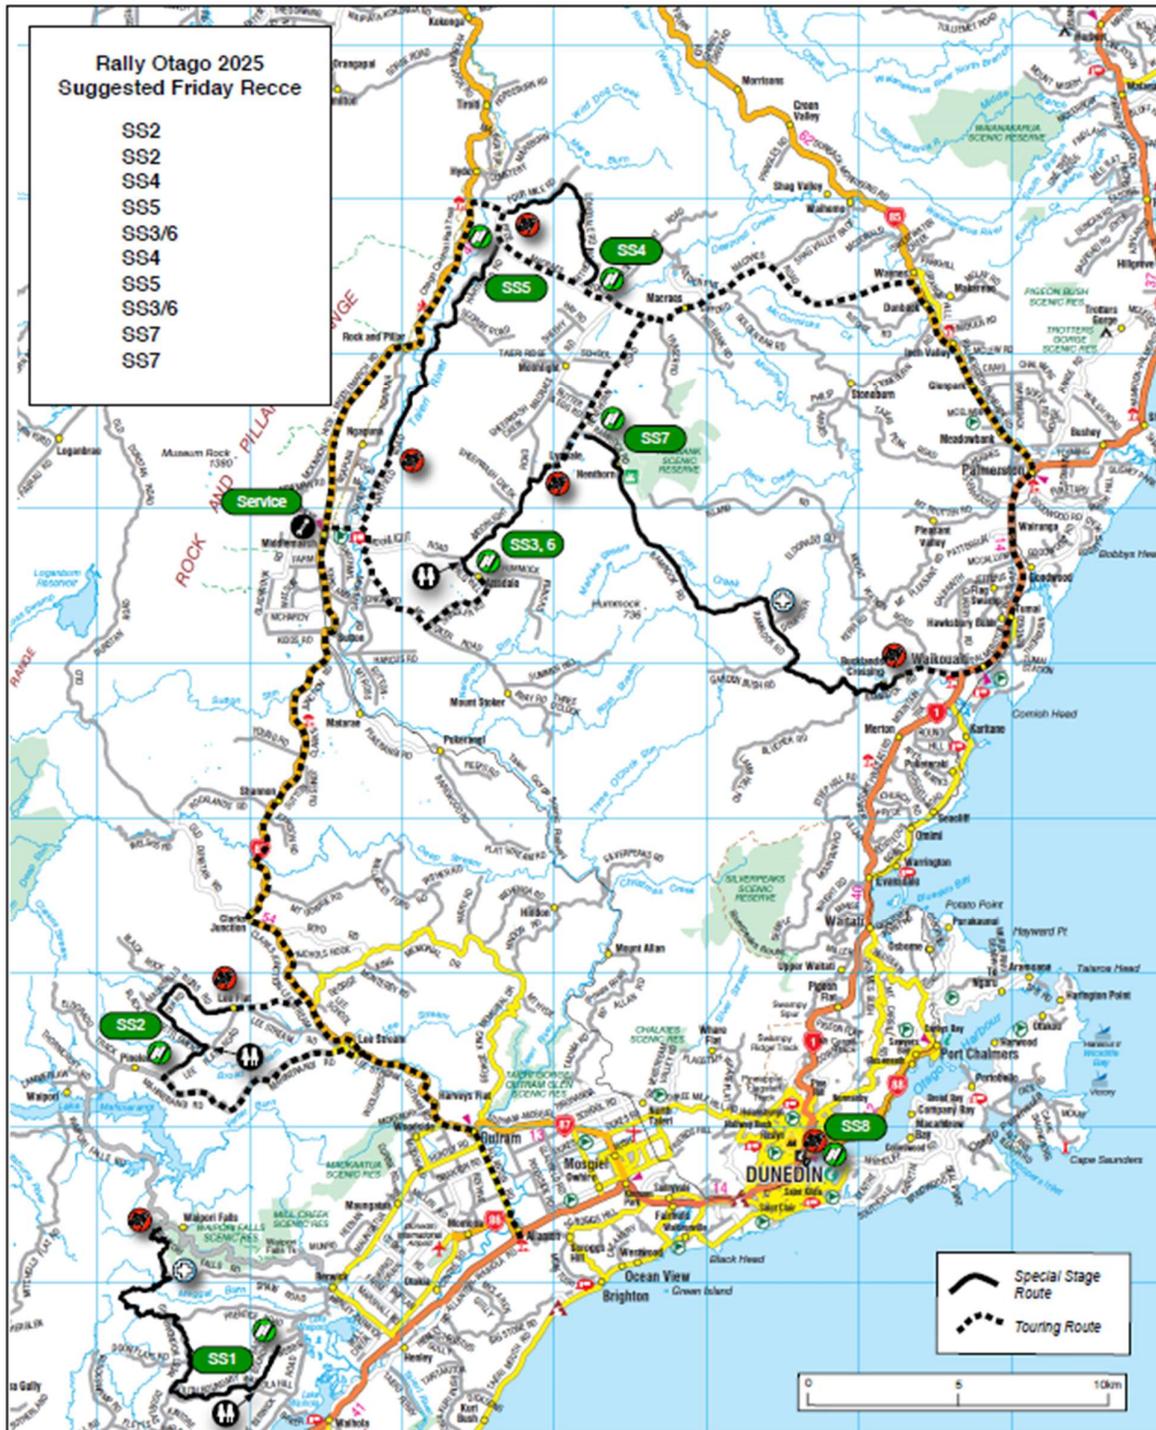

Take note of Cautions. They may not be in the Jemba Rally Notes.

Fuel is available on route, at Waihola and Middlemarch.

Appendix 5 – SAFETY EQUIPMENT – International Permitted event

All entrants and drivers are reminded of the Appendix L to the 2024 International Sporting Code, in particular regarding chapter III – Drivers' equipment (helmets, flame-resistant clothing, frontal head restraint (FHR) and safety belts).

<http://www.fia.com/regulation/category/123>

Helmets

All crews must wear crash helmets which meet one of the standards listed in FIA Technical list no. 25.

Frontal Head Restraints (FHR)

FIA approved FHR systems are mandatory.

The wearing of any device intended to protect the head or neck and attached to the helmet is prohibited, unless the device has been homologated according to the FIA Technical list no. 29 and 41.

Flame-Resistant Clothing

All crews must wear overalls as well as gloves (optional for co-drivers), long underwear, a balaclava, socks and shoes (see also Art. 11.3 in these regulations) homologated to the FIA 8856 2018 (FIA Technical List no.74) or 8856-2000 standard (FIA Technical list no. 27).

Appendix 6 – Information – RecceLite

RS RecceLite® from RallySafe®.

While RallySafe Lite has been developed with the best intentions, we are not liable for individual phone performance, quality, or battery life. We recommend that competitors should carry a portable phone battery supply or have a charging cable fitted in the rally car.

