

# Drivers' Briefing

BMW M2 CS Racing Cup Benelux  
Friday, 07 July 2023

# Welcome

<b>Race Director:</b>	Max Braams
<b>Assistant to the Race Director:</b>	Jaap Molmans en Annemieke Veldkamp
<b>Chairman of the Stewards:</b>	Gerard du Pre
<b>International Steward:</b>	Yvette VAN ECK
<b>ASN Steward:</b>	Joost DEMEESTERE
<b>Series Scrutineer:</b>	Piet du Burck / Jean-Guy MOSBEUX <i>(as national Scrutineer)</i>
<b>Chief Timekeeping:</b>	Marcel Lambrecht
<b>Clerk of the Course:</b>	Bobbe Veldkamp
<b>Chief Race Control:</b>	Johan Aerts
<b>Race Secretary:</b>	Christine VAN DONGEN
<b>Cup Coordinator:</b>	Ivo van Ginneken
<b>Promotor:</b>	Renata Aartsen / Dick van Elk

# Timetable

## Friday July 7, 2023

12:15

Drivers Briefing

10:15 - 10:45

Timed Qualifying

## Saturday July 8, 2023

16:20 - 17:20

Race 1 (Rolling start - Max. 60 Min)

## Sunday July 9, 2023

12:00 - 13:00

Race 2 (Rolling start - Max. 60 Min)

**\*For latest timetable, see always official notice board**

## Respect Motor Silence!

### No engine running:

Friday & Saturday before 9.00h  
Between 12.00h-13.00h and after 18.00h.

Sunday not before 10h.

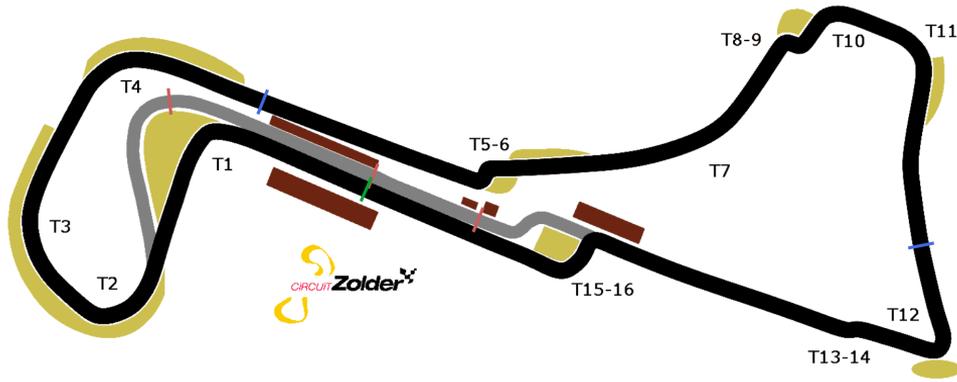

For direct event information please download the Sportity app and insert this password:

# The Circuit

## Zolder

- Length: **4.000** meter
- Direction: **Clockwise**
- Start: **Rolling Start**
- Pole Position: **Left Side**
- Pit Exit: **Exit of Turn 1, track right**
- Start and Finish Line: **are the same line**
- Penalty Area: **In Front of Race Control Tower & Podium**
- Pitlane Speed: **60 KM/H**
- SC Initial Position: **in chicane T15-T16**
- SC Position First Lap: **Between T12**
- Pre Assembly Area: **WK-Gate next to Otobar**
- Scrutineering Bay: **Pit Garage 43**
- Parc Ferme: **Paddock Zone 0**

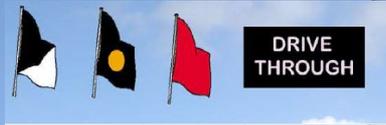

# Finish Control Line | Signalling Area

Finish Line = Control Line

Parc Ferme

# Penalty Box

- Technical Flag (Meatball)

- Black Flag

~~- Warning Flag~~

# White line pit exit

**Warning: White line pit lane exit may not be touched for cars who exit the pitlane.**

## Mandatory Pit Stop

- Pit Stop window between **25th** and **35th minute** of the race.
- As Per Article 12.4 of the Series Sporting Regulations, the **Minimum Pit Stop Time** will be **90 seconds**.
- This time will **Measured** from the **Pit Entry line** till the **Pit Exit Line**
- **Refuelling** of maximum of **20 litres** as per article 12.5 of the sporting regulations during the mandatory pitstop **is permitted**.
- The **maximum** number of **Persons working on the Car** during races (pitstops) is limited to **four(4)**.
- During the pit stop, engines may continue to run **if no tyres are being changed** or other mechanical works are being performed on the car.
- **For the avoidance of doubt:**
  1. The car must cross the **pit entry line** from 25:00:00 after the Official start of the race until 34:59.99 after the Official start of the race.
  2. Any mandatory pit stops taken before or after the pit window may be Penalised. See Art. 12.7
  3. Should the Safety Car be called on track, or a Full Course Yellow period be declared, during the pit window, the race director may extend the time of the pit window by a time between one and three minutes.
  4. The Race Director may decide to delay a pit window. In this case, the Teams will be informed via the monitors and the team radio as well for the rescheduled window time.

