At recent Show-Me and 100aw events, we have heard increasing number of complaints from locals directly to us and through the County Commissioners. We've heard stories of competitors almost driving other motorists off the road, driving recklessly, "racing" by residences in early morning hours before practice stages, taking large crew trucks where they were asked not to take them, etc. In fact, we have lost one of our counties, partly as a result of competitors/crew actions. While we take some of these reports with a grain of salt and know there could be some embellishing, if even any of them are true, these are serious problems. We are guests in these communities, and the 100AW PRG committees work hard to get and maintain access to these roads, and actions like these damage the relationships that we work hard to build with the residents and municipalities, and put future rallies in jeopardy. Competitors not following the rules of the road, rules of the rally, and requirements outlined in the Supps, simply **cannot** be tolerated. Please be conscious of your actions for this rally and for the future of rally in Missouri.
