

TRIALGP of GREAT BRITAIN

Anglesey – 24-26 July 2026

Practical information

Dear Participant,

Please note that the Local Organisation of the 2026 TrialGP of Great Britain has informed us that, due to logistical and local authorities requirements, **the installation of Paddocks A and B must be completed before Friday, 24 July, at 11:00.**

To facilitate this, it has been **exceptionally** agreed to grant access to the paddock areas for parking and installation on **Thursday, 23 July**, according to the following schedule:

Paddock A: 11:00 – 18:00

Paddock B: 14:00 – 18:00

For participants who have **already planned** to access the paddock on Friday morning, the **originally allocated time slots will remain valid.**

Paddock services (water and electricity) will be available from Thursday at 11:00.

Drilling or fixing to the ground (tarmac-asphalt) in the paddock is **strictly prohibited**. The circuit owner will charge the persons responsible for any damage identified during their inspection that will take place during the event.

Please note that **riding within the paddock** area is also **strictly prohibited**.

For the purposes of safety, **the course is strictly one-way** and is clearly defined, this also applies when visiting the practice area. Any riders / assistants / mechanics / team managers not following the designated route will be reported to Race Direction.

Updated Event Timetable is now available on the [TrialGP Noticeboard / Sportity app](#).

Please note that Anglesey Circuit operates a strict no animal policy, therefore no dogs / animals allowed on site at any time.

Thank you for your cooperation.
