## Bulletin 2 Modification

### 1/ OTHER PROCEDURES AND REGULATIONS \_ art. 11.15 – Waypoints (up date)

Depending on the waypoint type, the NAV-GPS directs the competitor towards a waypoint only once they have validated the previous waypoint or if they have come within the opening radius of it. To validate a waypoint, competitor must pass within the validation radius of it. The exact opening and validation radiuses as well as the penalties are listed in the following table:

	Waypoint	Opening radius (m)	Validation radius (m)	Penalty for missed WP
Navigation WP	WPE	Prev (1000 m)	90	15 minutes
	WPM	800	90	15 minutes
	WPS	1000 m	30	15 minutes
	WPC	None	300	15 minutes
	WPP	100	20	2 minutes

Previous (1000) = previous waypoint or within a radius of 1000 m if the previous waypoint was missed.
