Track, sectors...

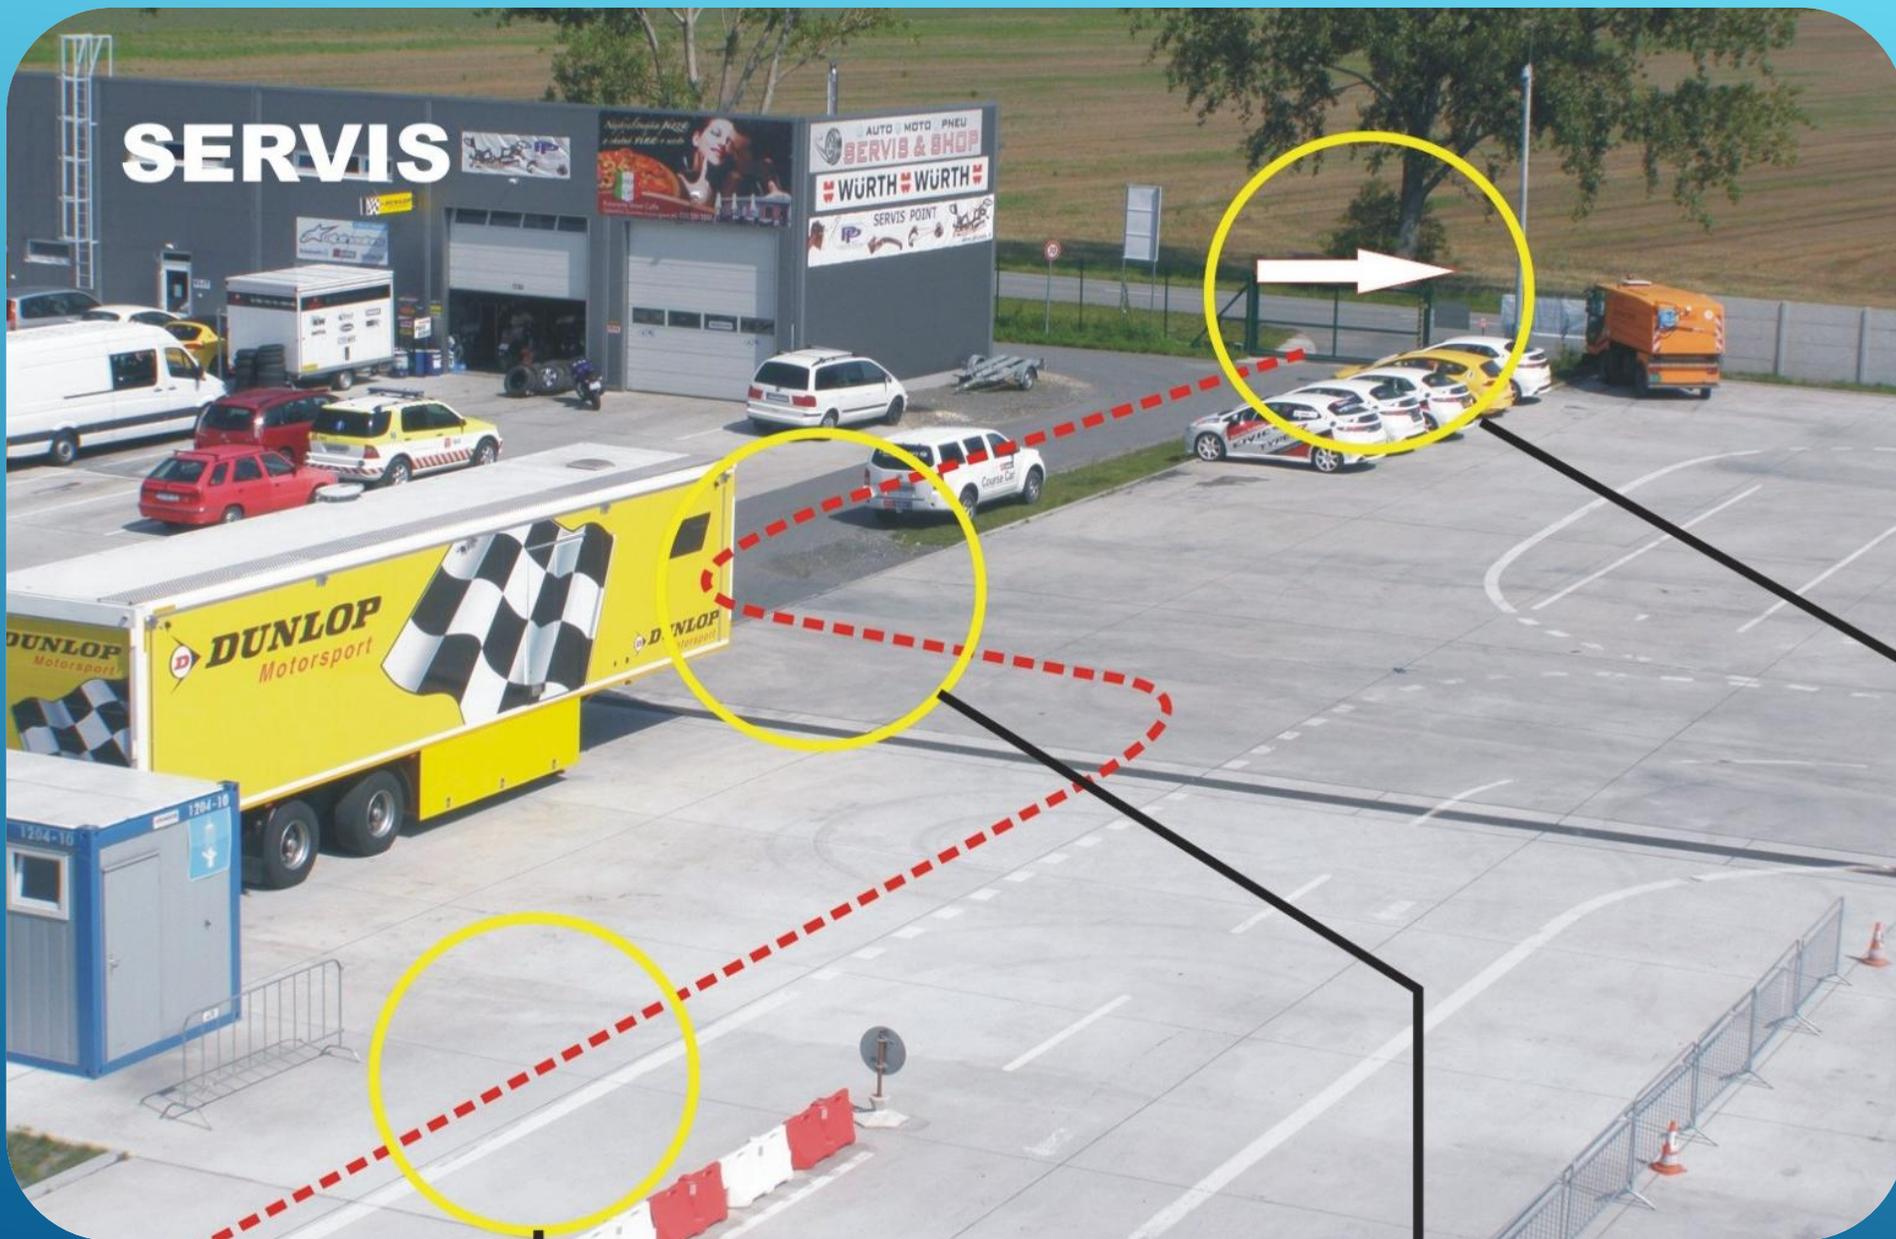

Access for race cars and paddock teams into the pit lane

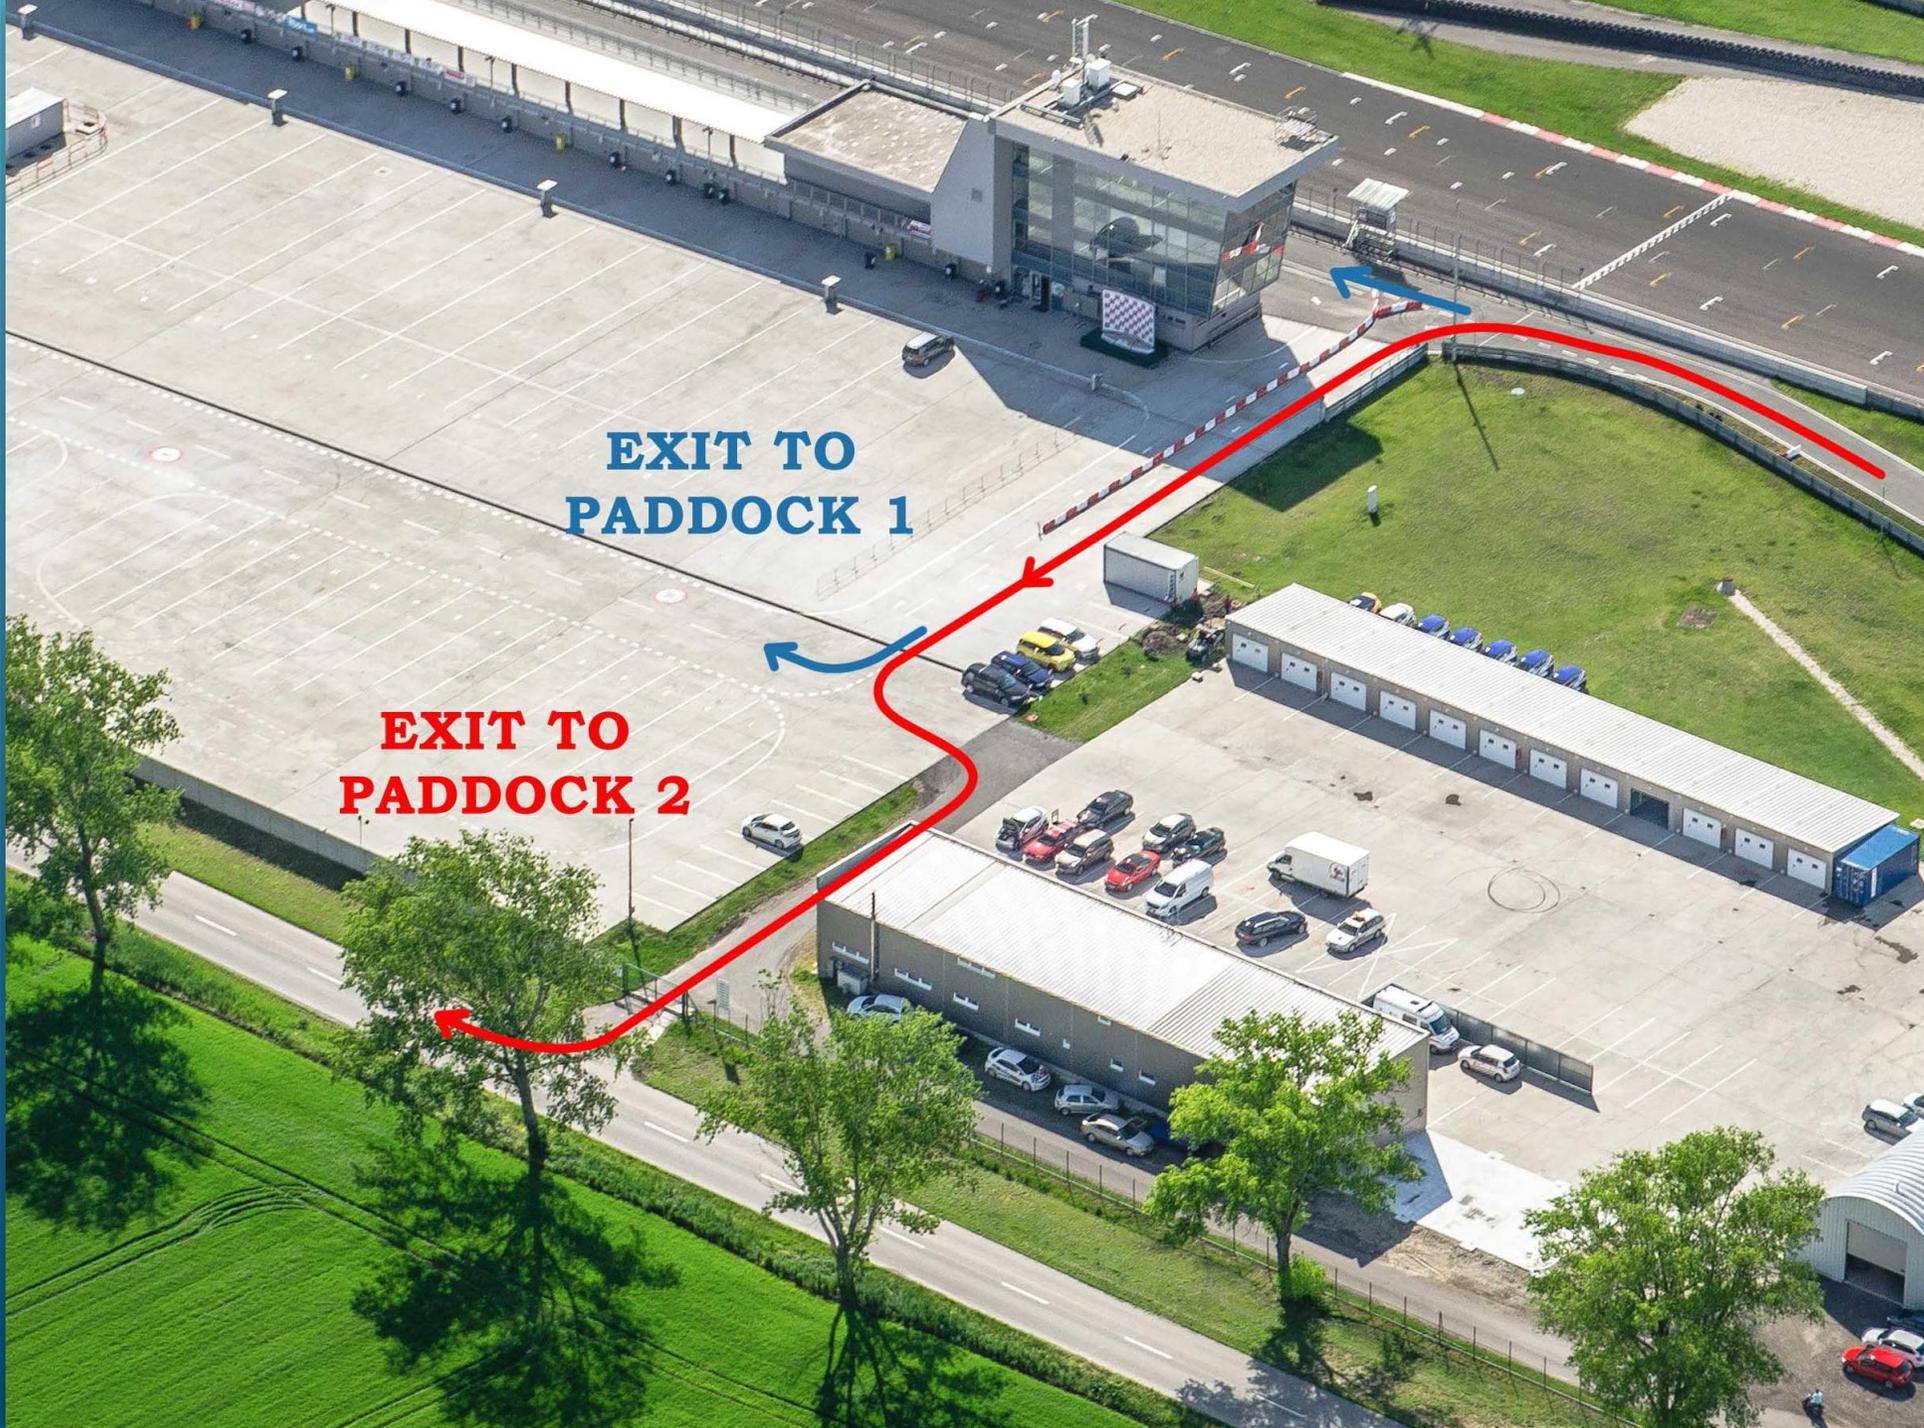

Track access from Paddock 2 (if it will be used)

EXIT to Paddock 2

**EXIT TO
PADDOCK 1**

**EXIT TO
PADDOCK 2**

Only team members are allowed to enter the pit lane, the pit wall and the starting grid !!!

