

MAXIMUM SPEED LIMITS

During Rallye Breslau 2025 we will not be controlling the maximum speed limits for the different vehicle classes.

These limits are described in the Sporting Regulations of Rallye Breslau, but since this event is not held under FIA rules and is more about people enjoying themselves, testing their vehicles, and simply having fun, we've made it clear that we won't be enforcing them.

The goal is to keep the spirit of adventure and enjoyment alive, without adding too many strict limitations.
