4. GPS Monitoring

The Organiser reminds all competitors that every car participating in the hill climb race must be equipped with the RallyGuard GPS monitoring system (MONIT-GPS).

The devices will be distributed at the Race Office during the administrative checks. No deposit is required for the device.

Installation requirements:

To ensure proper installation of the RallyGuard system, each competitor is required to:

purchase a dedicated installation kit, or use the possibility to rent the installation kit during the administrative checks

Competitors are strongly advised to prepare the installation in advance. Incorrect installation may result in issues during Scrutineering (BK1).

The installation and operating manual is available at:
<https://monitgps.pl/zawodnik-climb/>

Additional obligations:

- the car must be presented at Scrutineering (BK1) with the device correctly installed and operational,
- a competitor without the RallyGuard device will not be authorised to start the race, the competitor bears full responsibility for the device,
- the device must be returned after the race in accordance with the official schedule.