Access for the team members

- All staff in the pit lane must wear the access pass which you will receive during the administrative check
- If possible, **clearly visible**
- **5 passes** for 1 team : **1 manager and 4 mechanics**
- for **endurance race** we will use **vests for mechanics** and **„captain“ armband for manager**, refuelling crew in flameproof clotting don't need any approval

Pit exit

It is strictly forbidden to cross the white line by the driver coming out of the pit lane

60

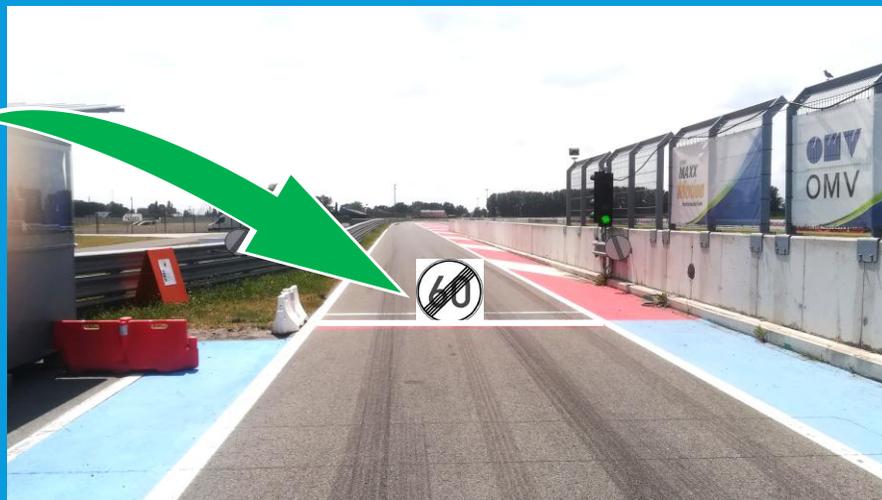

Beginning

radar

Speed limit in the pit lane

Ending

the mandatory pit lane time 120s during endurance race will be measured between these two lines

radar will be used and a fine of €100 will be imposed for each violation

Qualifying and starting grid

Qualifying

- 25 min.
- 30 min. for endurance
- 20 min. Twingo Cup

Qualification limit for all classes

120% of the fastest time (110% for Twingo)

If I don't reach the limit?

A written request to the director no later than 70 minutes before the race

Race 1 starting grid

According to qualifying 1 times

Race 2 starting grid

According to qualifying 2 times (if your class has 2 qualifications)
Twingo according Race 1

