

RACING FESTIVAL SPA 2022

FORD FIESTA SPRINT CUP & MAZDA MX-5 CUP

Date 14-10-2022 – 16-10-2022

From	The Race Directors	Document	01
To	All Teams, All Officials	Date	16-10-2022
		Time	14:40

RACE DIRECTOR NOTE TO ALL COMPETITORS

1) VSC PROCEDURE

All drivers of the Ford Fiesta Sprint Cup series and the Mazda MX-5 Cup are reminded to respect the VSC procedure as described in the Drivers' Briefing.

The diagram illustrates the VSC procedure for two racing groups. On the left, the Mazda MX5 Cup group is shown with a leader at 80 Km/h and five cars behind. On the right, the Ford Fiesta Sprint Cup group is shown with a leader at 80 Km/h and five cars behind. A central gap of '?? sec' separates the two groups. A 'Group 1 car rejoining after spin' is indicated by a red box on the far right. A large 'NO OVERTAKING!!!!!!' warning is centered below the car groups. The 'Racing Festival' logo is in the top right corner.

VSC Restart: All LED-panels OFF = indication that restart will follow within 5 -10 seconds.
LED Panels GREEN = restart. Overtaking allowed immediately.

When the VSC-procedure is ending, and the race is about the restart:

1. All VSC LED-panels will go OFF (black)
 - Overtaking is NOT ALLOWED
 - The leader of the group may speed up, other cars may follow that speed (in single file), but may not overtake.
2. Once the GREEN LED-panels are activated, it is allowed to overtake (as GREEN panels indicate the official RESTART). It is sufficient to have the green panels in sight (passing the panel is not needed) to initiate the overtaking attempt.
