

TRIALGP of GERMANY

Neunkirchen– 05-07 July 2024

PRACTICAL INFORMATION

Dear Rider / Team,

On behalf of the Local Organisation of the TrialGP of Germany, please find below some practical information for the planning of the TrialGP of Germany:

Getting to the Venue:

- It is very important to use the postal code of the correct Neunkirchen for the GPS, since there are several Neunkirchen in Germany. Correct postal code is **57290**.
- If you arrive on Thursday evening, there will be a “holding area” where you can park for the night, **before being installed inside the Paddock on Friday morning**.
- For your convenience, toilets and showers will be available from Thursday evening onwards.

Catering services:

- There is a catering service on the Indoor hall next to the Paddock, which will be open on Friday, Saturday and Sunday from 12h00 until 22h00.

Shuttle transportation during competition:

- During the competition there will be a shuttle service for spectators and the paddock family.

Closing of Paddock and stand by after the weekend:

- The Local Organiser has made available some space for Trucks and Teams wishing to stay after the event. However, all tents need to be packed no later than Monday at 08h00, when the venue resumes its “usual” working activity.
- The exact location for parking will be indicated by the local organiser.
- No Electricity and water will be available, but toilets and showers will still be in service.
- Training will be possible from Monday until Wednesday in sections 1, 10, 11 and 12 (training is at your own risk and outside of the FIM Trial World Championship organisation).

N.B: The FIM is in no way responsible for all information, indications, organizations and their consequences when these concern subjects outside the framework of the Event, as defined in the FIM regulations.