# Pit Stop Clarification

## Maximum persons Working on a car

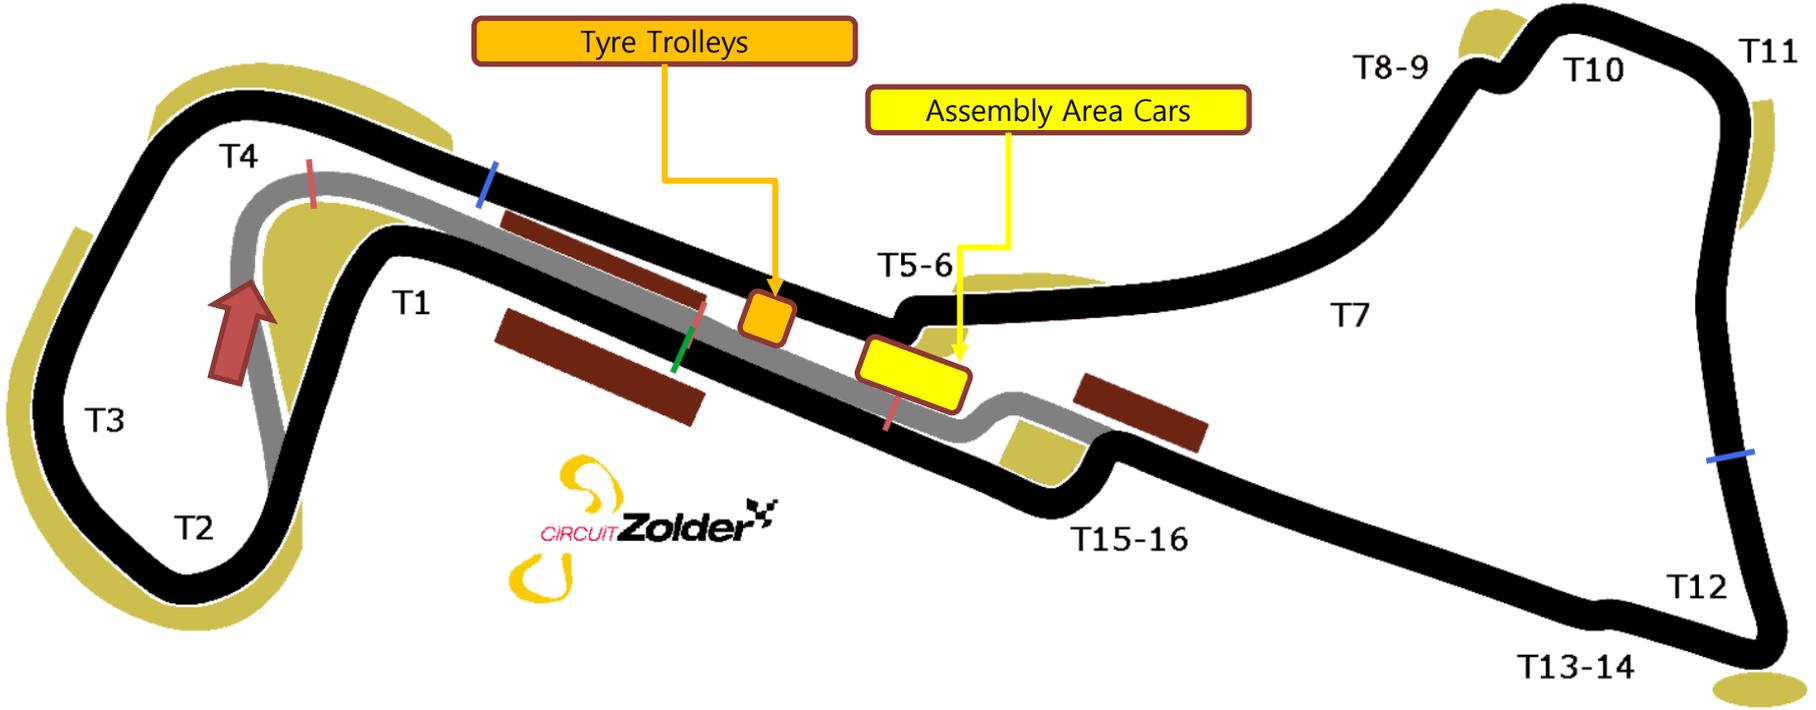

- Maximum 4 Mechanics
- Maximum 1 Driver Helper (if the driver helper is not working on the car then he/she/it will not be considered as working on the car.
- Maximum 1 Car Controller (Lollypop man). He may stand in front of the car, may oversee the operation but may not touch the car in any way

