36. ADAC ACTRONICS RALLY SULINGEN 2025

MSG Sulinger Land e.V. – 25. / 26. April 2025

RALLY GUIDE

1. Introduction

Dear competitors, dear motorsport supporters,

On behalf of the Motor-Sport-Gemeinschaft Sulinger Land e.V. in the ADAC, we would like to welcome you to this year's event: the 36th ADAC ACTRONICS Rally Sulingen 2025!

The rally event in Sulingen has been part of both the German (DRM) and Dutch Rally Championship (ONRK) for many years. In both countries, the event is therefore in the top league of rally sport and is also a popular and respected event beyond the German borders.

We are very proud and grateful that we have now been able to establish ourselves sustainably in this well-established field with these two high-calibre predicates. In addition, the Volvo Eurocup will finally return to Sulingen in 2025.

After the ADAC Opel Electric Rally Cup powered by GSe celebrated its world premiere in Sulingen in 2021 as the first purely electric one-make cup, we are very pleased to welcome this rally cup with international crews back to the Sulingen region.

Opel Motorsport shows with its Corsa Rally Electric that alternative drive systems and environmental protection are also compatible in rallying. It is a great privilege for us to be part of this cup.

36 years of the Sulingen Rally - that also means 36 years of voluntary work! As every year, we would like to say a big THANK YOU to all the helping hands! Without our numerous volunteers, this event would not be possible. We would therefore like to thank all the local clubs, doctors, Johanniter Unfallhilfe, the Deutschen Roten Kreuz, the fire brigades and all the other volunteers.

Our sincere thanks also go to all local authorities, communities, the town Sulingen, the authorising authorities and especially the local residents. Many thanks also to all the sponsors who are actively supporting our rally again this year. We are also very pleased that we continue to have a strong partner at our side with ACTRONICS. The Dutch-based car electrics service has therefore given its name to our event since 2022.

Please note our safety instructions and safety information on the use of electric vehicles.

We wish all participants of the 36th ADAC ACTRONICS Rally Sulingen an accident-free journey as well as a fair and exciting competition.

The organising committee

4. Service Park

4.1 Address of the service area

Informa site
Hasseler Weg
27232 Sulingen

4.2 General information

The service park on the Informa site in Sulingen will be open **from 8:00 am on April 23, 2025**, and access is via “Am Stellwerk” street.

The access roads to the service areas are paved. The areas themselves are divided into gravel and grass areas. The allocation of service areas for each team will be announced before the event. Food and drinks will be available in the service park.

The entire service park has a power supply.

4.3 Service area

The entry fee includes a standard service area of 60, 70 or 80 m² (per class).

Additional service areas must be requested during the online registration process:

[https://www.adac-sport.com/ADAC Rallye Sulingen 2025 347/](https://www.adac-sport.com/ADAC_Rallye_Sulingen_2025_347/)

The fee per additional m² is: 3.00 EURO/m².

The service areas allocated by the organizer are binding and all information must be received by the organizer no later than the entry closing date of **April 11, 2025!**

4.4 Cleanliness and refueling

Use of the refueling zone must be requested from the organizer as part of the online entry process.

Refueling in the service park is forbidden, except in the cases described in Article 58. Vehicles not equipped with an FT safety tank and FIA-approved refueling connections must refuel at the public gas stations indicated in the road book.

An oil- and fuel-proof tarpaulin measuring at least 5 x 2 m must be laid out under each competition cars. Sufficient oil absorbents and suitable containers for oil/brake fluid disposal must be kept on hand by each service team. Any environmentally dangerous substances must be taken back by the team and disposed of by themselves.

The service area must be left clean. Waste can be disposed of using the waste containers provided on site.

5. Scrutineering

5.1 Timetable

The exact scrutineering time slots will be published in a bulletin and sent out with the entry confirmation.

Scrutineering for Shakedown competitors:

April 24, 2025, 1:30 pm – 4:00 pm

Voluntary Scrutineering:

April 24, 2025, 4:00 pm – 7:00 pm

Scrutineering:

April 25, 2025, 8:00 am – 2:00 pm

Location:

SunPark drive-through hall
Nienburger Straße 11c
27232 Sulingen

5.2 Documents

- Homologation sheet (ORIGINAL)
- Insurance confirmation
- Registration certificate, proof of liability insurance
- data sheets
- SOS / OK sign (DIN A3)
- vehicle registration document
- DMSB Motor Vehicle Passport (KFP), for vehicles registered in Germany
- DMSB Identity Form for Group F vehicles with road approval outside Germany

