Cambrian Rally 2024 – Reconnaissance Notes (National Only)

Welcome to the Visit Conwy Cambrian Rally and thank you again for your entry. We are delighted to again be a round of the British Rally Championship. Please take the time to read these notes carefully before you arrive to the meeting point on Friday morning.

Meeting Point:	Meeting Time:	07:30 Sign-on for 08:00 departure

If you are late arriving, please contact us at the earliest possible opportunity to discuss arrangements.

Late arrivals missing the departure of the convoy entirely are to proceed to the start of SS2/5 Clocaenog and wait there for the 2nd pass of the convoy.

Do not enter the stage until the return of the convoy.

Document Collection

Your roadbook and recce sticker will be issued at the meeting point. Please arrive in plenty of time to collect these as the convoy will be leaving promptly at 08:00

By completing the event signing-on declaration online, you are deemed to have signed on for the recce.

Please ensure that you have completed the online recce registration form issued on Sportity.

Format

Recce will be in the form of a convoy system with official cars at the front, at the mid-point and at the rear of the convoy, they will all be in radio contact. The top 10 crews will be running in numerical order so please park sensibly on arrival to allow these crews through. This sequence will be maintained throughout the recce.

The route has been designed to use the event Roadbook for as much of the recce as possible. Where we deviate from it, it is only for short distances, please follow the directions later on in this document.

NRW have agreed to a strictly controlled recce, allowing a maximum of two passes per competitor per stage, with a speed limit of 30mph. NRW have asked us the organisers to remind all competitors that the roads are **not closed** to other users. Therefore, there is a very strong possibility that you will come across;

1. Forestry workers,
2. Timber hauliers,
3. Dog walkers,
4. Mountain Bikers

When on NRW land all official cars will be using flashing Amber lights, this is not only for your safety, but also for the safety of the other users of NRW land.

Please show consideration and above all exercise great caution, anyone found to be abusing this will be penalised accordingly at the discretion of the Clerk of the Course.

Penalties

Please remind yourselves of the penalties associated with breach of recce regulations, as detailed in the event regulations.

In some circumstances, it may not be possible to advise you of a first offence prior to receiving notification of a second offence, therefore please bear the regulations in mind.

There will be monitoring of driving standards (including the use of speed guns). In addition, there will be rally officials within each of the stages, setting up in preparation for the rally itself, along with representatives from NRW. **All** of these individuals will be empowered to report on the conduct of you the competitor, so please keep a constant steady pace, do not

stop and start and never reverse back to have another look at a corner, all of these things will see you awarded with a penalty so **BE WARNED**.

Since there is likely to be Police presence on the public highway please pay attention to the speed limits and show consideration to the other road users, particularly on the narrow roads around the forest.

Finally, the stages could potentially be very muddy so when coming out onto the public highway please ensure that your number plates and lights are clean and clear to view. Adequate stops and breaks will be programmed to allow this, therefore please carry rags/cloths/blue roll to be able to clean your lights and number plates.

Fuel

Please arrive with sufficient fuel to complete the entire recce distance (outlined in the below schedule).

There is a fuel station on route (Shell Betws y Coed) which will be passed between each run of Elsi, however to aid in the swift running of the recce we request that you have enough fuel at the start of the day.

Tyres / Spares

Please make sure that you have adequate spare tyres (more than one ideally), and the appropriate tools to change wheels in the forest (a spreader board for the jack is advisable).

Space saver tyres do not work reliably in the forest; neither do inflation kits.

Schedule

The recce schedule detailed below has been set using an achievable pace, and we hope to complete the recce ahead of schedule if at all possible.

If we arrive at a point ahead of schedule, the officials will account for all vehicles and then press on with the recce.

Whilst there are small breaks allocated between passes primarily for convoy management, no refreshment breaks have been scheduled therefore we ask of you that you bring sufficient provisions to keep yourselves hydrated and fed for the duration of the recce.
