

Coffs Coast Rally

Communique 1

PERMIT No. 224/2004/01

19 May 2024

To: All Competitors	Pages: 1
From: Clerk of Course	

1. Clarification on Refuelling Arrangements

Due to changes in itinerary brought about by permit conditions affecting available roads. The availability of pump fuel along the rally route is now limited. BP Coramba has 98 at the pump.

2. Distances between Refuelling

For ease of planning for crews, Approx. distances between refuel points will be:

	Competitive (km)	Liaison (km)	TOTAL (km)
To service A refuel	45	50	95
To remote refuel (Between service A& B)	39	56	95
Service A to service B refuel	49	62	111
Service B to Finish	26	52	78

3. Effect of Daylight Hours on Schedule

For advisory purposes only. Sunset in the region is at approximately 16:56Hrs. With the large number of entries, crews especially towards the lower half of the seeded order now face the prospect of fading light should unplanned delays occur. Crews should consider bringing their lighting setup and plan for possible fitment at Service B.
