Race Director's Communication

For the extrication exercise, please remember that it is mandatory to have the car in race condition and the driver or a member of the team wearing full safety equipment (racing suit, hans and helmet).

In order to facilitate the work of the rescue teams, the car selected for this exercise must be outside the box (slow/working lane of the pit lane) or outside the tend (for meetings where there are no boxes « paddock area »).

The teams and cars selected for this exercise throughout the season will be informed by a document from the stewards.
