

Using RallySafe at ARA Events

The RallySafe system is available to all ARA events. It is included at National events and an add-on option for regionals. See the sanction fee list for pricing. If a regional event is going to use RallySafe, it must be communicated to the ARA no less than 90 days in advance of the event (more time is better!). Use of the RallySafe system also includes the RallySafe scoring/results software. RSLite is available for a fee.

Pre-Event Requirements

- Select RallySafe option in the Sanction Application
- Provide info to competitors in the supplemental regulations
 - Include Rental kits as option in Entry Pricing section.
 - Include if RSLite will be used for recce.
- At least 30 days in advance:
 - Provide ARA with accurate GPS points for starts, finishes, controls, chicanes, and quiet zones.
 - Provide a Route Book to ARA (even if draft)
- Provide volunteers with the appropriate training material and documents from the Organizer files.
- Schedule a Virtual RallySafe tablet training with ARA for control workers. This is usually done the weekend before the actual event.
- Perform a course check using a provided RallySafe unit at least one day before tech.
- Determine the course cars that will be using RallySafe units.
 - Usually 000, 00, 0, and Safety Sweep.

At-Event Requirements

- Space and table at tech for RallySafe distribution by ARA Staff.
- Event staff (usually Chief of Controls) to collect tablets from ARA staff at tech or other pre-determined location.
 - RallySafe operator will give all tablets to one event person to be distributed and collected by event volunteers.
- Stable internet connection at race control
- Room in race control for the RallySafe operator and scorer with radio operator and CoC
- Access to a computer for the CoC to monitor the tracking software using an ARA provided login.

Provided by ARA

- Windows Tablets with radios
 - Enough for 3 per active stage, 3 for service area, and 3 spares.
- Units
 - Enough for all competition vehicles and agreed upon course cars.
- Rental kits
 - To cover pre-reserved kits and spares.
- Course check unit
- RallySafe Operator
- ARA Scorer
- Technical support for RallySafe tracking and results systems
- Free spectator viewing in the RallySafe app and website
