COMMUNICATION Nr. 5 – RALLY GPS SYSTEM

1.- The GPS system for the test is contracted with the company ANUBE.

2.- The system allows:

- Notify an SOS signal to Race Direction.
- Respond to a race direction request with SOS or OK.
- Receive a caution alert from race direction.

3.- If a team abandons the race, it is obliged to return the GPS system installed in the vehicle to the company providing the service, which will collect it at the race office, if it is not delivered to the last vehicle of the Security Caravan ("Closing" or "Banderas")

4.- Assembly of the GPS system for the Rally: 2 GPS devices will be delivered that must be fixed by means of Velcro adhesive to the center console of the vehicle, within sight and reach.

5.- Operating instructions for the GPS system for the Rallye:

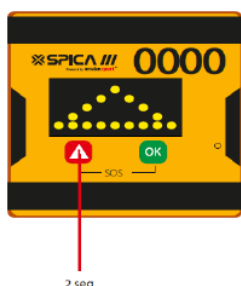

SOS

Press red and green buttons simultaneously for 2 seconds

REQUEST FOR IMMEDIATE MEDICAL ATTENTION

CAUTION

Press Red button 2 seconds

VEHICLE STATIONARY

OK?

Everything is OK

Clerk of course requests status to the participants

Pilots are NOT well.
Next you have to issue an SOS
