EMERGENCY BATTERY INSTALLATION GUIDE

Emergency Batteries – How to use

In case of need, the **Race Direction** will instruct the use of an emergency battery to power the **BR001 device**.

The emergency battery is required to supply power to the device **when the vehicle does not provide it**.

Fig. 1 – The emergency battery

To install the battery, follow the procedure below:

1. **Turn on the battery** using the side switch (Fig. 2).
2. **The LED will light up**, indicating that the battery is activated.
3. **Connect the cable to the appropriate charging port** of the BR001 device (Fig. 3 and Fig. 4).
4. **Place the battery in the safest possible location near the device**, using the adhesive sticker on the back (Fig. 1).
