### Race Director's Communication 5

Once the sessions are finish, the cars will go to their boxes in a parc fermé situation. Once inside and with the box completely empty of team crew, the engineer of each car will take the SD Car (on board camera), download the videos onto his laptop and wait for the technical delegate or a member of the organisation designated for this purpose to collect it. Once delivered, the engineer may review the videos together with the driver to look for possible evidence that could be studied by the stewards as mentioned in the Team manager's briefing.

A handwritten signature in blue ink, consisting of several overlapping strokes that form the name 'Luis González'.

Luis González  
Formula Winter Series Race Director
