5. Insurance Cover and Accidents

The organiser has taken out insurance covering the public liability of FIA, naming the FIA, the Rally Officials, competitors and crew competing within the itinerary of the Rally from the start to the first competition element until the end of the Rally or at the moment of permanent retirement or disqualification.

Service and support vehicles with rally plate are not insured by the organizer liability insurance.

Important information

Public Liability Insurance is valid solely on the Special Stage (from TC each SS to the end of STOP zone). This insurance only covers damage to things and not to vehicles.

The Rally's insurers will make a claim against both crew members even if only one is deemed responsible for a serious offence.

Art. 5.1 Public Liability Insurance – “Organiser”

The contract is with Zurich Assurances. Material damage to property and personal injury: €10 million.

Art. 5.2 Public Liability Insurance – “Vehicle”

Vehicle insurance, minimum 3rd Party, Fire and Theft, is obligatory for all vehicles participating in the Rally. As proof of insurance, an International Automobile Insurance Card valid for Switzerland (green card) must be presented at Administrative Scrutineering.

This liability insurance must cover all damage on the road sections.

Participants drive at their own risk. The organiser declines all responsibility for damage caused to or by a third party or by any items. The organiser requires each crew to have adequate insurance cover before departure. Each competitor is solely responsible for ensuring his/her insurance adequately covers participation in the Rally.

Art. 5.3 Accident reporting – Competitor Safety

Preamble All competitors must be perfectly aware of Article 53 of the FIA Regional Rally Sporting Regulations 2024, “Competitor safety”.

Art 5.3.1 Incident on a special stage (urgent medical attention)

In the case of an accident where urgent medical attention is required, the following applies:

- a. The **SOS** button on the security smartphone should be activated as soon as possible.
- b. When possible, the red **“SOS”** sign should immediately be displayed to the following cars and to any helicopter attempting to assist.
- c. As soon as possible, the red reflective triangle must be placed in a conspicuous position on the same side of the road as the car at least 50 metres before the car's position, in order to warn following drivers, even if the car is off the road.
- d. Any crew which has the red **“SOS”** sign displayed to them, or which sees a car which has suffered an accident, and the OK sign is not shown, shall immediately and without exception stop to render assistance. All following cars shall also stop. The second car at the scene shall proceed to inform the next radio point. Subsequent cars shall leave a clear route for emergency vehicles. All crews stopped by this procedure will be allocated a time according to Art. 52 FIA RRSR 2023.

Art 5.3.2 Incident on a special stage (without urgent medical attention)

In the case of an accident where immediate medical intervention is not required or of a car stopping for any other reason on or beside a special **stage**, whether temporarily or permanently, the following applies:

- a. The **OK** button on the emergency unit must be activated within one minute.

Competitors are reminded that penalties will be applied by the Stewards under Art. 53.3.3 FIA RRSR 2023, if the OK button is not pushed after stopping on a stage with no need for medical assistance.

- b. The green “OK” sign must immediately be displayed to the following cars and to any helicopter attempting to assist. If the crew leaves the vehicle, the “OK” sign must be displayed so that it is clearly visible to all following crews.
- c. The red triangle must be placed in a conspicuous position on the same side of the road as the car by a member of the crew at least 50 metres before the car’s position, in order to warn following drivers, even if the car is off the road.

Art. 5.3.3 Should it not be possible, for whatever reason, to display the OK/SOS board in any of the above situations, this may be replaced by an evident and clearly understandable sign language shown by the crew outside of the car:

- an arm and thumb up to indicate “OK”
- crossed arms above the head to indicate “SOS”.

Art. 5.3.4 Any crew which is able but fails to comply with the above rules will be reported by the Clerk of the Course to the Stewards.

Art. 5.3.5 The road book shall contain a page giving the accident procedure.

Art. 5.3.6 Retirement communication

Any crew retiring from the rally must report such final retirement to the organisers as soon as possible (call to Race Control +41 848 54 32 10), save in a case of force majeure.

Any crew failing to comply will be subject to a penalty at the Stewards’ discretion.

All competitors retiring from the stage outside a special stage are obliged to hand over their time card and GPS beacon to the sweeper car, at the next CH or to the Clerk of the Course as soon as possible

Art. 5.4 Incident on a special stage involving a person who is not a crew member

If a crew is involved in an accident in which a member of the public sustains physical injury, the car must stop immediately, and the procedure as laid down in Article 5.3.1 must be followed.

Art. 5.5 Breakdown

The towing, breakdown and removal of a car during a special stage will only be authorised after the sweeper car has made its final pass through this special stage and at the Clerk of the Course’s discretion.

In the event of a breakdown or a request for vehicle recovery, all costs incurred will be borne by the competitor.

Art. 5.6 Accident on the linking route
