

## SNETTERTON STAGE RALLY 2026 BULLETIN 4

- **Permit Nos 205397 & 205398 - 30 Second Start Approval**
- **Stage Diagram Version Clarification & Minor Amendments**

Further to its application, 30 starts have been authorised for all stages under the above permits in accordance with **NCR Chapter 13, Appendix. 12 Article. 3.26.**

This request was submitted using version 2.5 of the stage diagrams. Version 2.6 has now been produced and uploaded to Sportity for competitor and official reference.

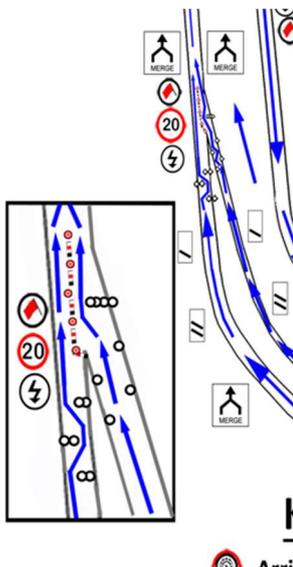

The changes, primarily for safety reasons, consist of the following:

- The addition of Post 34, including marshals, red flag and radio post
- The addition of one tyre on SS5 & SS6 on the exit from Post 34
- There are no other changes to the stage route(s)

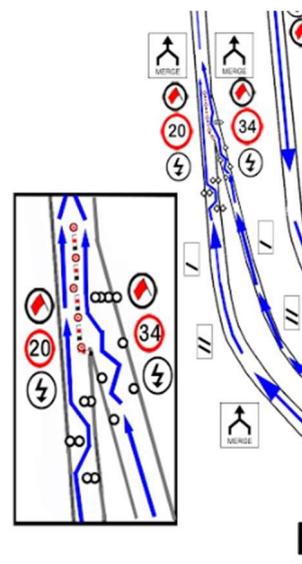

**The Competitor Roadbook handed out on Saturday 7 February contains version 2.5 so Competitors need to be aware of these safety and marshal changes contained in version 2.6.**

### 1.SS3 & SS4