5.3 Tracking system

Pick up of the tracking system

Pick up tracking system for Shakedown competitors:

April 24, 2025, 11:30 am – 1:00 pm

Pick up voluntary Tracking System:

April 24, 2025, 1:00 pm – 6:00 pm

Pick up tracking system:

April 25, 2025, 7:00 am – 9:00 am

Location:

RallySafe van service park

Informa Gelände
Hasseler Weg
27232 Sulingen

36. ADAC ACTRONICS RALLY SULINGEN 2025

MSG Sulinger Land e.V. – 25. / 26. April 2025

RALLY GUIDE

General

The entire tracking system must be installed and functionally in the competition car **before** the respective technical scrutineering and must be checked by members of RallySafe Nederland on the RallySafe transporter in the service area.

Every crew that receives an acceptance of the tracking system receives a sticker on the windshield, driver's side, at the top - only then does the Scrutineering take place.

RallySafe acceptance sticker:

To ensure safety and uninterrupted service, the tracking system requires a permanent power connection of 9 to 28 volts DC. It is essential that the connection is connected to the positive terminal of the battery (PERMANENT PLUS) in a non-switchable manner. Furthermore, it is essential to ensure that the tracking unit is always supplied with power. The power supply must not be switched via the ignition.

The detailed installation instructions can be downloaded from the Internet:

<https://www.rallysafenederland.nl/training-manuals/>

The fitting kit must be pre-installed in all competition vehicles. The kit can either be rented for €30 per event or purchased online for approximately €160:

<https://shop.statusas.com/shop/category/rallysafe/>

Competitors will receive the tracking unit and fitting kit (rented) for their competition car from the RallySafe transporter in the service area (see program in chronological order (RA. Art. 3)).

Cars whose tracking system could not be approved, which fail scrutineering, and/or whose tracking system is not properly installed are not permitted to participate in the shakedown/event. In this case, the respective entry fee will not be refunded!

The system must be functional during shakedown and during the competition (i.e., throughout the entire event). The tracking unit must be returned promptly at the end of the competition.

No deposit is required for the tracking unit. All participants sign for the issue and return of the tracking unit. If the tracking unit is returned to the organizer/ RallySafe at the end of the event, Nederland are not returned on the same day, the applicant/crew will immediately receive an invoice in the amount of EUR 2,000, which must be paid immediately and without deductions!

Competitors/crews who (have to) end the event early and cannot enter the Parc Fermé must **IMMEDIATELY** hand over the technology of the RallySafe tracking system (mounts, unit, antenna, etc.) **to the service area (ADAC bus/ RallySafe transporter).**

Competitors / crews who finish the event regularly and enter the Parc Fermé must use the technology of the tracking system RallySafe **IMMEDIATELY AFTER entering the Parc Fermé (TC EC-13)** the CREW must remove and return the vehicle independently, using only the equipment carried on board and without any outside help (except for RallySafe employees).

The tracking system or the RS-Lite app must be permanently activated during the Recce, the shakedown, and the competition (except in the parc fermé). A deactivated system will result in a €100 fine imposed by the Clerk of the Course. Further violations will be reported to the Stewards for further punishment.

To collect the tracking unit and – if required – the fitting kit from the RallySafe transporter in the service area, **you must present your registration confirmation and start number!**

36. ADAC **ACTRONICS** RALLY SULINGEN 2025

MSG Sulinger Land e.V. – 25. / 26. April 2025

RALLY GUIDE

5.4 Final acceptance

Teams that have received a request for final scrutineering must immediately follow the designated sports officials and the escort vehicle to the final inspection, even if this means that one or more time controls (TCs) cannot be reached.

Location:

Autohaus Habighorst
Bassumer Str. 77
27232 Sulingen

6. Administrative checks

The exact acceptance time windows will be published in a bulletin and sent with the entry confirmation.

Administrative checks for Shakedown competitor:

April 24, 2025, 1:00 pm – 3:00 pm

Voluntary Administrative checks:

April 24, 2025, 3:15 pm – 8:00 pm

Administrative checks:

April 25, 2025, 7:00 am – 9:00 am

Location:

Rallye HQ

Schmeltingstraße
27232 Sulingen
Gesamtübersicht

36. ADAC **ACTRONICS** RALLY SULINGEN 2025

MSG Sulinger Land e.V. – 25. / 26. April 2025

RALLY GUIDE

In order to keep the time required for administrative checks to the necessary minimum, the following documents must be brought along and presented for administrative checks.

