The Virtual Chicane zone will have a length of 220 meters, and competitor will need to reduce their speed to 50 kph in this zone.

The Virtual Chicane will be indicated in the Road Book, on the SAS Tracking Unit, as well as physical boards approaching the zone, at the zone start and at the zone end.

12.14.1 Virtual Chicane Physical boards on the Road

The following boards will be placed before the Virtual Chicane area:

- Board indicating the Virtual Chicane zone begin (VC 50)
- 220 mt from the start, Board indicating the Virtual Chicane zone ends.

12.14.2 Virtual Chicane SAS Tracking Unit

When a car approaches the Virtual Chicane zone and reaches 300m prior to the zone, the unit will display a countdown in meters as well as display the target speed of the zone on yellow, as seen in figure 1 (below).

(figure 1)

(figure 2)

(figure 3)

When the vehicle finally reaches 300m before the begin of the Virtual Chicane zone (figure 1), the unit will begin to count down the remaining distance to the zone on white, with the target speed in the centre of the unit, as seen in figure 2 (above).

Once the vehicle has entered the zone, the vehicle should decelerate to the target speed immediately.

Once the target speed has been reached, the top section of the screen will display green with "Speed Achieved – GO", as seen in figure 3 (above) , and the vehicle can return to competition speed.

The speed limit of 50 kph will be measured using the SAS GPS tracking device in the car.

If there is a divergence between the Road book, the positions of the warning boards and the tracking unit, the information given by the tracking unit will prevail.

Example video of SAS unit during a stage using a Virtual Chicane (zoomed-in window on SAS unit in the top left) <https://www.rallydiromacapitale.it/video-virtual-chicane/>

12.14.3 In Case of Tracking unit failure

It is the competitor’s responsibility to achieve the minimum speed in the event of a supplied GPS tracking device failing to operate correctly.

In the unlikely scenario that your tracking unit fails, there is a correct procedure to follow to ensure you meet the safety requirements of the stage and ensure a fair sporting outcome.

When approaching the virtual chicane zone with a non-operation tracker, the crew are required to use the physical boards as the indication of the 300, 200, 100m, and when they are in the zone, indicated by the virtual chicane zone start board, they are required to reduce their speed to the speed target of 50 kph, utilizing the vehicles own speedometer, once the target speed is reached on their speedometer, that can proceed at competition speed.

NOTE: Competitors should only use a different speed source in case the tracker is non-functional. In any other case, the tracker should be the only source of achieving the target speed. It will be the responsibility of the crew to prove that the unit did not work.

12.14.4 Penalties for Not Reducing Speed

The penalties applied by the CoC in case of not reducing the speed to 50 kph on the virtual Chicane area will be following:

Between 1 kph and 5 kph over 50kph are 10 secs.

Between 6 kph and 10 kph over 50 kph are 20 secs.

More than 10 kph over 50 kph are 60 secs.

Virtual Chicanes will be monitored by judges of fact to ensure that any vehicles with a non-operational tracker slow down the required target speed.

12.15 FIA eLearning Course

All drivers / co-drivers must complete the FIA eLearning course and pass the assessment for FIA Safety Tracking Device. “You can make the difference”

“The Environment will be grateful”

“We are trying to keep at a minimum the impact of the Rome Rally by adopting a responsible environmental policy”

“Your commitment is necessary to reach our goals.”

The Rome Rally takes place in an area of great environmental and wildlife value, subject to high fire risk. Please, help us protect the integrity of this site.

Previene gli Incendi

Fai attenzione a buttare le cicche di sigarette in luoghi dove possono risultare una fonte di incendio. Un ottimo sistema per spegnere la sigaretta è quello di spargerla in un bicchiere di acqua. Non parcheggiare mai il veicolo sulla vegetazione secca, indipendentemente da quale tipologia di veicoli usi. È importante essere consapevoli che il calore dallo scarico può causare l’innesco di un incendio.

Prevent fires

Dispose of cigarettes in places where they cannot be a source of ignition. Extinguishing cigarettes in water after use is a great way to prevent fires. Be mindful of the role vehicles can play in starting wildfires. Never park any type of vehicle on dry vegetation; the heat from the exhaust pipe can cause it to ignite.

Bevi acqua in bottiglie riutilizzabili

Drink water in reusable bottles

Risparmia l’acqua e fai attenzione a chiudere (bene) i rubinetti

Save water: turn off the tap

Raccogli in modo differenziato i rifiuti e smaltiscili nei rispettivi contenitori

Aiuta il riciclaggio dei rifiuti, utilizzando gli appositi contenitori che trovi nel parco assistenza. Utilizza idonei contenitori stagni per favorire la raccolta e lo smaltimento di materiali esausti (oli, fluidi, filtri, batterie, lampadine e materiali elettrici).

Sort your waste and dispose of it in the appropriate bins.

Help recycling of waste materials by using the appropriate containers located in the area of the event for the collection of oil, fluids, filters, batteries, light bulbs and electric materials.

Utilizza materiali biodegradabili e scegli borse riutilizzabili

I materiali biodegradabili e riutilizzabili sono più resistenti, economici e durevoli.

Choose reusable bags and biodegradable materials

Biodegradable and reusable materials are resistant, cheap and long-lasting.

Riduci gli impatti ambientali utilizzando fonti di energia rinnovabili e mezzi di trasporto sostenibili, per quanto possibile

Save energy, turn to renewable energy sources, use sustainable means of transport

Dematerializza la documentazione cartacea rendendola disponibile on-line

Evita la stampa di migliaia di fogli di carta, altrimenti usa solo carta riciclata.

Make as many as possible documents available on-line
Avoid printing as much as possible. Prefer using recycled paper.
