INFORMATION Nr. 3

Service Park (SP) Assembly

(Wednesday, July 29, from 07:30 PM to 09:30 PM)

Entry of "Service" and "Auxiliary" vehicles for the assembly of the SP

As you can imagine, organising an SP for 86 teams of competitors is no easy task. To ensure everything runs smoothly, we rely on the collaboration of all teams.

When all documentation is handed over to competitors, which begins on July 25th, at the Control Centre, a map will be provided with each competitor's position in the SP.

This map was created and organised according to the information provided by the teams, particularly regarding the grouping of competitor vehicles. It took many hours of contact with all the teams to achieve this result.

With the collaboration of all the teams, we were able to arrive at this distribution of teams according to the available space, which we will implement next Wednesday, July 29th, from 07:30 PM to 09:30 PM.

All service vehicles must be present on this day so that we can set up the PA with all competitors present. Only this way can the organisation guarantee the previously reserved space for each competitor.

Any competitor's failure to appear will be reported to the Clerk of the Course.

On the handed map, the teams were divided into two routes available for access to the PA, as indicated below:

Harvey Foster Roundabout – Access for competitors who will be parked on Avenida Dr. Sá Carneiro Junction of Estrada da Pontinha and Rua Virgílio Teixeira (better known as the Lobo Marinho Ferry boarding pier) - Access for competitors who will be parked at Pier 6 of the Port of Funchal and at the São Lázaro Pier.

These entrances will be controlled in due time, and no "Service" or "Auxiliary" vehicles will be allowed to enter before 07:30 p.m.

Any competitor or group of competitors will be informed of their entry time at these entrances and must respect it so that everything runs smoothly, for the benefit of all. It is not worth arriving before

your team's designated entry time, since the spaces will only open at 07:30 PM. For everything to run smoothly, please adhere to the schedule communicated to you as much as possible. If for any reason you arrive early, park at the Funchal Port pier and only proceed to the designated location at the PA.

Anyone who requested a group of competing vehicles, please group up in advance so that all vehicles can enter one after the other. Any missing vehicle may only enter the PA after all other vehicles have already arrived at the PA.

Failure to comply with these recommendations will be reported to the Clerk of the Course.

We therefore request your full cooperation, which we thank you in advance, so that everything runs smoothly and that we can reach the end of the day and say that it was worth working toward the same goal: to have the PA properly assembled and ready for the challenge we will face over the next three days.

We remind you that there are 86 competitors, all with the same rights, so everyone's cooperation is the key to the success of the rally.

Trailer Parking Area

For this edition of the Madeira Rally, a dedicated trailer parking area will be available at the end of Pontinha.

Given the limited capacity and the logistical needs of the participating teams, we ask for everyone's cooperation in prioritizing the use of this space for teams arriving from outside the Autonomous Region of Madeira, as they generally lack local alternatives for parking their trailers.

Service Park Access Control

Access to the parks for service and support vehicles will be managed via an identification sticker, which must be affixed to the vehicle.

Each sticker features a unique QR code to enable access control and validation. This system aims to ensure more efficient traffic management within the parks by guaranteeing that each credential corresponds exclusively to the vehicle for which it was issued, thereby preventing sharing between vehicles from the same or different teams.
