

## **Clerk of the Course Doc 1**

**September 7, 2025**

### **Topic: Observations During Course Check**

#### **First View Stop Signs**

- While running First View South at approx. 7.65 miles into the stage, 2 "STOP" signs are visible from the road and appear to be regulating traffic on First View. These signs are actually for an intersecting road and do not affect First View. These signs will be visible during competition. The CoC recommends notating as a reminder these signs do not affect the roadway or competition.

#### **Watch for falling rocks on Forest Rd 318 (Penske Pass/First View)**

- While traversing the transit between Jerome and the south control on Forest Rd 318 there were multiple areas of fallen rocks on the roadway. Please use caution traversing and if possible move large rocks out of the roadway.