## Engine on or Engine off?

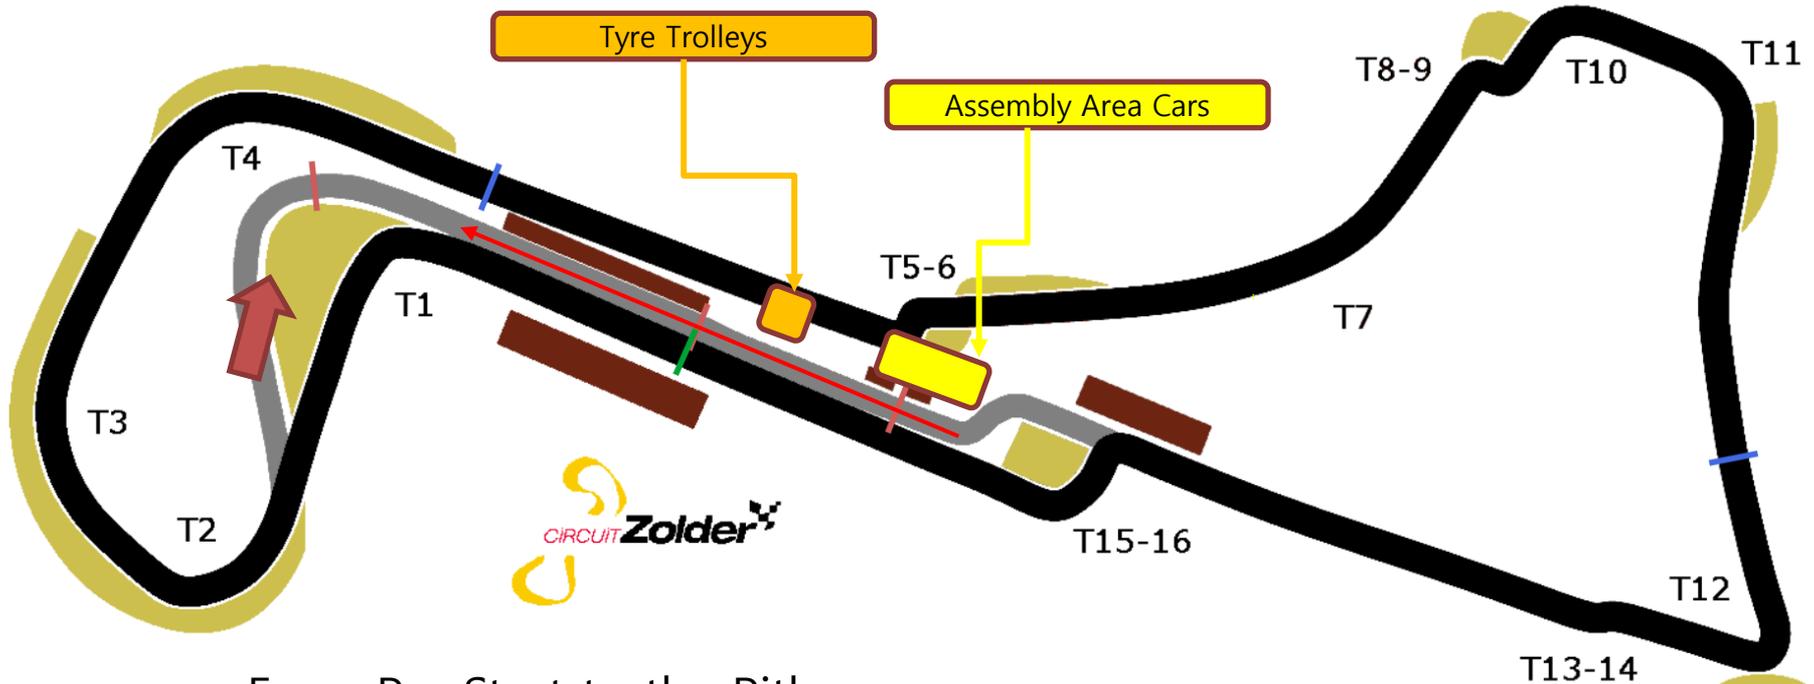

- Changing Drivers,
- Checking Tyre Pressure,
- Removing a window tear-off,
- refuelling
- removing/adding (small) duck-tape appliances on the car

Are not considered as mechanical interventions, so in this case the engine may continue to run. Any other type of work, the engine must be switched off.