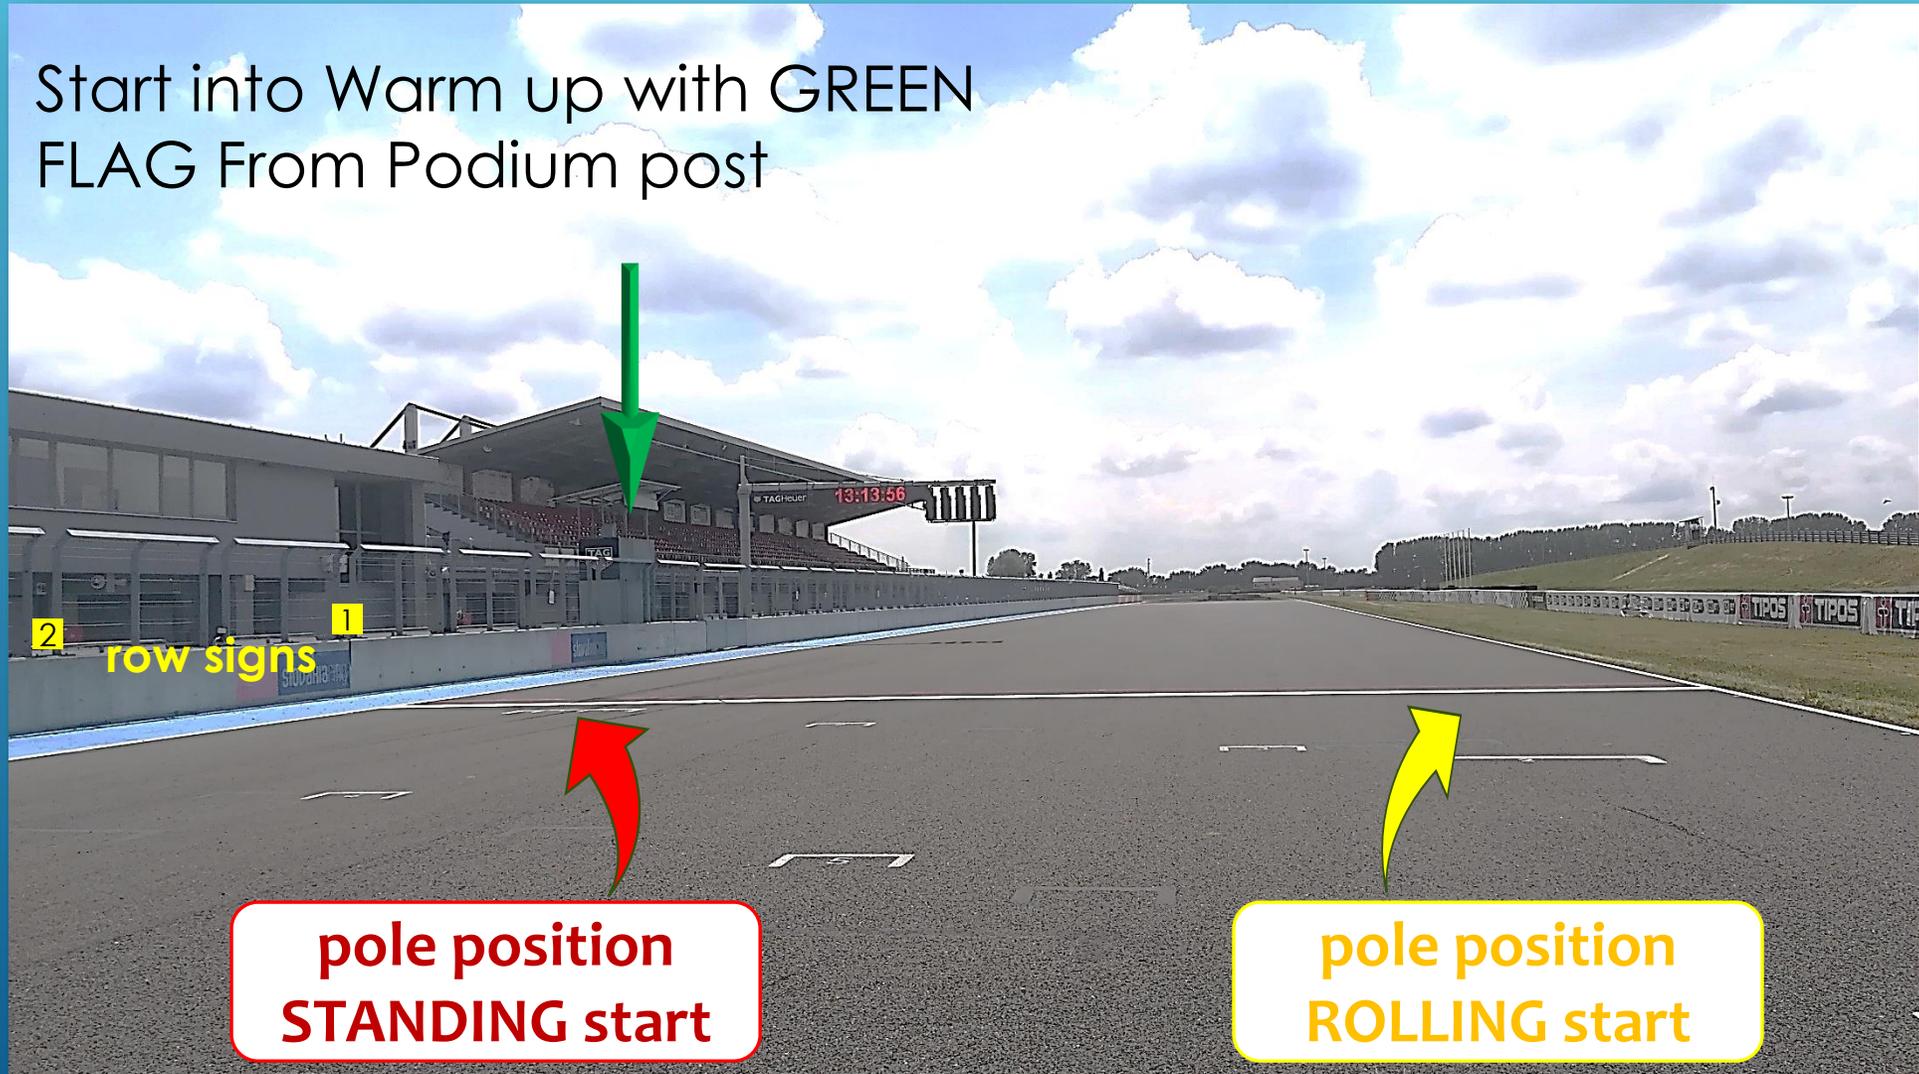

where can i find the starting grid

It will be published max. 60 min before the start in the sportity app

STARTING GRID

Start into Warm up with GREEN FLAG From Podium post

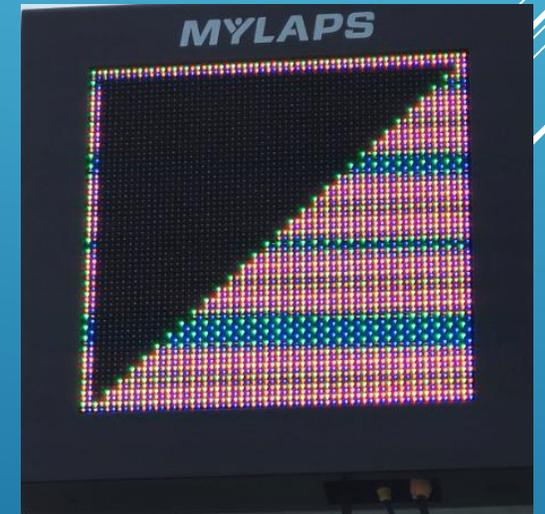

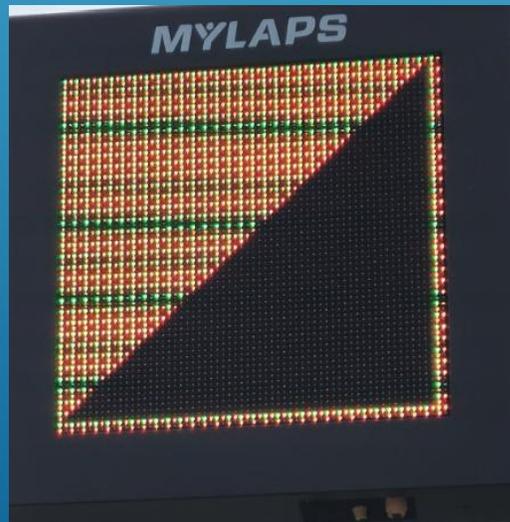

**pole position
STANDING start**

**pole position
ROLLING start**

signalisation

- We will use flag signalisation
- But in addition LED light signals
- For example :

signalisation

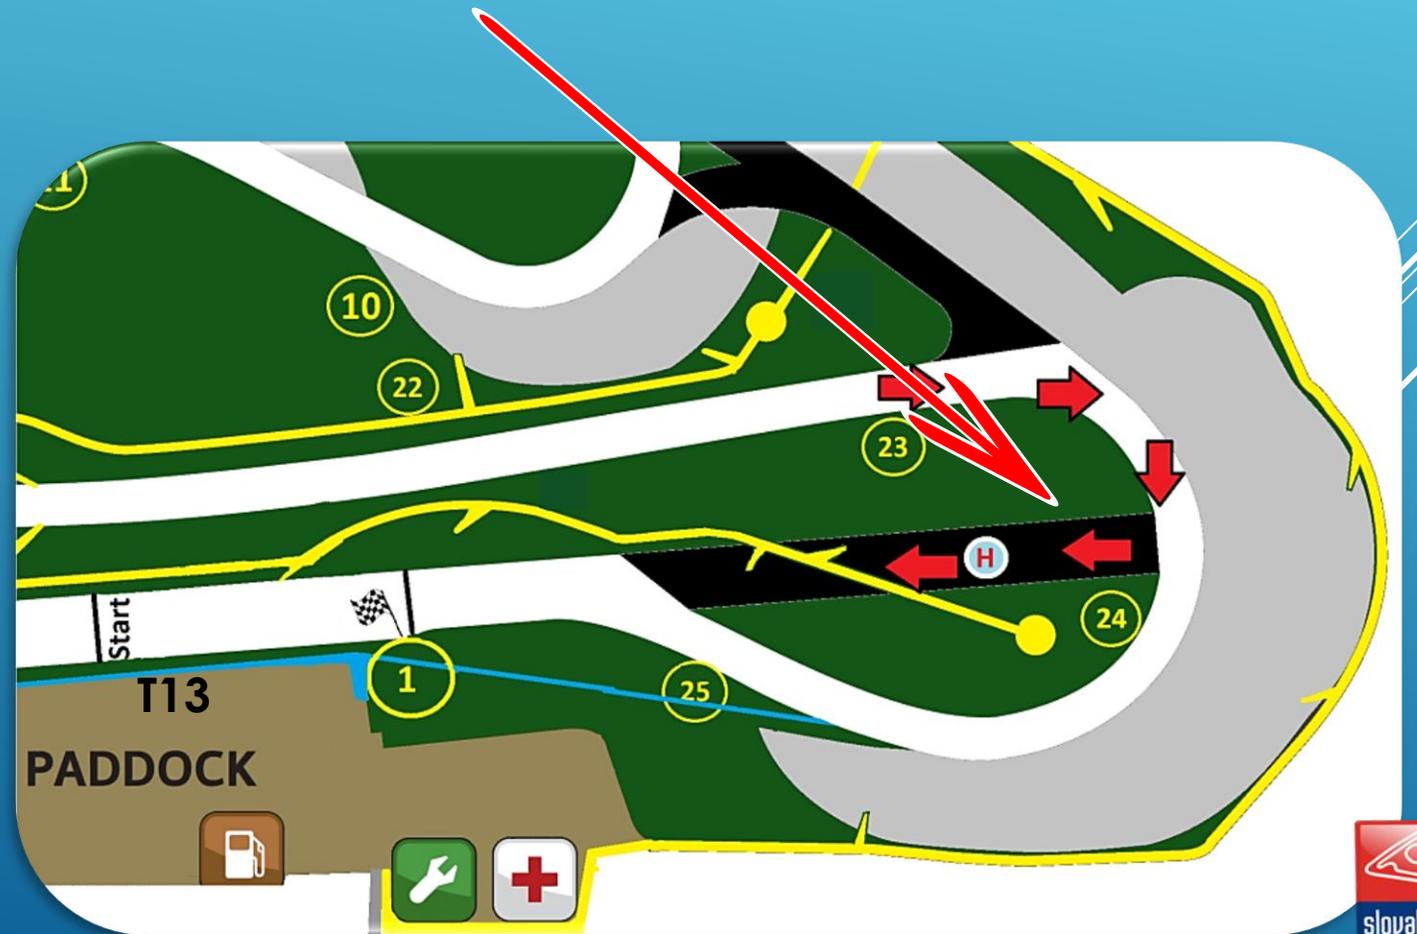

- we will also use an information LED panel which is installed near the starting lights
- this LED panel will replace or will be in addition to boards
- can display all flags and all boards

access to the grid

In the case that more than 34 vehicles will be on grid, access to the grid will be coordinated by Marshalls through the old heliport in turn No. 13

Remember that after the start the race will continue according to the classic layout

pit lane

It is forbidden to enter the fast lane before opening of the PIT EXIT

starting procedure

pit exit open for 5 min.

on the grid :

5 min

wheels must be fitted

3 min

the car must stand on its wheels

1 min

engine start

15 sec

everybody must leave the grid

LED Signalization

standing start

5 sec

- after the last car is in place
5 sec. sign from podium post
- Twingo - red lights come on every second = 5s
- starting lights (red) are turned on and off (2-5 s)

MOMENT OF START IS WHEN STARTING LIGHTS ARE TURNED OFF

if a problem arises, after the formation lap:

- the driver must raise his hands above his head or open the door or flash lights
- if the starter decides, the yellow lights will be shown and an "EXTRA FORMATION LAP" board will be displayed – keep engine running
- a few seconds later the green lights will be switched on
- the car which has caused the start abort will be pushed into the pit lane

EXTRA FORMATION LAP

ROLLING START – D4 GT, TC-2.0 and endurance

- behind the leading car into the formation lap.

at the last
elevation (marshal
post 21)

from this point the cars
line up in formation

- the lights will be red, the cars **must** hold the 2x2 formation and the vehicle on the pole position gives guides the rest of the field at a speed 70 - 90 km/h. *

