Bulletin 2024-5
ARA Safety Protocol Testing

1/13/2024

These changes are in addition to the 2024 ARA Rally Competition Regulations and are effective immediately.

Per RCR 2.4.3, competitors are required to pass an ARA Safety Protocol Test each year. The 2024 ARA Safety Protocol Test is available at this link:

https://bit.ly/3tPUSqk

All non-novice license holders are required to complete the test once a year with a 100% score before beginning any ARA event. The test is 15 questions, open book, and the answers may be modified after submitting to achieve a 100% score. Novice license holders are required to pass the test with a 100% score to remove the novice license endorsement.

If you need to edit your response to achieve a 100%, click the circled button either in your email with the results or on the page after your test is submitted.

Preston Osborn

ARA Competition Director