# Logistics – Mechanics and Trolleys

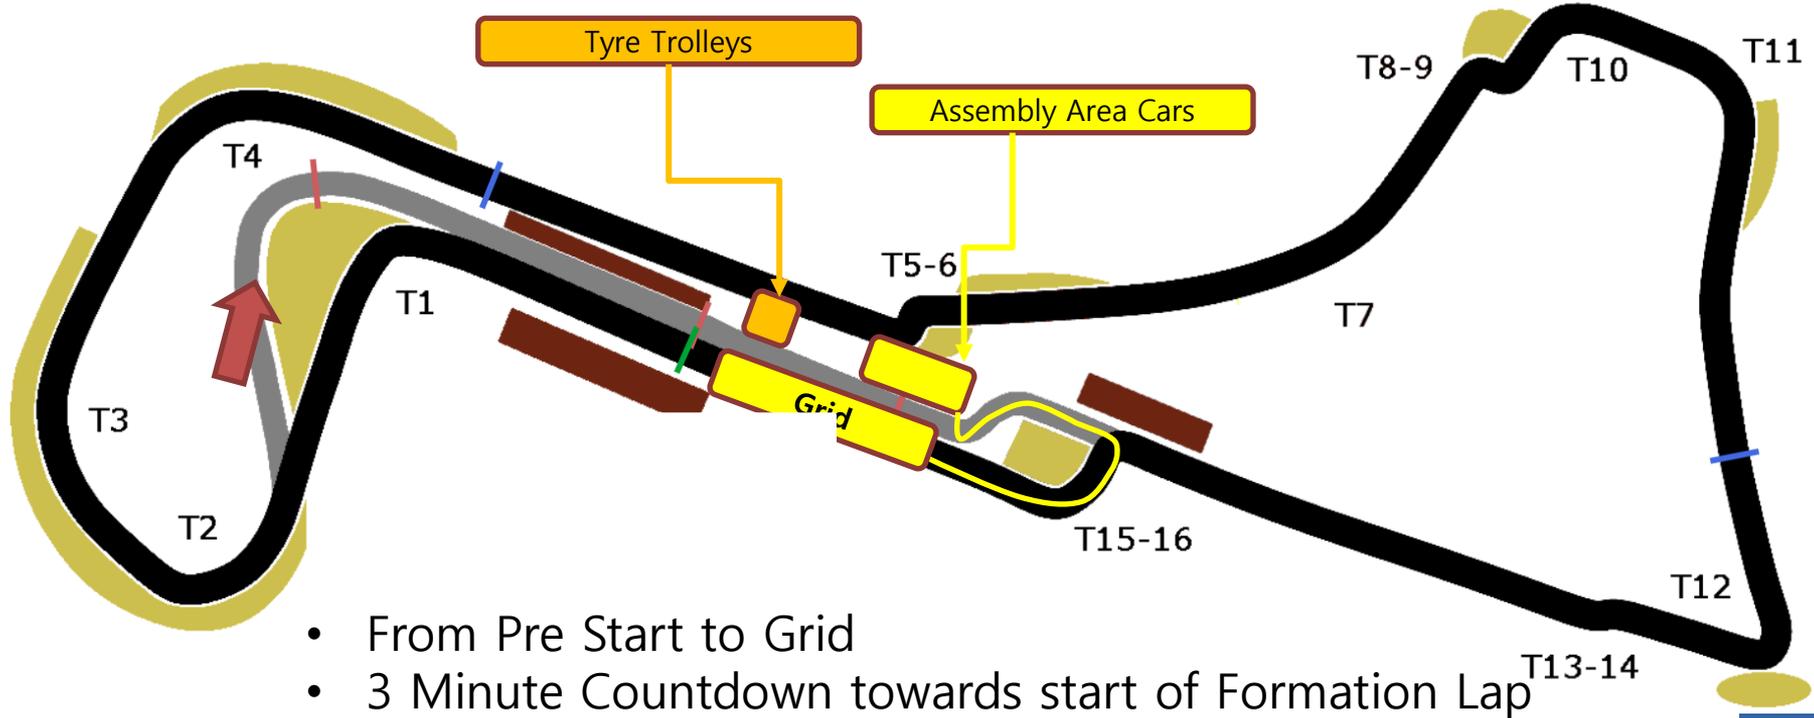

# Logistics – Qualify Procedure

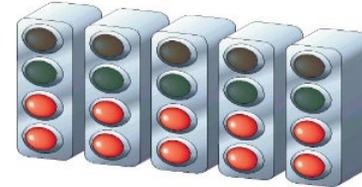

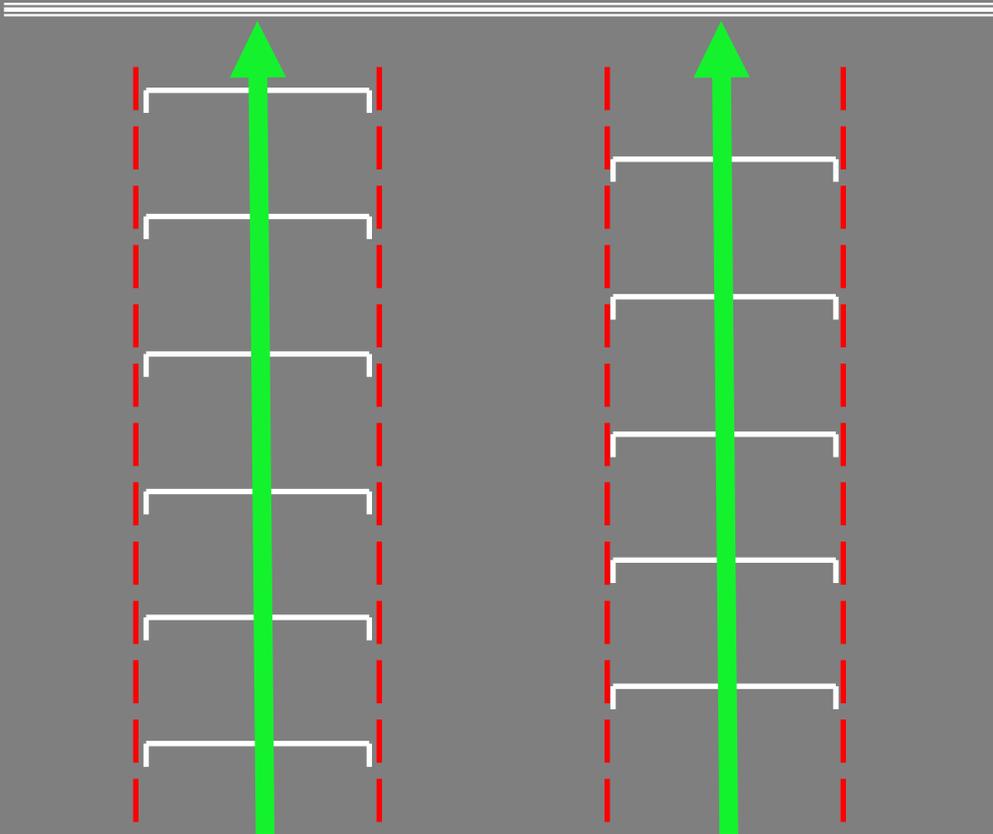

- From Pre Start to the Pitlane
- Session starts when pit exit lights goes to green.

# Logistics – Race Procedure

- From Pre Start to Grid
- 3 Minute Countdown towards start of Formation Lap
- Formation Lap behind Leading Car
- Rolling Start

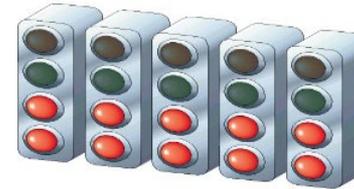

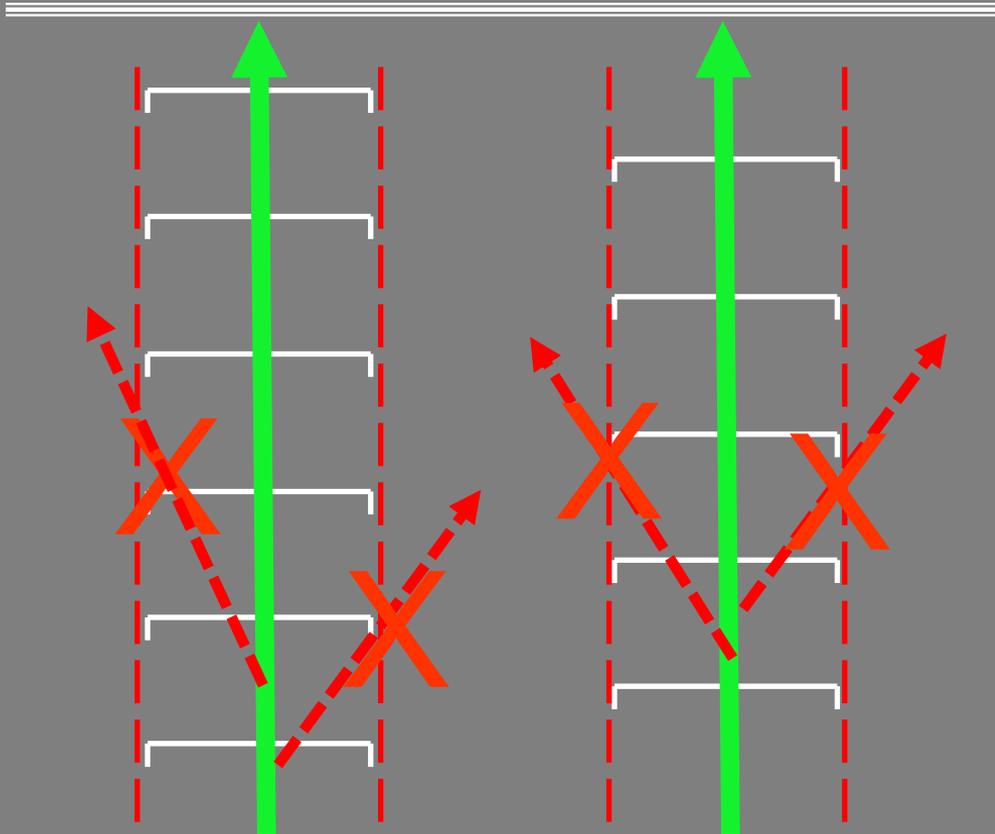

# Start Procedure

Each car must hold the starting formation by driving from the beginning over the „starting boxes“ on their respective sides (starting corridors).

