2025 OLYMPUS RALLY

The Olympus Rally organizing committee and all our volunteers welcome you to the 2025 Olympus Rally.

Many thanks go out to Green Diamond Resource Company for their generous offering of their amazing gravel stage roads, the City of Shelton for hosting us again for the start and Parc Expose and The Port of Shelton for providing space for our service area.

The route has been measured with a 2002 Subaru WRX utilizing a Monit G-100 with the ABS Sensor Interface, calibrated using the ODO check on I-5 south of Tumwater, WA.

We also want to thank Rick at Green Diamond for the road selection and for getting us 130 miles of the best rally roads in the world!

I would also like to personally thank Steve McQuaid and Ron Barker for trusting me to take on this role for the Olympus Rally!

During this year's Olympus Rally, you will encounter some smooth flowy parts, mixed with some tight and technical stages. There may even be some jumps! You and your car will truly be tested. Watch out for Dayton!

We all wish you a SAFE and FUN event!

Matt Flaisig, Clerk of Course

ROUTE BOOK SYMBOLS AND TERMINOLOGY

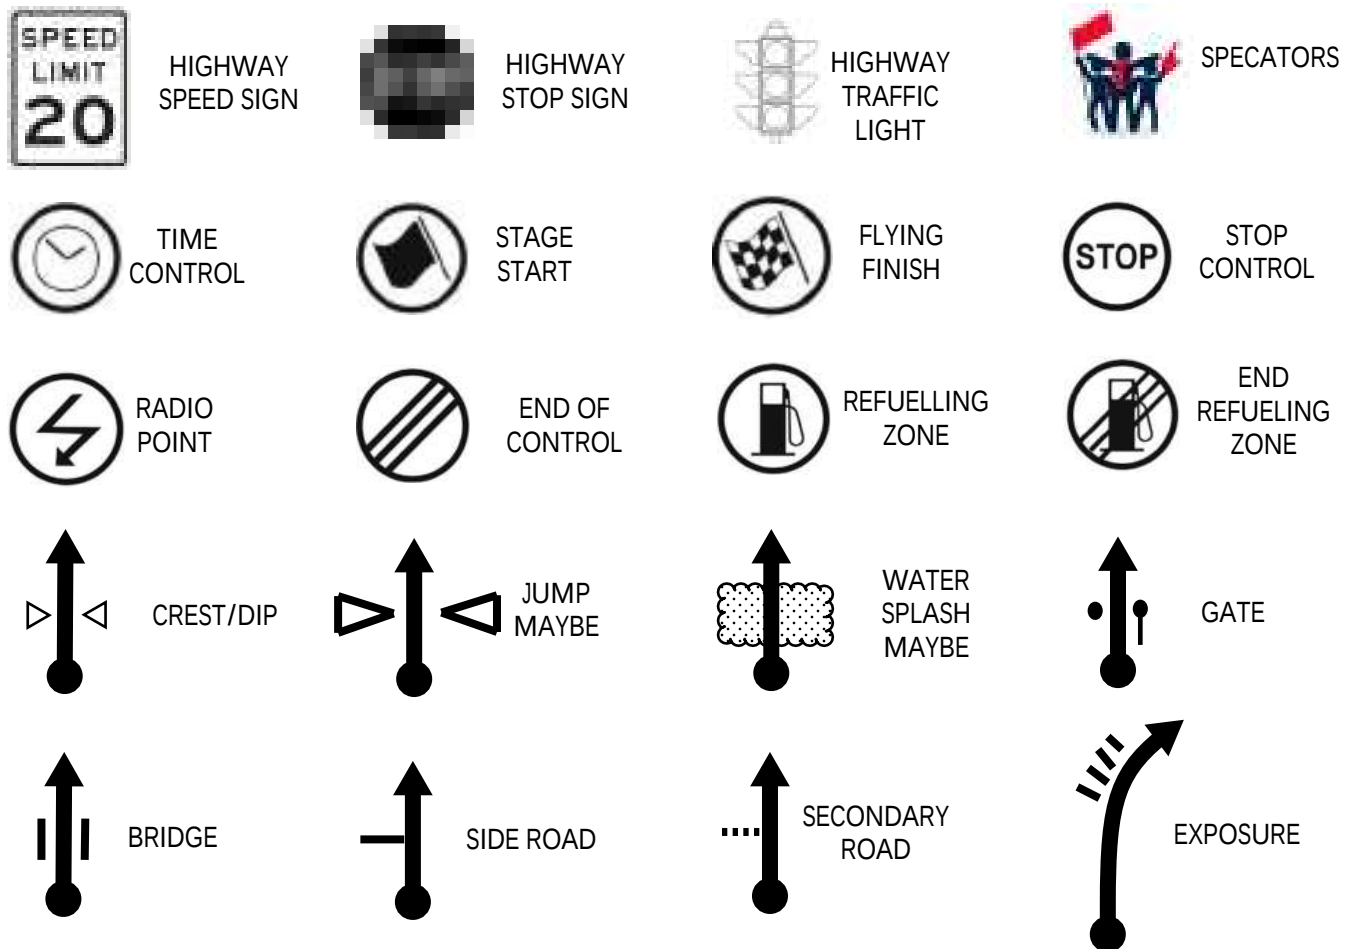

- CAUTIONS:
-  SINGLE: USE CAUTION OR YOU MAY BEND YOUR CAR
 -  DOUBLE: USE CAUTION OR YOU MAY BREAK YOUR CAR
 -  TRIPLE: USE CAUTION OR YOU MAY BREAK YOUR LIFE

QUIET ZONE: SENSITIVE AREA WHERE USE OF LOWER RPMS, LOWER SPEEDS AND LOW BEAM HEADLIGHTS ARE REQUIRED.

EXPOSURE: DROP OFF OR CLIFF, WHEN NOTED, IS A HAZARD.

HPL: HAIR PIN LEFT

HPL: HAIR PIN RIGHT

ROAD SIGN FOR YOUR ROUTE

ROAD SIGN YOU DO NOT TAKE

OLYMPUS RD

~~DID NOT FINISH RD~~

DANGER dot signs will be noted in the route book, however, additional dots may be put up by the ARA Safety Delegate during recce. These areas present significant danger due to locations of trees or other immovable objects, significant drops, or other elements that present elevated risks to the competitors. These areas are almost always combined with significant changes of pace; such as a very fast section followed by an unseen slow corner. The intention is not to mark every area of risk, but to give visual representation to a corner to pay particular attention to when on recce and competing.