An estimated 50MB of data is required for a 1-day event.

Competitor User Guide

The free app is available from the Google Play and Apple App stores.

Competitors are responsible for having a device capable of using the app with GPS tracking, connection to the available GSM network, and a battery capable of lasting for the entirety of the competition.

Considerations should be made to ensure the phone or tablet can be charged during the event and that there are no 3rd party applications enabled that may disable GPS tracking.

Phone Settings

The RSLite[®] mobile application requires access to your location for the use of transmitting your location to Race Control using your mobile device.

Ensure the application is correctly installed and updated prior to attending an event.

Ensure that the app is always running and in tracking mode during the event.

While RSLite the app should automatically prompt you to change the required settings, if you find that your mobile device is displaying warning dialogs on the tracking screen, follow these steps:

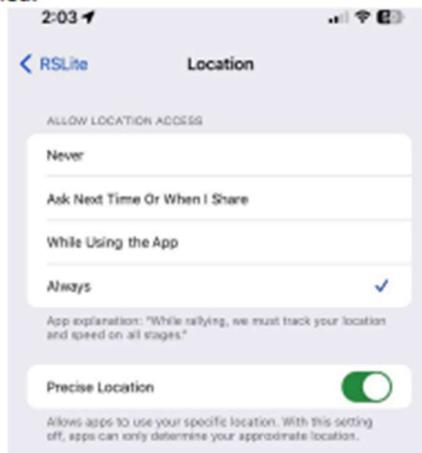

IOS Devices

The following settings must be set correctly in the Settings app (Settings/RSLite[®])

- Location: Always
- Background App Refresh: Enabled
- Mobile Data: Enabled

Another check – Select Location (on the RSLite settings page), make sure location services is set to always, and ensure that Precise Location is enabled.

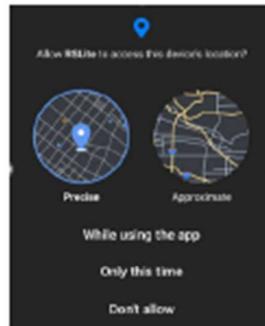

Android Devices

The following settings must be correctly set on your Android device.

