## **HIGHWAY TOLLS (VIA VERDE)**

The 'Via Verde Visitors' is a temporary electronic device designed for use in Portugal in vehicles with foreign plates, which facilitates the payment of tolls on the nation's motorways.

In order to take advantage of the 'Via Verde Visitors', all you need is an international Credit Card issued by a foreign entity that is valid and recognized by Via Verde Portugal.

For further information concerning 'Via Verde Visitors' please consult [www.viaverde.pt/Visitors](http://www.viaverde.pt/Visitors)

Along the itinerary of the rally there are several sections of highways equipped with "automatic electronic device tolls".

For this purpose, cars must have a special (tag) installed which enables identifying the place and time of use of a tollgate by establishing a connection with the antenna installed at the tollgate.

ACP has made available two "Packages" for the competitors for the automated Via Verde tolls, including the electronic device and the payment of tolls on the motorways:

**"Class 1 Package", with a total cost of 120 euros.**

**"Class 2 Package", with a total cost of 170 euros.**

These "Packages" are available at the secretariat of the rally.

**Horácio Rodrigues**