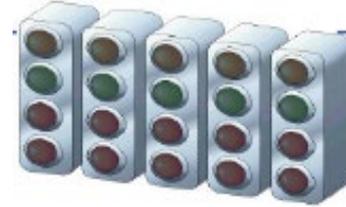

# Start Procedure

Pushing on or slowing down as well as leaving the respective starting corridor is forbidden before the starting signal is given.

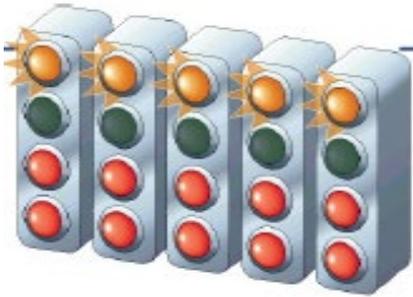

# Start Procedure

The starting signal is given when the red lights are turned OFF. Accelerating as well as leaving the formation and the starting corridors is allowed from this time.

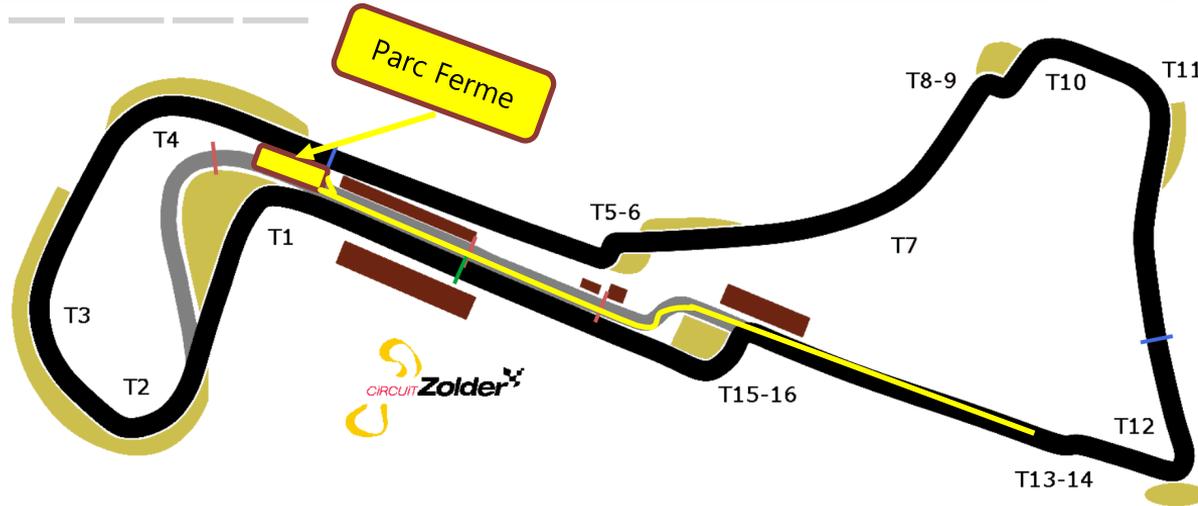

# Start not OK // Extra Formation Lap

- In the occasion the Race Director is not satisfied with the Grid Formation, the Race Director may decide **not** to start the race. **The start will be aborted.**
- In this case, the red lights on the starting gantry remains red and orange lights will flash.
- In this case, the Polesitter decides any speed between 90 and 110 km/h and **another formation lap** will be executed. The leader **must follow** instructions over **Race Control Radio**
- The race time will start once the original start should have been given.

# Logistics – End Quality of Races

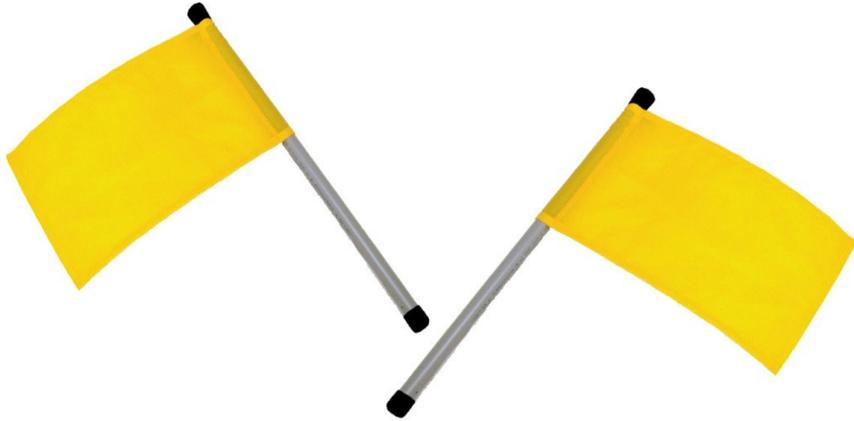

- All cars must leave the track via Pit Entry into the Parc Ferme (for Qualifying and Races). Do not stop at your team.
- Cars left in the pitlane must use the gate at Pit Exit which is the same gate how the trolleys vacate to the paddock.
- 3 cars overall will be allowed to continue towards the podium.
- Team Members must bring the car (**PUSHING!**) towards Parc Ferme. Please be aware of the Parc Ferme Regulations.
- **Respect the other series!**

# Flag Signals – Full Course Yellow

- Regulations, see Appendix H to the ISC, Chapter 2.5.5 B
- It's possible to use during FP, Qualifying and Races
- Speed Limit 80 KM/H on track during Full Course Yellow
- Start Full Course Yellow = **Slow down directly by means of releasing Throttle. Do not brake excessive!**
- Laptime at 80 km/h
  - Minimum Expected Laptime = **03 Minutes 00 Seconds**  
*Please note we monitor simultaneously Pit-Out to S1 and S2 till Pit-In.*  
*We furthermore have speedtraps available on all loops*
- For the Race, a Full Course Yellow Procedure may convert into a Safety Car Procedure.