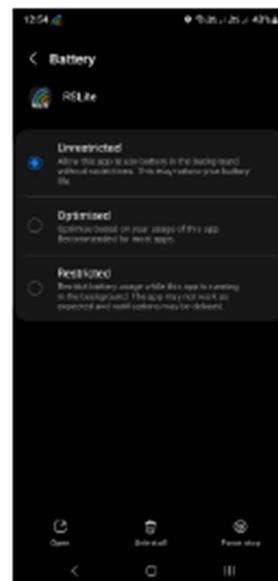

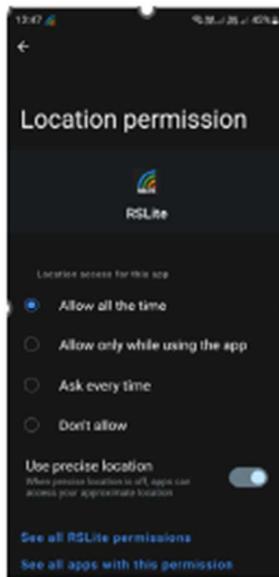

When first opening the application on an android device, the following screen should appear.

Please select "While using the app"

Shortly after making this selection, the following screen should display. Select "Allow all the time" for the tracking to be set up correctly.

Ensure the battery settings are set to "Unrestricted". The app should prompt this if it is not already set correctly.

Recce

Upon arrival and checking in at the event, each competitor will be provided with a unique code to access the RSLite[®] app.

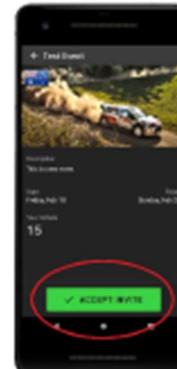

Main Screen when app is opened. Click "+ ADD EVENT".

Enter 6-digit code

"+ ADD EVENT".

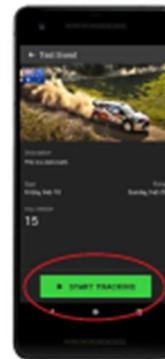

Click "ACCEPT INVITE."

The Event will now be displayed in the events list. Select the event.

Click start tracking when beginning the event.

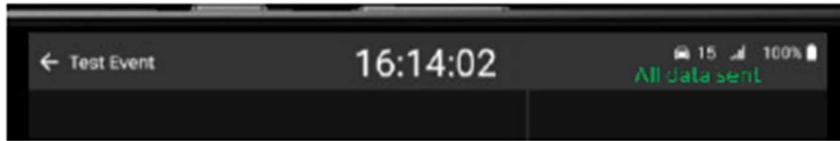

Main Screen when tracking.

When logged into the event with your code, the main screen will display your current speed, along with 2 trip meters for measuring distance. The bottom one can be reset by tapping at any time, but the top one can only be reset by pressing and holding while stopped.

Operation

The application will update automatically to have the latest information in your device; therefore, it is important to have an active data connection. Please check regularly that the data connection is still active using the information in the top bar as explained below.

On the top of your application, you can see the current status information. From left to right: [Back] [Event name] [Event time] [Car number] [Data connection] [Battery status].

On the right side the status of data is also shown as [All data sent] or [Waiting for server].

There is no input needed from the competitor to use the application once setup, the device will detect by itself if it is deemed to be on a section where speed limitation applies. Once you arrive to any stage the application will show you the speed limit on stage or section and warn you when you are speeding. Please keep in mind that this application works on GPS and all stages are considered active, depending on the layout it might be possible to see unexpected speed limitations when for example you drive on a highway close to a stage or even where the stages cross a main road.

When entering a stage, the speed limit is shown above the current speed. In this example the speed limit is set to 80km/h

When the device detects an overspeed this device will warn the user with an audio tone and a red bar as seen in this

For the best operating experience, it is highly recommended to always keep the RSLite application open at any time, being visible for driver and/or codriver. The placement of the phone in the car is important, it MUST be placed on a phone holder, with clear view of the sky to ensure all GPS data and locations are correct. Please do not minimize the application on stage. In transit sections the phone can be used for other purposes like texting or navigation, but the application should be visible and on as much as possible. At the end of the day the application can be closed by pressing the [back] button. Please do not forget to turn the application on again the next day.

If the app is intentionally disabled on stage, a report is generated in the RallySafe® web application, which may result in action being taken by Race Control.