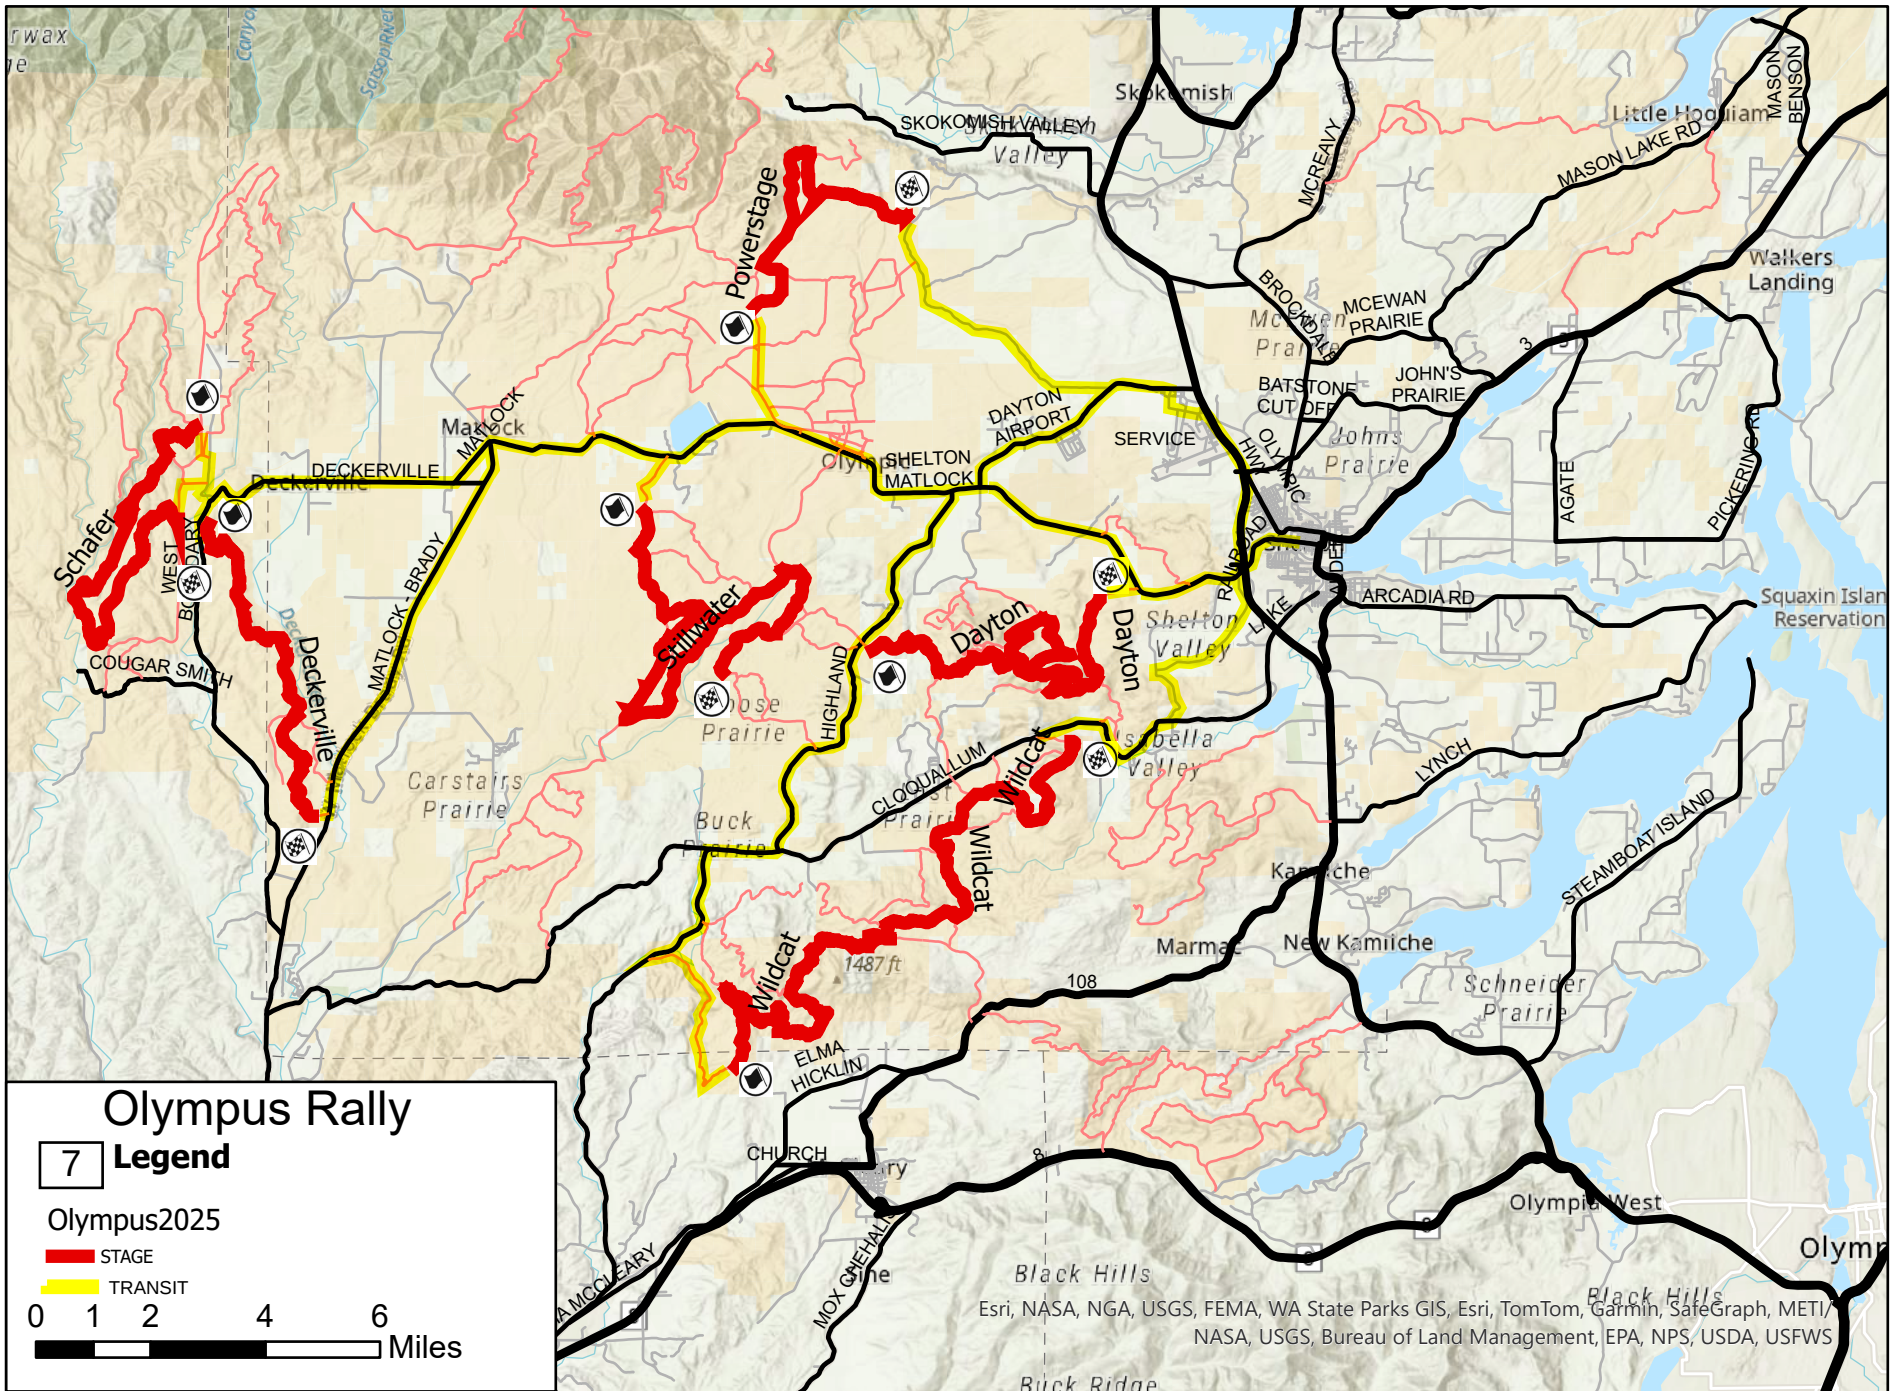

Following the lead from the FIA, three countdown boards will be placed on the right side of the road between the flying finish and STOP control. The boards will serve as a confirmation or reminder that the competition portion of the stage is complete and to slow the car and prepare to stop at the STOP control.

Examples of route signage:

1. Arrow with instruction number.
2. Arrow with instruction number with radio location at the next junction you will find a radio.
3. Arrow with instruction number and caution! Use caution here.