# Flag Signals – Yellow Flag

- Reduce your speed!
- Do Not Overtake
- Signal of Danger
- see Appendix H to the ISC, Chapter 2.5.5.B

*FIA International Sporting Code - Appendix H states in article 2.5.5.b);*

*"...During free practice and qualifying, it must be evident that a driver has not attempted to set a meaningful lap time; this means the driver should abandon the lap (this does not mean he has to pit as the track could well be clear the following lap."*

# Flag Signals – Red Flag

- Reduce Speed. Be Prepared to Stop!
- Session is Suspended
- Follow Marshall's Instructions

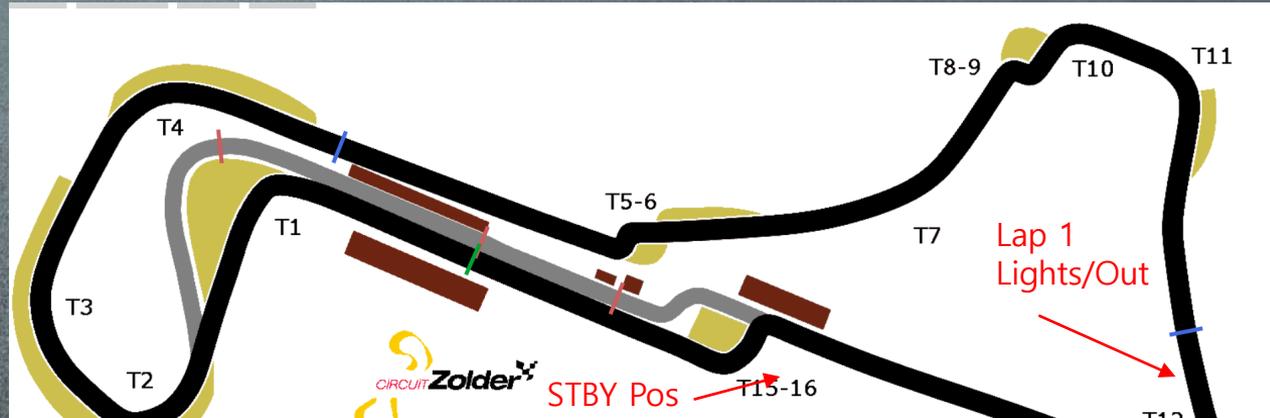

For All Sessions, Including Races

- All cars must enter the pitlane.
- For Races: All cars must stop in 1 single line in the Pitlane. Do not drive to your Team Garage.

# Safety Car

**Safety Car Standby Position**

FIA Appendix L – Chapter IV – Code of Driving Conduct on Circuits:

## Qualifying

Hitting a Cone

->

- Relevant Laptime will be disallowed.
- Best Laptime of the Qualifying Session will be disallowed.

Any driver who deliberately causes the Qualifying session to either be stopped (Red Flag) or Neutralised (FCY), the best Laptime of this car will be disallowed. **For example:** hitting a cone and blocking the racing line.

## Races

1st, 2nd, 3rd and 4th Offence

->

Warning over Team Radio and Messaging Screen

5th Offence

->

05 Second Time Penalty for each recurring Track Limit Hereafter

=>10th Offence

->

120 Second Stop and Go Time Penalty

# TL - Example for T5-6, T8-9, T15-16

# Track Limits all other Turns

OK

NOT OK

Grid Race 1	->	Fastest Laptime of Timed Qualifying
Grid Race 2	->	2nd fastest Laptime of Timed Qualifying
Too Late at Pré Assembly Area	->	Pitlane Start (access Pitlane using the Gate at Pit Exit)
Starting procedure	->	Rolling Start (Red Lights Switched ON -> OFF)
After Qualifying and Races	->	All cars to Parc Ferme, Located at the Paddock
No Laptime set during Qualify	->	Written Report to the Stewards for permission to start
Mandatory Pitstop	->	Between 25 <sup>th</sup> and 35 <sup>th</sup> minuut of the race

## Incident on Track?

1. *After the race you'll must start a dialog with the other participant and together you must find a Reasonable solution.*
2. *Then, within 45 minutes after the race you must report (both!) towards the Race Director.*  
*Failure to do so may result in a Increase of Penalty*

# Race Control Radio

Race Director Radio Frequency: 463.525000 MHz

TEST 10 MINUTES BEFORE EACH SESSION

ANSWER WITH 'OK + CAR NUMBER' Towards Ivo

## Facts when reviewing an incident on track:

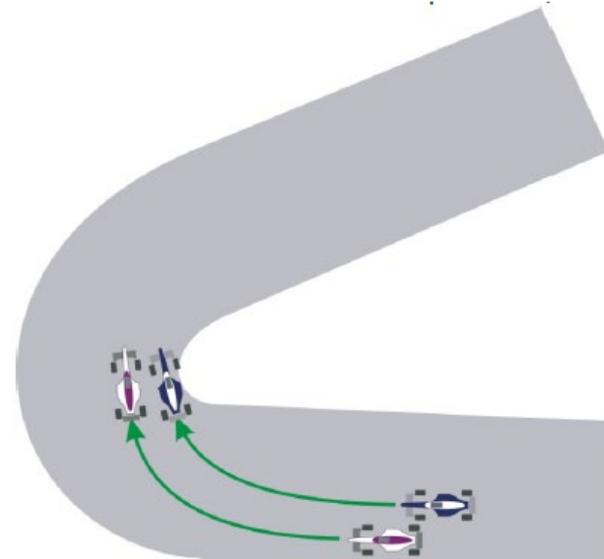

1. Relative position of the cars to each other at the:
  - Entry of the Turn
  - Apex of the Turn
2. Speed and the driven line of both cars between the:
  - Entry and Apex of the Turn
  - Apex and Exit of the Turn
3. If position of cars has changed as the result of an incident (e.g. forcing the other car off the track or causing collision)

## Remarks:

- *'Significant portion'* of a car means if any part of the front wing of a car is alongside the rear wheel of the car in front.
- *'At least one car width space'* means that the car must fully fit in the space between the other car and the white line representing the edge of the track.