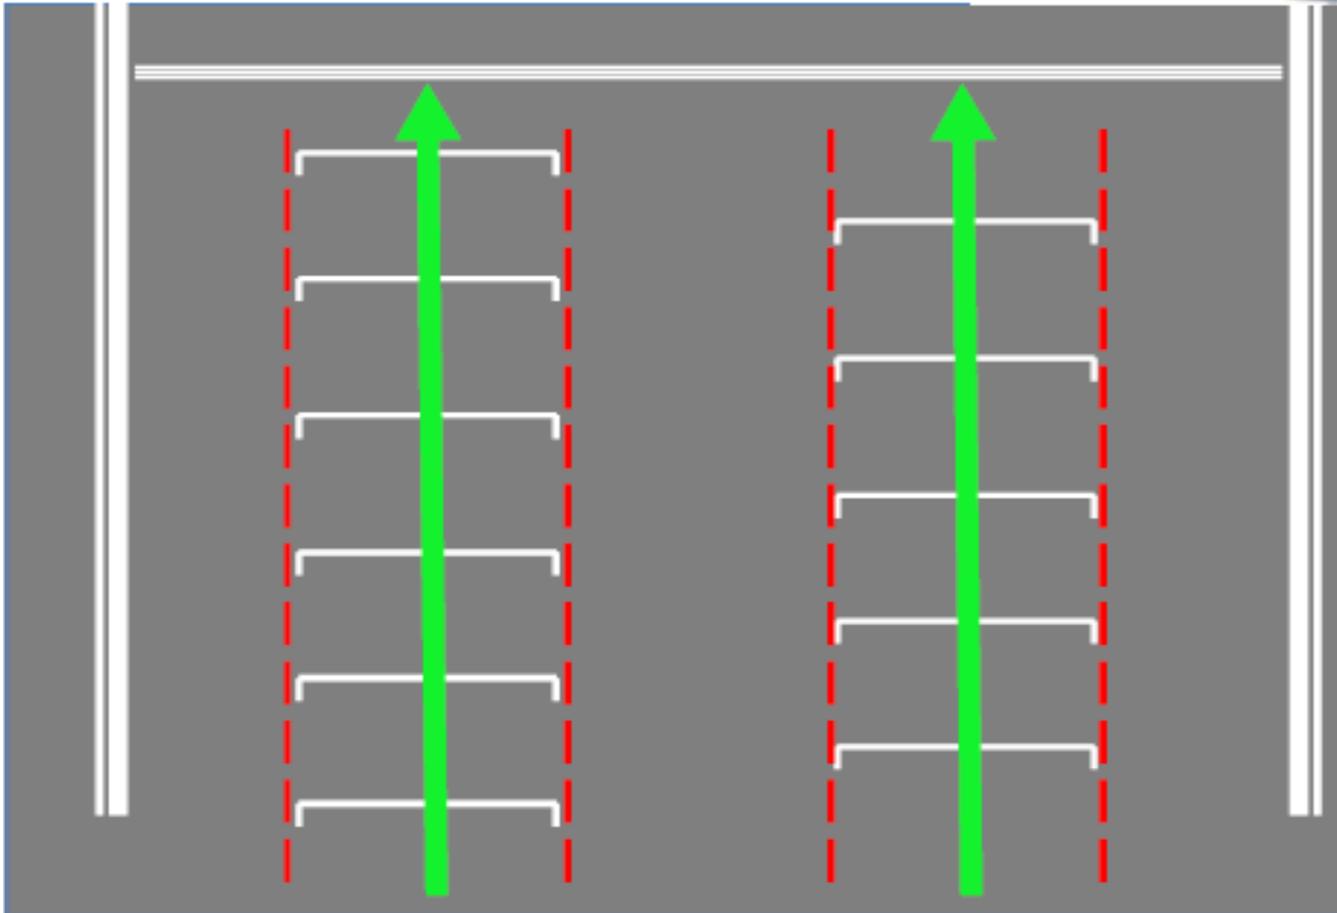

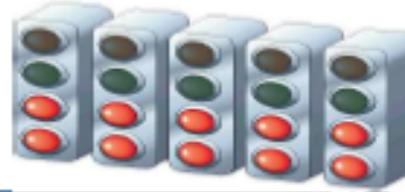

MOMENT OF START IS WHEN STARTING LIGHTS ARE TURNED OFF

- If a problem arises at the end of the formation lap, the red light will stay on. The cars, will complete a new formation lap.

ROLLING start

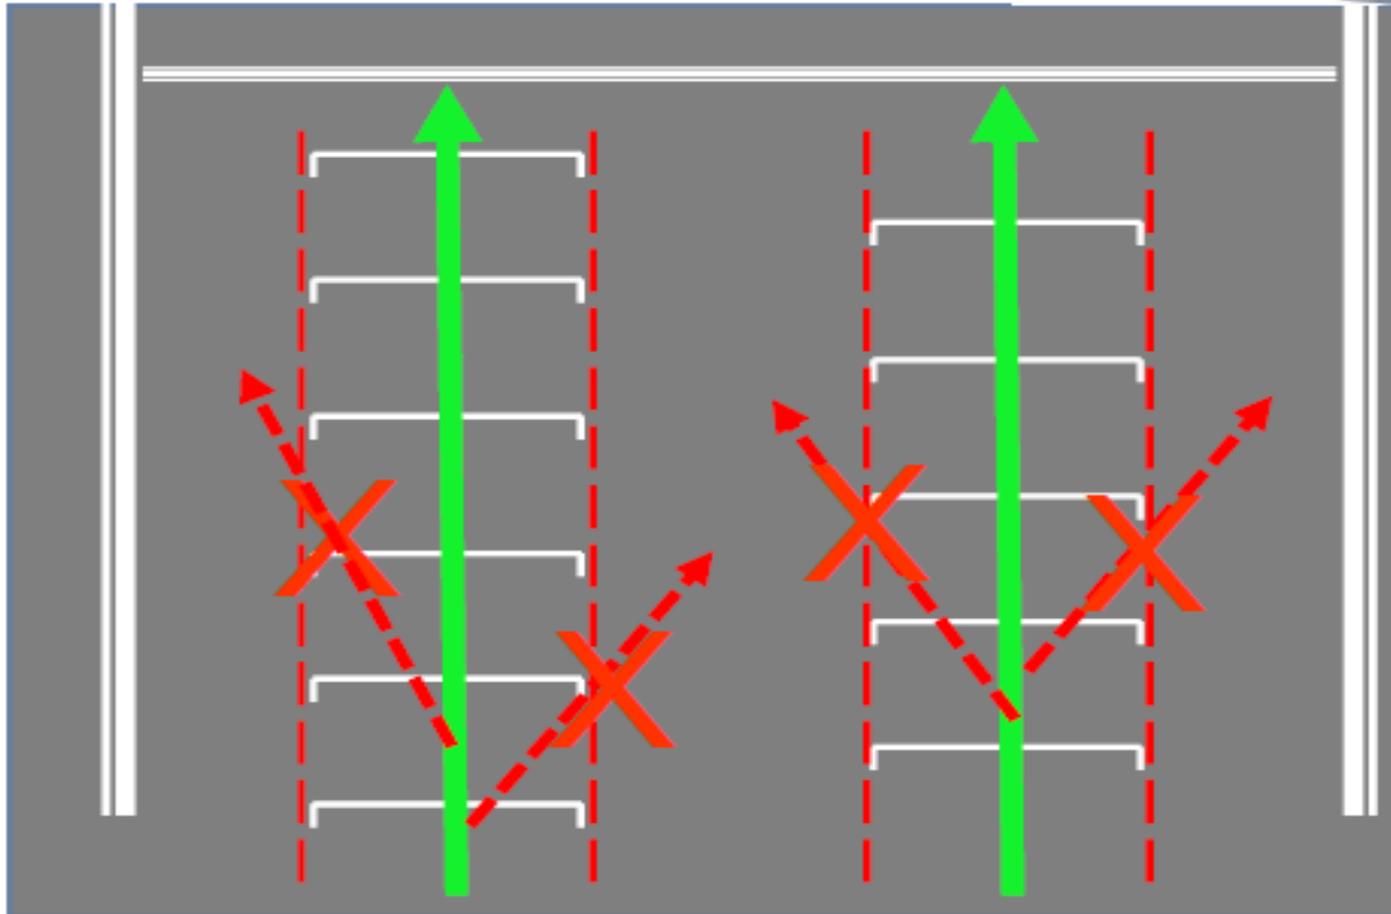

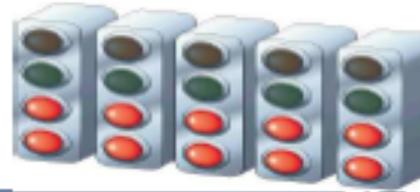

Starting lights: RED - OFF

The cars must hold the starting formation by driving from the beginning over the „starting boxes“ on their respective sides (starting corridors).

