

Visit Conwy Cambrian Rally Shakedown Stage

Welcome to the Shakedown of the Visit Conwy Cambrian Rally. Whilst this shakedown stage is part of the event, it is separate from the main rally and has been added to give crews the opportunity to try their cars ahead of the rally on Saturday and ensure the car is working perfectly.

The costs to enter this stage are not included in the entry fee; and all fees should have been paid to Sarah our Entries Secretary prior to attending (entries@CambrianRally.co.uk).

The day will commence at 08:30h and finish at 16.30h.

Competitors may book either a full day, or a half day, either AM or PM. The morning session starts at 08:30h for recce then start stage at 09:00h; the afternoon session starts with the recce at 12:30h and ends at 16:30h.

The service area is located at the stage itself at Dolwyddelan which is shown on the attached Map. There are no catering facilities on site, however there are PortaLoo/toilet facilities.

The venue will be open from 08:00h for crews to arrive and set up. There are no fuel stations nearby so please ensure you have enough fuel for the day; the nearest fuel station for diesel or unleaded is the Shell garage in Betws-Y-Coed.

A Motorsport UK Scrutineer will be present on site to check your vehicles before being allowed on the stage. A Motorsport UK Steward will also be present at the venue.

Full details of the location and stage are provided below and on our Sportivity Competitors Channel (CAMBRIAN22).

The stage distance is 2 miles (3.2kms). The stage will consist of a run up the stage to the turning point, then straight back, making a total of 4miles. There is no limit to the number of runs you may complete.

We will have Rescue, Medic and Recovery on stage and the stage is being run under the permit of the event, so is covered by the Motorsport UK Insurance.

Please ensure that you have road insurance if travelling to the Stage in your rally car.

Regards

Alyn Edwards