## Example 1:

The Outside Car must leave at least one car width space inside, allowing the attempt to pass

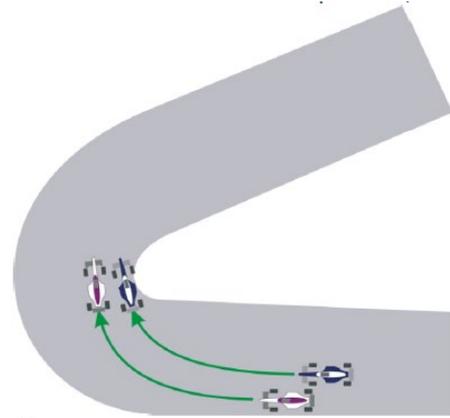

# INCIDENTS – OVERTAKING ON THE INSIDE AT THE ENTRY OF A TURN

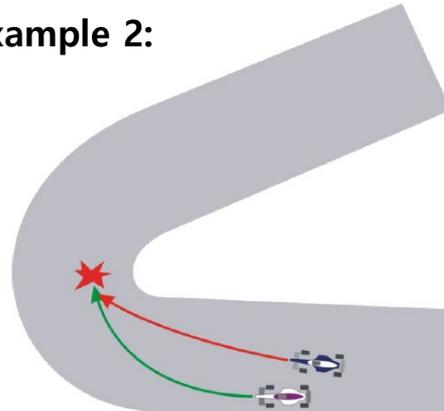

## A penalty may be applied if (causing a collision)

- The inside car overshoots the corner and crashes in the outside car (goes too fast and causes a collision)(example 2)
- The outside car does not leave space for the inside car. The Outside Car must leave at least one car width space inside, allowing the attempt to pass
- (example 3)

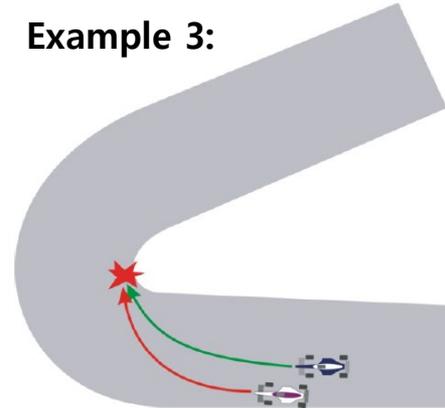

**Example 1:**

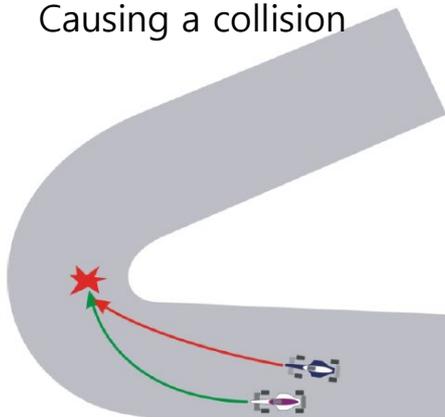

**Example 2:**

**Example 3:**

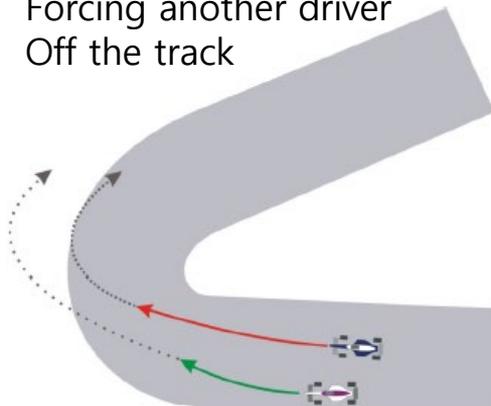

## Example 2: Causing a collision

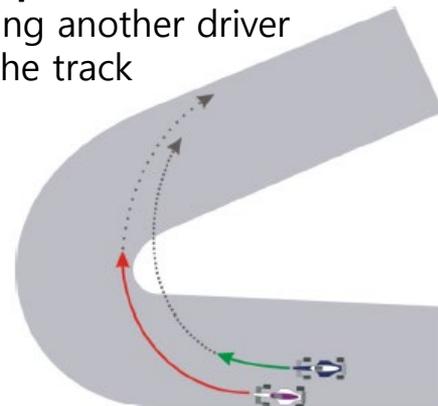

## A penalty may be applied if (Forcing another driver off the track)

- (Example 4) The car on the inside overshoots the corner, but there is no collision. However, the car on the outside is being pushed off the track, but they can both continue.
- (Example 5): The car on the outside is not leaving space for the car on the inside. However, the car on the inside tries to avoid an incident.

## Example 4: Forcing another driver Off the track

## Example 5: Forcing another driver Off the track

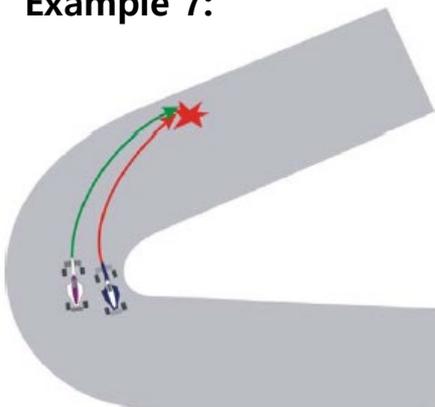

# INCIDENTS – OVERTAKING ON THE INSIDE AT THE EXIT OF A TURN

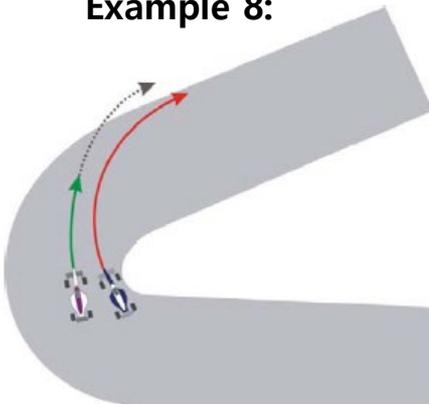

If the car on the outside is still in front, after the apex

- Then the car on the outside still has the right to drive on the ideal line (Example 6).
- The car on the inside therefore must leave space for the car on the outside as otherwise it is causing a collision (Example 7) or forcing the other car off the track (Example 8)

