NEUTRALIZATION REFUELLING ZONE SS2

Because of an error with the SPICA/STELLA configuration, the device started to warn at 7 minutes of the neutralization instead of 15 minutes.

The decision of the Clerck of the Course, with the approval of the International FIM Jury, FIM Europe Jury and CERTT Jury, was to give 15 minutes to every rider that does not complete the 15 mandatory minutes in that zone.

The amount of time added to each rider time is in the above table:
