A vehicle with a Motorsport Australia Log Book does NOT need to be checked by a Scrutineer.

The Competitor, Driver and Co-Driver must, prior to the Event fill out a copy of following Self Scrutiny forms. The forms can then be uploaded to the Online Entry Form:

1. Event Entry Self-Scrutiny - Statement of Vehicle Compliance:
https://motorsport.org.au/docs/default-source/default-document-library/officials/scrutiny/self-scrutiny/self_statement-of-vehicle-compliance.pdf?sfvrsn=c6650559_8
2. The Competitor must also upload images of the Vehicle Log Book including the vehicle details page and the event log. These images will need to be uploaded onto the Online Entry Form.

Scrutineering for Vehicles WITHOUT a Motorsport Australia Log Book:

A vehicle without a Motorsport Australia Log Book will need to be checked by an approved Motorsport Australia Rally Scrutineer. There are two options for Scrutineering:

1. **Regional Scrutineering:** Competitors are requested to have their vehicles scrutineered by a Motorsport Australia Regional Rally Scrutineer in the 2 weeks prior to the Event. The list of Regional Rally Scrutineers is available at <http://www.rallynsw.com.au/info/organisers/scrutineering/>
 - The competitor must download the Event Scrutineering Form prior to attending regional scrutineering. The form can be downloaded from Sportity.
 - If the correct form is not used, the vehicle will need to be re-scrutineered at the Event. The Competitor is to fully fill out the form prior to visiting the Scrutineer (the Scrutineer will ONLY sign the form).
 - The completed form can be then uploaded onto the Online Entry Form.

It is recommended that regional scrutiny be utilised where possible to reduce demand at the venue on the date of the Event.

- The Event Scrutineers will have a copy of the Event Scrutineering Form.
 - Please attend Scrutineering BEFORE you complete Event Documentation.
 - Please line up with your vehicle in the Scrutiny Bays and wait to be Scrutineered.
 - It is the Competitors responsibility to present their vehicle to the Scrutineer in a timely manner to ensure that enough time is allowed for the vehicle to be checked for compliance. It is recommended crew arrive early, as it's expected to be busy and delays will occur.
 - Once Scrutineered, please bring the completed form with you to Event Documentation.
3. The Competitor, Driver and Co-Driver must, prior to the event fill out a copy of following Self Scrutiny forms. The forms can then be uploaded to the Online Entry Form:

ARTICLE 5 GENERAL INFORMATION

5.1 Reconnaissance

As per the Event Schedule, prior to the start of competition, each competitor will be given 2 runs of each course as reconnaissance at non-competition speed. Observers will be on course to monitor competitors during reconnaissance and any competitors deemed to be driving at excessive speed or in an unsafe manner will be excluded from the Event. **RECONNAISSANCE IS COMPULSORY.**

The finish of stages will be indicated by a Yellow Chequered Flag board prior to the timing line and a Red Chequered Flag Board on the timing line.

5.3 Starting and Running Order

Cars will run in numerical order. Crews will depart start controls at no less than 30 second intervals. Such departures shall be single vehicle starts.

It is the competitor's responsibility to be ready on time and in order at the start of each run. Any competitor failing to report to the start in the correct order may forfeit that run.

5.4 Pacenotes

The use of pacenotes is permitted for this Event.

5.5 Penalties

Incorrect side of bollard and gaining an advantage – 30 seconds

The Clerk of the Course reserves the right to take into account all official documents when compiling the results, including control cards and to correct any verified recording errors.

5.6 Timing and Results

The primary timing system used will be an electronic transponder system triggered at the start and finish lines recording time to 1/10th of a second at the Flying Finish with a transponder in each competing car.

Should a car have more than one driver entered, a separate transponder will be supplied for each driver. Each driver is responsible for ensuring their transponder is fitted at the time of their competition run. A secondary system will use a large display clock at the start line and a laser beam.

Results shall be determined by a cumulative time from the best three runs of the first five competitive runs of the course. For promotional or sponsorship commitments additional runs may be approved at the Clerk of the Courses discretion.

Single Driver entries (SD Class - All entries with no Co-Driver) will be included in results as a separate class BUT will not be eligible for outright awards. A separate class award will be awarded for the SD Class.

Provisional results will be available 30 minutes after the last car completes the event. The results are official and final 72 hours after the Provisional results are published, should no protests on the results be received.

Protests must be lodged in accordance with the NCR.

5.7 Finishing Qualifications

As per table 2.1, only the best 3 attempts at each stage will contribute towards results for each competitor. Competitors must start each section from a standing start under the vehicle's own motive force and must complete the section without assistance from other vehicles in a reasonable time as determined by the Clerk of the Course or their nominee.

Any crew that enters or leaves the course in other than the prescribed direction shall be deemed to have aborted that run and no time will be recorded.

5.8 Medical

A paramedic will be in attendance for the duration of the Event.

5.9 Event Signage

It is a condition of entry that all competing cars display the event and/or series sponsor signage provided at documentation whether they are competing in the full series or not. The event signage supplied is outlined in Appendix B.

5.10 Re-Joining

An aborted run or a Did Not Finish (DNF) for a run does not constitute a retirement. If a crew presents ready to start at their nominated start time for the next run they may continue the event.

5.11 Retirements

Any crew retiring from the event must notify the Clerk of the Course.

An accurate reason for withdrawal and any damage to vehicles or other property must be supplied. An Incident Report must be completed if a competitor or other person sustains any injuries and the Organisers may require any crew to complete an Accident Report or other Motorsport Australia forms.

Failure to comply with these conditions may result in competitors being referred to the Stewards who may consider an act as a Breach of Rules in accordance with the NCR and with further reference to these regulations.

5.12 Postponement, Abandonment or Cancellation

An event may be abandoned, postponed or cancelled for reasons of force majeure in accordance with the NCR and:

- if there are less than 35 entries; or
- by reason of "Force Majeure".

ARTICLE 6 INSURANCE

Occupants of any vehicle competing, must comply with the event entry conditions.

PROPERTY DAMAGE:

Each competitor/crew is liable for any damage which they cause, however a claim may be applicable under Motorsport Australia insurance, through the insured entity, which is the Event Organiser, to compensate for the cost of that damage. An excess of \$5,000 is payable where an insurance claim is made. If the cost of any damage is less than this excess, the competitor/crew is required to pay only the actual cost of rectification, in which case where the cost of that damage is known the organisers reserve the right to invoice the competitor/crew at the event and payment of any such invoice is required on the issuing of that invoice.

EXAMPLE: If a plastic barrier is damaged (and witnessed by a judge of fact) a cost of \$400 per barrier will be invoiced by NSSCC on the night and must be paid immediately.

PERSONAL INSURANCE:

Although Motorsport Australia Licence holders are covered by Motorsport Australia personal accident insurance, all crew members are encouraged to have their own personal health insurance and be a current member of an appropriate ambulance service.