A maximum of two people belonging to the applicant may be present during the administrative checks!

The documents still to be submitted must be completely filled out and signed before entering the administrative checks, otherwise they will not be processed.

Documents that must be submitted:

- Applicant and/or sponsor licenses
- Driver and co-driver licenses
- Driver and co-driver identity cards / passports
- Driving license (driver / co-driver)
- ASN approval for foreign participants (if required)
- Completion of all details in the entry form
- Consent of the vehicle owner (if the driver is not the owner of the vehicle)

gassnermotorsport.de

8. Recce

8.1 Maximum speed

During the Recce, the regulations of the German Road Traffic Act (StVO) and the road traffic authorities, particularly with regard to speed limits, must be strictly observed. The organizer may specify a reduced speed limit for the inspection in the road book and through appropriate signage along the special stages. In specially designated areas, the speed limit is reduced to 50 km/h. These areas are marked with the following signs:

Speed in the designated areas will be monitored/controlled, and violations will be penalized according to the regulations/penalty schedule. Multiple violations may result in ineligibility for the start. In this case, the entry fee will not be refunded.

All participants are required to adhere to the reconnaissance times as per the schedule. Reconnaissance with competition vehicles is not permitted. Vehicles must be marked with a departure marking specified by the organizer. **The starting number (red) designated for reconnaissance must be affixed to the windshield (top, center).**

The restrictions on reconnaissance according to the DMSB Rally Regulations 2025, Art. 35 must be observed.

36. ADAC **ACTRONICS** RALLY SULINGEN 2025

MSG Sulinger Land e.V. – 25. / 26. April 2025

RALLY GUIDE

8.2 Recce cars

The reconnaissance vehicle must be registered during the online entry:

[https://www.adac-sport.com/ADAC Rallye Sulingen 2025 347/](https://www.adac-sport.com/ADAC_Rallye_Sulingen_2025_347/)

8.3 GPS monitoring

Upon arrival at the event, you will need to log in using your access data. Each vehicle/crew will be assigned a unique code to log into the app. The app provides live tracking and real-time monitoring of each crew during the Recce.

The device must support the app and allow GPS tracking (if necessary, activate or configure this in the device's settings). The device must be switched on and functional at all times for the entire duration of the inspection. Each crew member is responsible for this! A report detailing any speeding violations will be created after the inspection.

Accreditation criteria - Registration deadline

Accreditation deadline: **18.04.2025 - 11:59 pm**

The journalists or sports photographers who are authorised to be accredited must be full-time journalists or sports photographers who have a press pass from the following organisations:

- VDM, VDS, DJV, VDZ, BDZV, DFJV

Media representatives must

- an original press release, issued in their name, for the specific event with the current date and signature of the editor-in-chief or head of department,
- Proof of their journalistic activities with vouchers (at least four published articles, photos, etc.) with clear proof of copyright and date of publication,
- a copy of your valid press pass

deposit in the online accreditation system. If media representatives have already been accredited for last year's races, they must upload vouchers from this event. Accreditation from the previous year does not automatically mean that you are authorised for further accreditation in the current season.

The same regulations apply for the issue of a permanent media pass as for individual accreditation. For a permanent media ticket, media representatives must have attended at least five events in the previous year and provide proofs of this (own editorial articles/image publications etc.).

Applications for permanent accreditation or individual accreditation can only be submitted online at <https://akkreditierung.adac-motorsport.de/>. After a one-off registration, the user account will be activated, which can then be used to submit applications for permanent and individual accreditation.

The documents submitted will be checked and you will receive information about the selected event as soon as possible. With your confirmation of accreditation, you will also receive your declaration of indemnity. Please print this out, date and sign it and hand it in at the accreditation centre at the race track.

Only one media representative per editorial office can be accredited for an event. Individual checks are possible. If one of the accreditation requirements is not fulfilled, the accreditation can be approved in exceptional cases. We reserve the right to refuse accreditation applications without giving reasons. There is no legal claim to accreditation. Media tickets and parking permits will only be handed out if the original declaration of liability has been submitted.

Media representatives who publish photos and articles in online media will be handled in the same way as print media representatives.

Accreditations for photographers only authorise the taking of photos and not the recording of moving images. In the case of moving image recordings, a licence agreement must always be agreed with the rights manager appointed for the race series. (see ADAC accreditation system/ contact).

Information about the online accreditation portal: The online accreditation portal is available in German and English. Due to current security requirements, the password for access to the online portal will expire after three months, a new password can be requested via the 'Forgot password' function on the website.