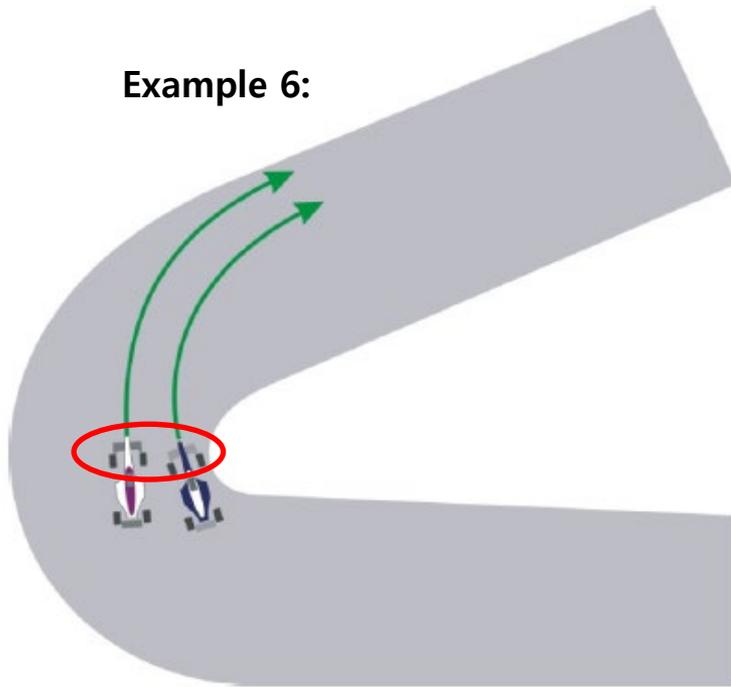

**Example 7:**

**Example 8:**

**Example 6:**

# INCIDENTS – OVERTAKING ON THE INSIDE AT THE EXIT OF A TURN

However, If the car on the inside is faster, in front or at least fully alongside after the apex, the car on the outside must lift off and let the car on the inside pass.

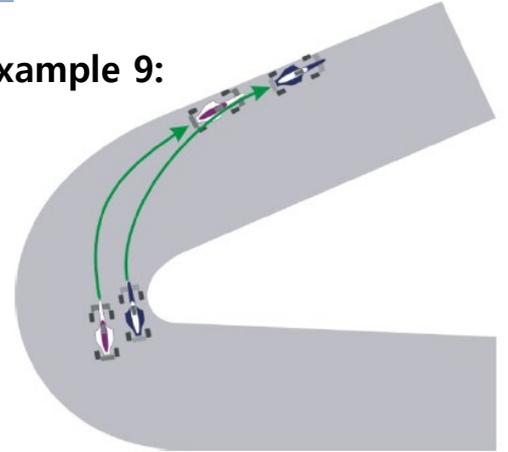

The Car on the Outside must give way for the car on the inside (Example 9).

## Penalty if:

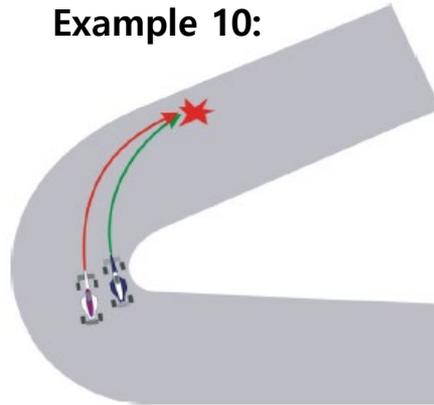

The car on the outside does not lift off and causes a collision (Example 10).

The Car on the outside stays in front using run-off area's (Example 11).

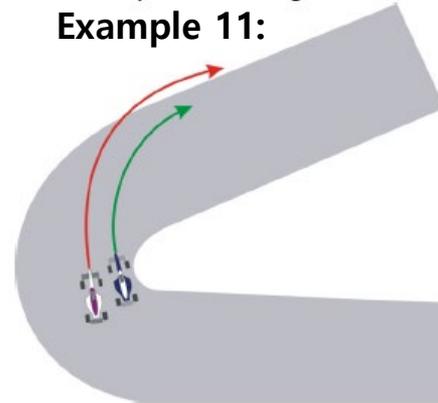

**Example 9:**

**Example 10:**

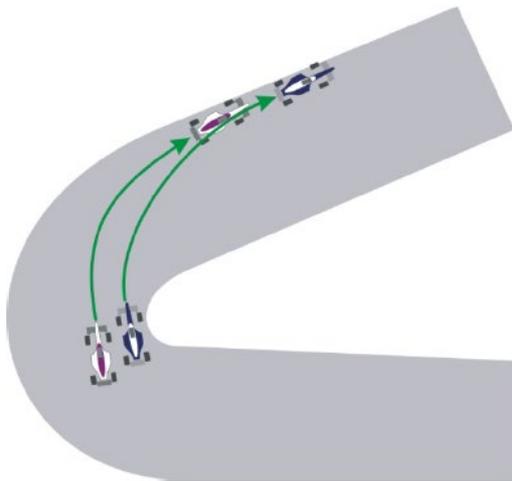

**Example 11:**

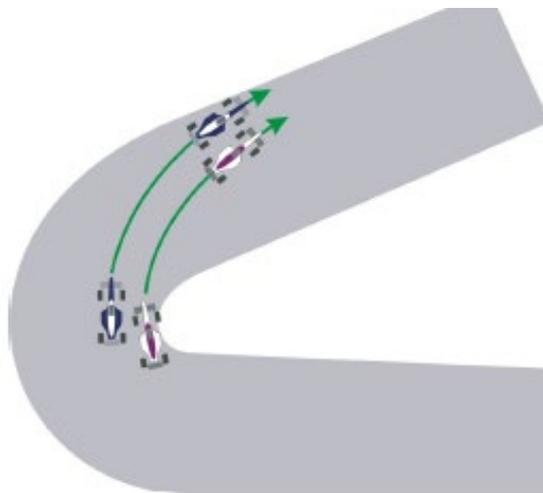

If you compare Example 9 with Example 12 you will notice that should the car on the outside being faster then the car on the inside should leave at least 1 car width