ROLLING start

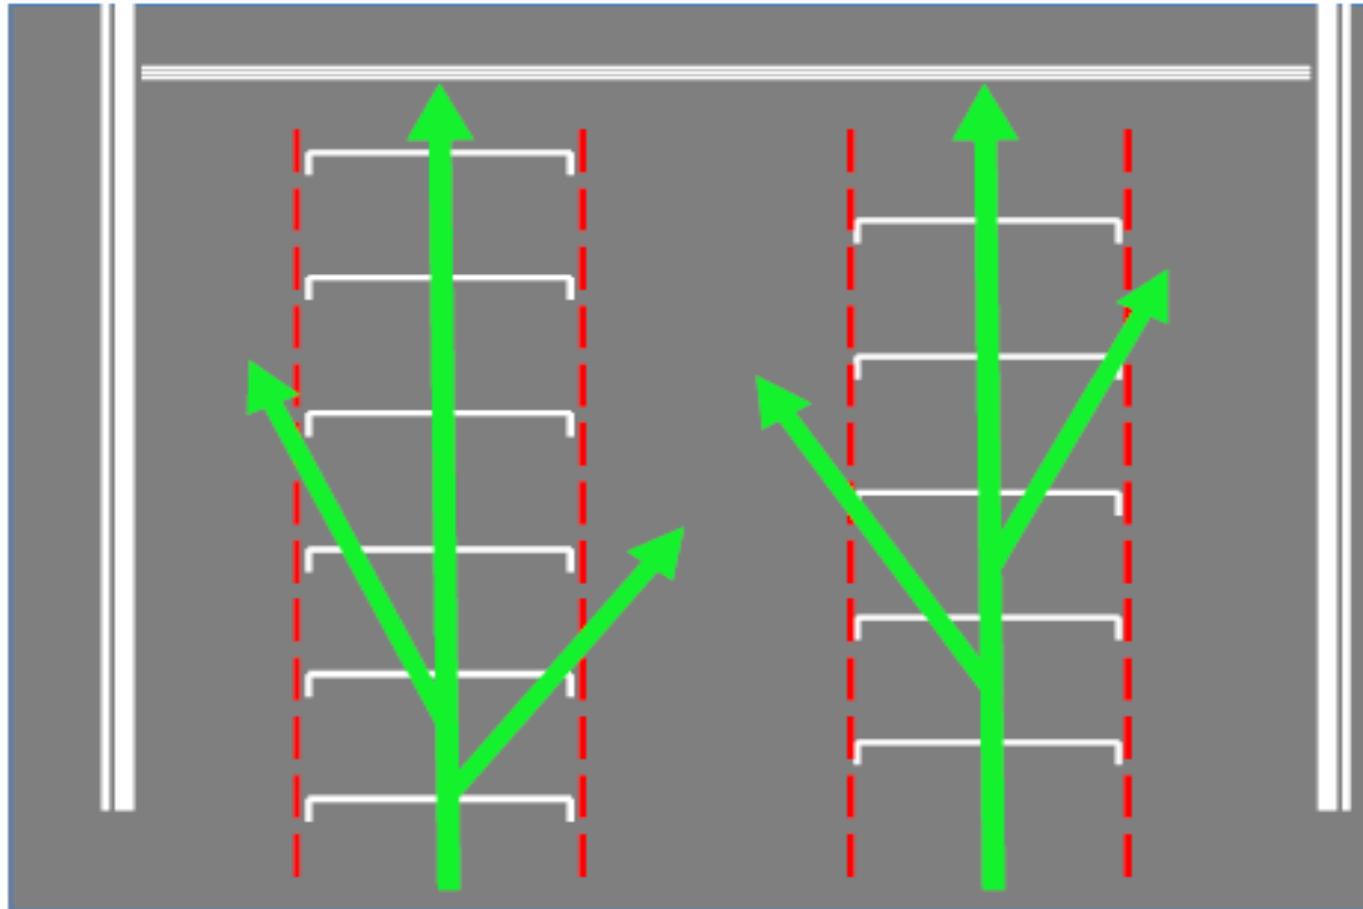

Starting lights: RED - OFF

Pushing on or slowing down as well as leaving the respective starting corridor is forbidden before the starting signal is given.

ROLLING start

Starting lights: RED - OFF

The starting signal is given when the red lights are turned OFF. Accelerating as well as leaving the formation and the starting corridors is allowed from this time.

wet race and wet tyres

WET

- If the race is declared wet with a 5 min board, the WET board will also be shown. In this case, the race will not be interrupted in case of rain.
- If the rain comes wet tyres are allowed throughout the event. It is up to you which tyres you use.

TRACK LIMITS

Drivers must respect the track limits !

one wheel must always be on the track (between two white lines)

Driving on „green“ asphalt will not be penalized unless you get the advantage - overtaking in this way is forbidden

- 1 Track marshal post
- Entrance
- Driveways
- Race track
- Run-off areas
- Service road
- Grass plot
- Horizon
- Agency room

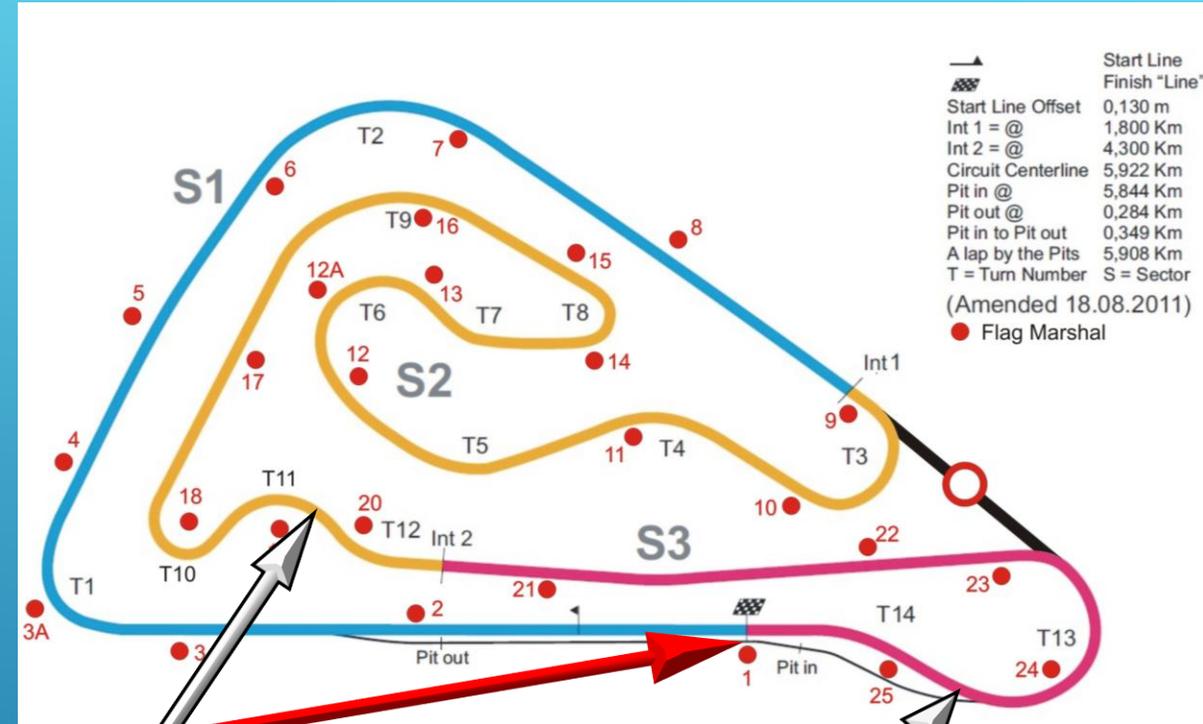

Shortening the track is forbidden

It is only permitted if the practice is suspended (red flag) or on instruction of the marshals to do so

SAFETY CAR

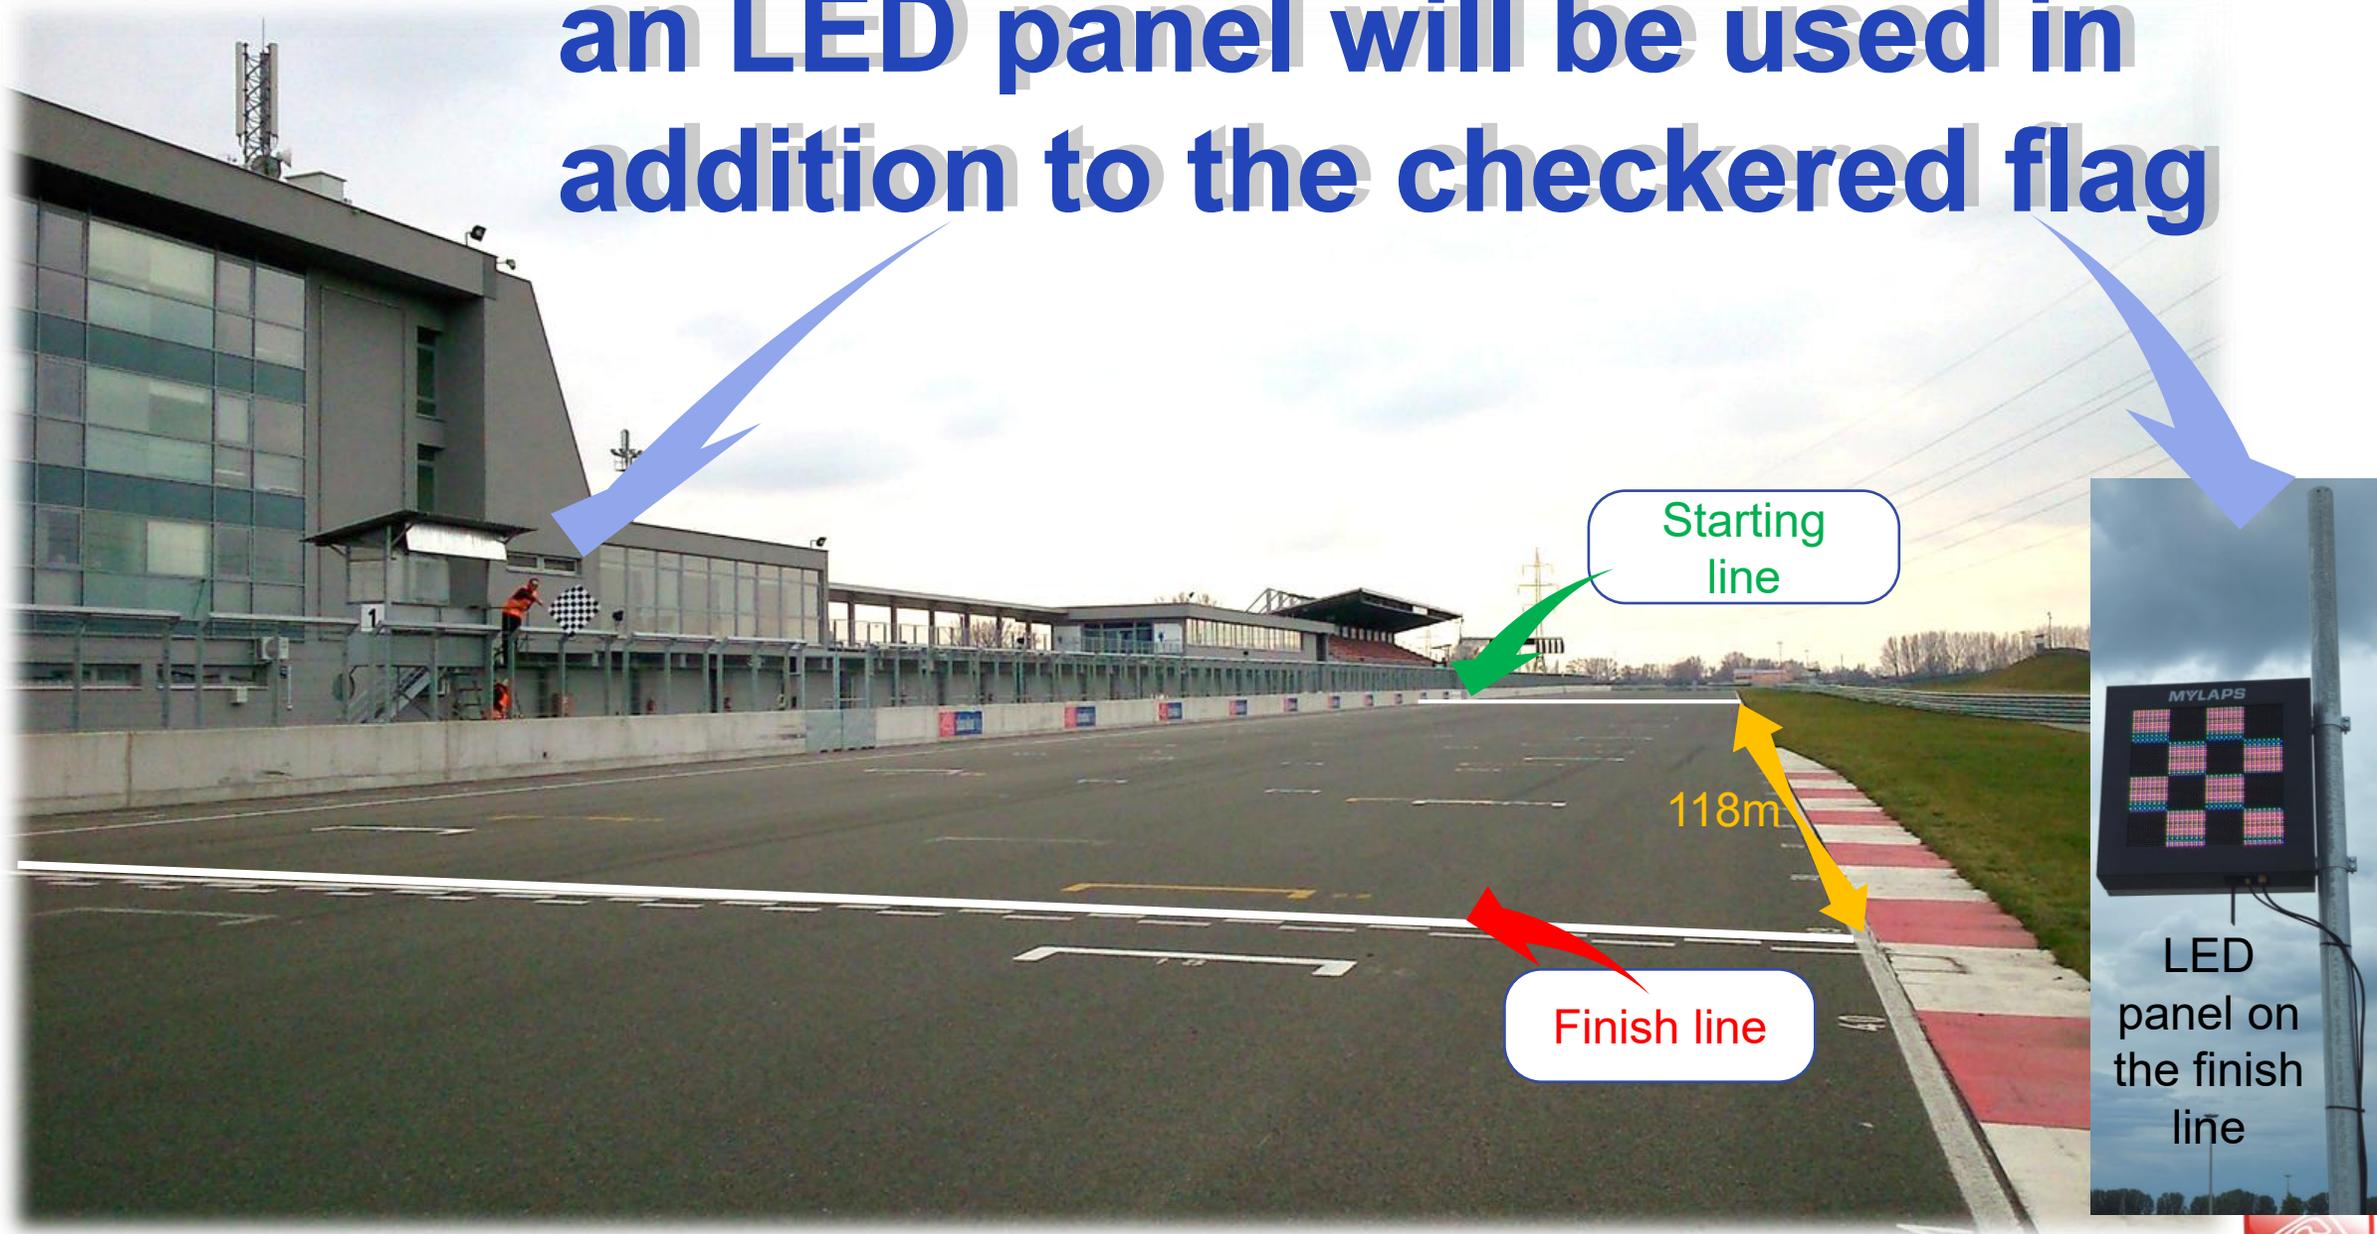

As long as the Safety Car lights are on, cars should follow exactly the trajectory of the SC, also if this is not the normal racing line.

When the safety car turn off its lights at this point, this will be the signal - safety car in this lap going down!

when the SC is over the safety car line 1 and SC is going into pit lane - green flag at all marshals posts, **but overtaking will be allowed from the finish line.** (appendix H art. 2.10.10)

an LED panel will be used in addition to the checkered flag

ENDURANCE race

- 1H + 1 lap. After 60 minutes, LAST LAP on LED panel.
- Obligatory pit stop must begin between the 25th & 35th min. *
- Minimum time in the pit lane is 120 sec. (see page 9) **
- **Wearing short pants and open shoes in the pit lane is strictly prohibited** ***
- Refuelling –
 - **Max. 3 team members** in front of the pits or in "refuelling zone".
 - Use cans with max. 25 liters capacity or a rotating system manually operated with max. 60 litres capacity. Using refuelling tower is forbidden.
 - **A team member** must be ready **with a fire extinguisher** of at least 6 kg capacity.
 - During refuelling ensure that : the car is electrically grounded, car is standing on its complete wheels, the engine is switched off, the safety belts of the driver, if remaining in the car, were released, that no works were done on the car.
 - All these team members must wear **completely flame proof equipment** (overalls, gloves, balaclavas and helmets). ****
- The maximum number of mechanics / persons in pit lane in the same time is 4 + „manager“

Please read the FIA CEZ Regulations point 5.3 b – Organisation of the endurance race for additional informations

REFUELING ZONE

Teams without boxes, in endurance race this is the refuelling zone

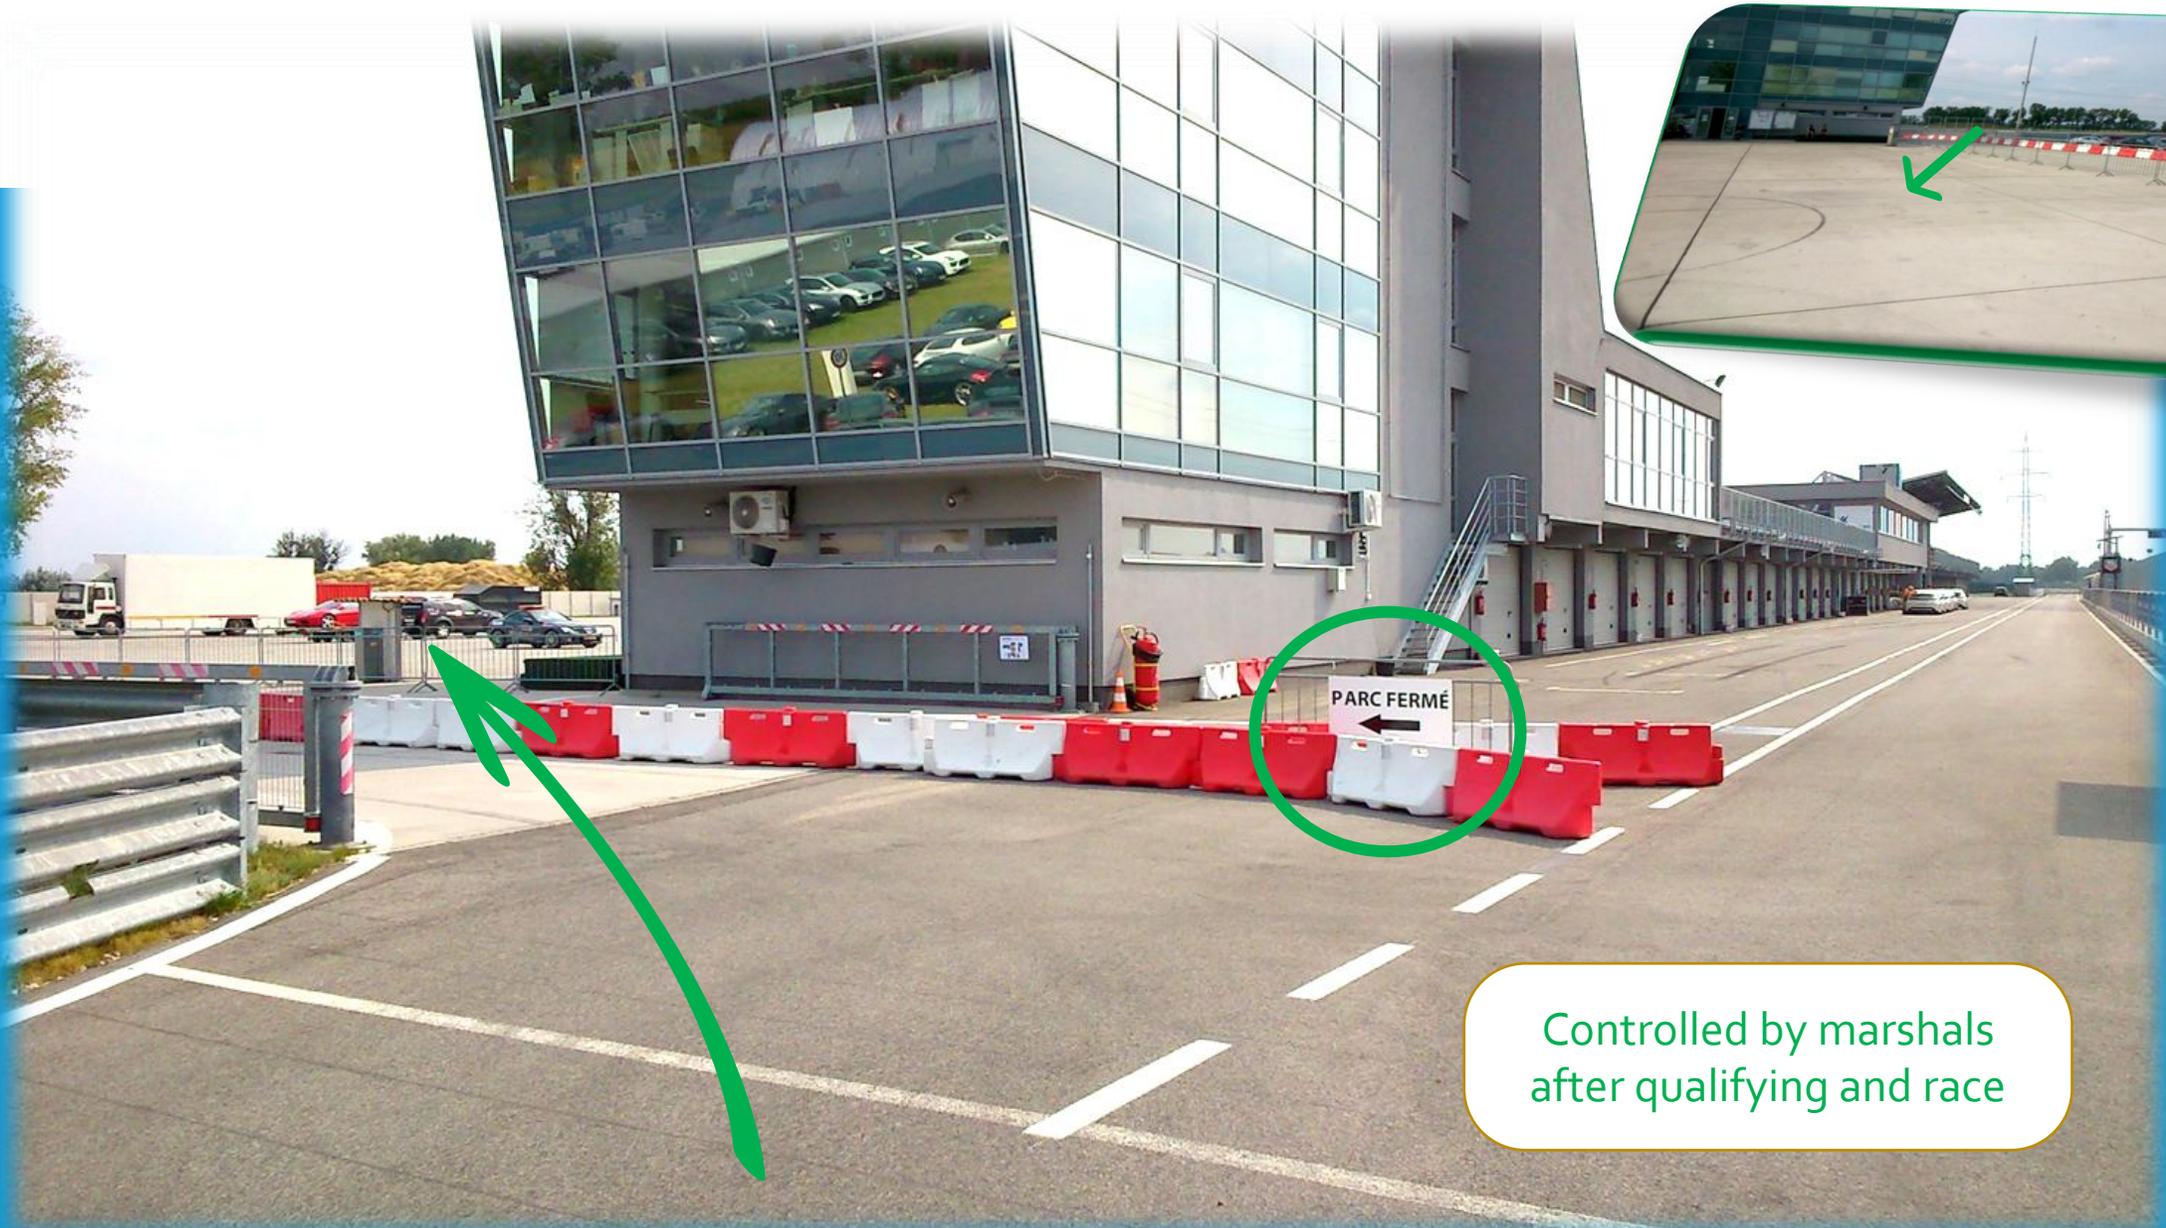

Use the lightning conductor for grounding
Wire between exhaust and lightning conductor is enough.

60 km/h and 120 sec. obligatory pit stop from this line.
